Employ autonomous, friendly, AI-driven cloud management

ABOUT CALOUDI:

Caloudi Corp. is a CSP and ISV located in the United States and Taiwan. Founded in 2019, Caloudi promptly became an accelerator in cloud solutions. We provide an AI-powered autonomous cloud management platform to increase efficiency and lower costs.

See what customers are saying:

"With newly added anomaly detection and forecasting capabilities, Caloudi CMP takes AI and autonomous properties to a higher level. These new functions, as well as the previous resource tag enhancements, have made customization simple for us."

— Jason Kuo, Technical Project Manager, Trend Micro Inc.

WHAT WE OFFER

Caloudi creates professionally made and versatile cloud solutions for our many customers. We offer cloud procurement, IT support, and consulting services, as well as products developed in-house, including our Caloudi CMP cloud management platform.

We provide end-to-end cloud solutions that specialize in AI-based analytics and hybrid and multicloud support.

Caloudi CMP does away with cumbersome calculations—the platform generates autonomous reports, as well as AI-based anomaly detection and forecasts to help manage costs, usage, and resources.

Clients with hybrid and multicloud demands can also leverage our solution to enjoy a cloud experience that's free of unnecessary constraints and burdens.

Why Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
