Marketplace changes & visibility

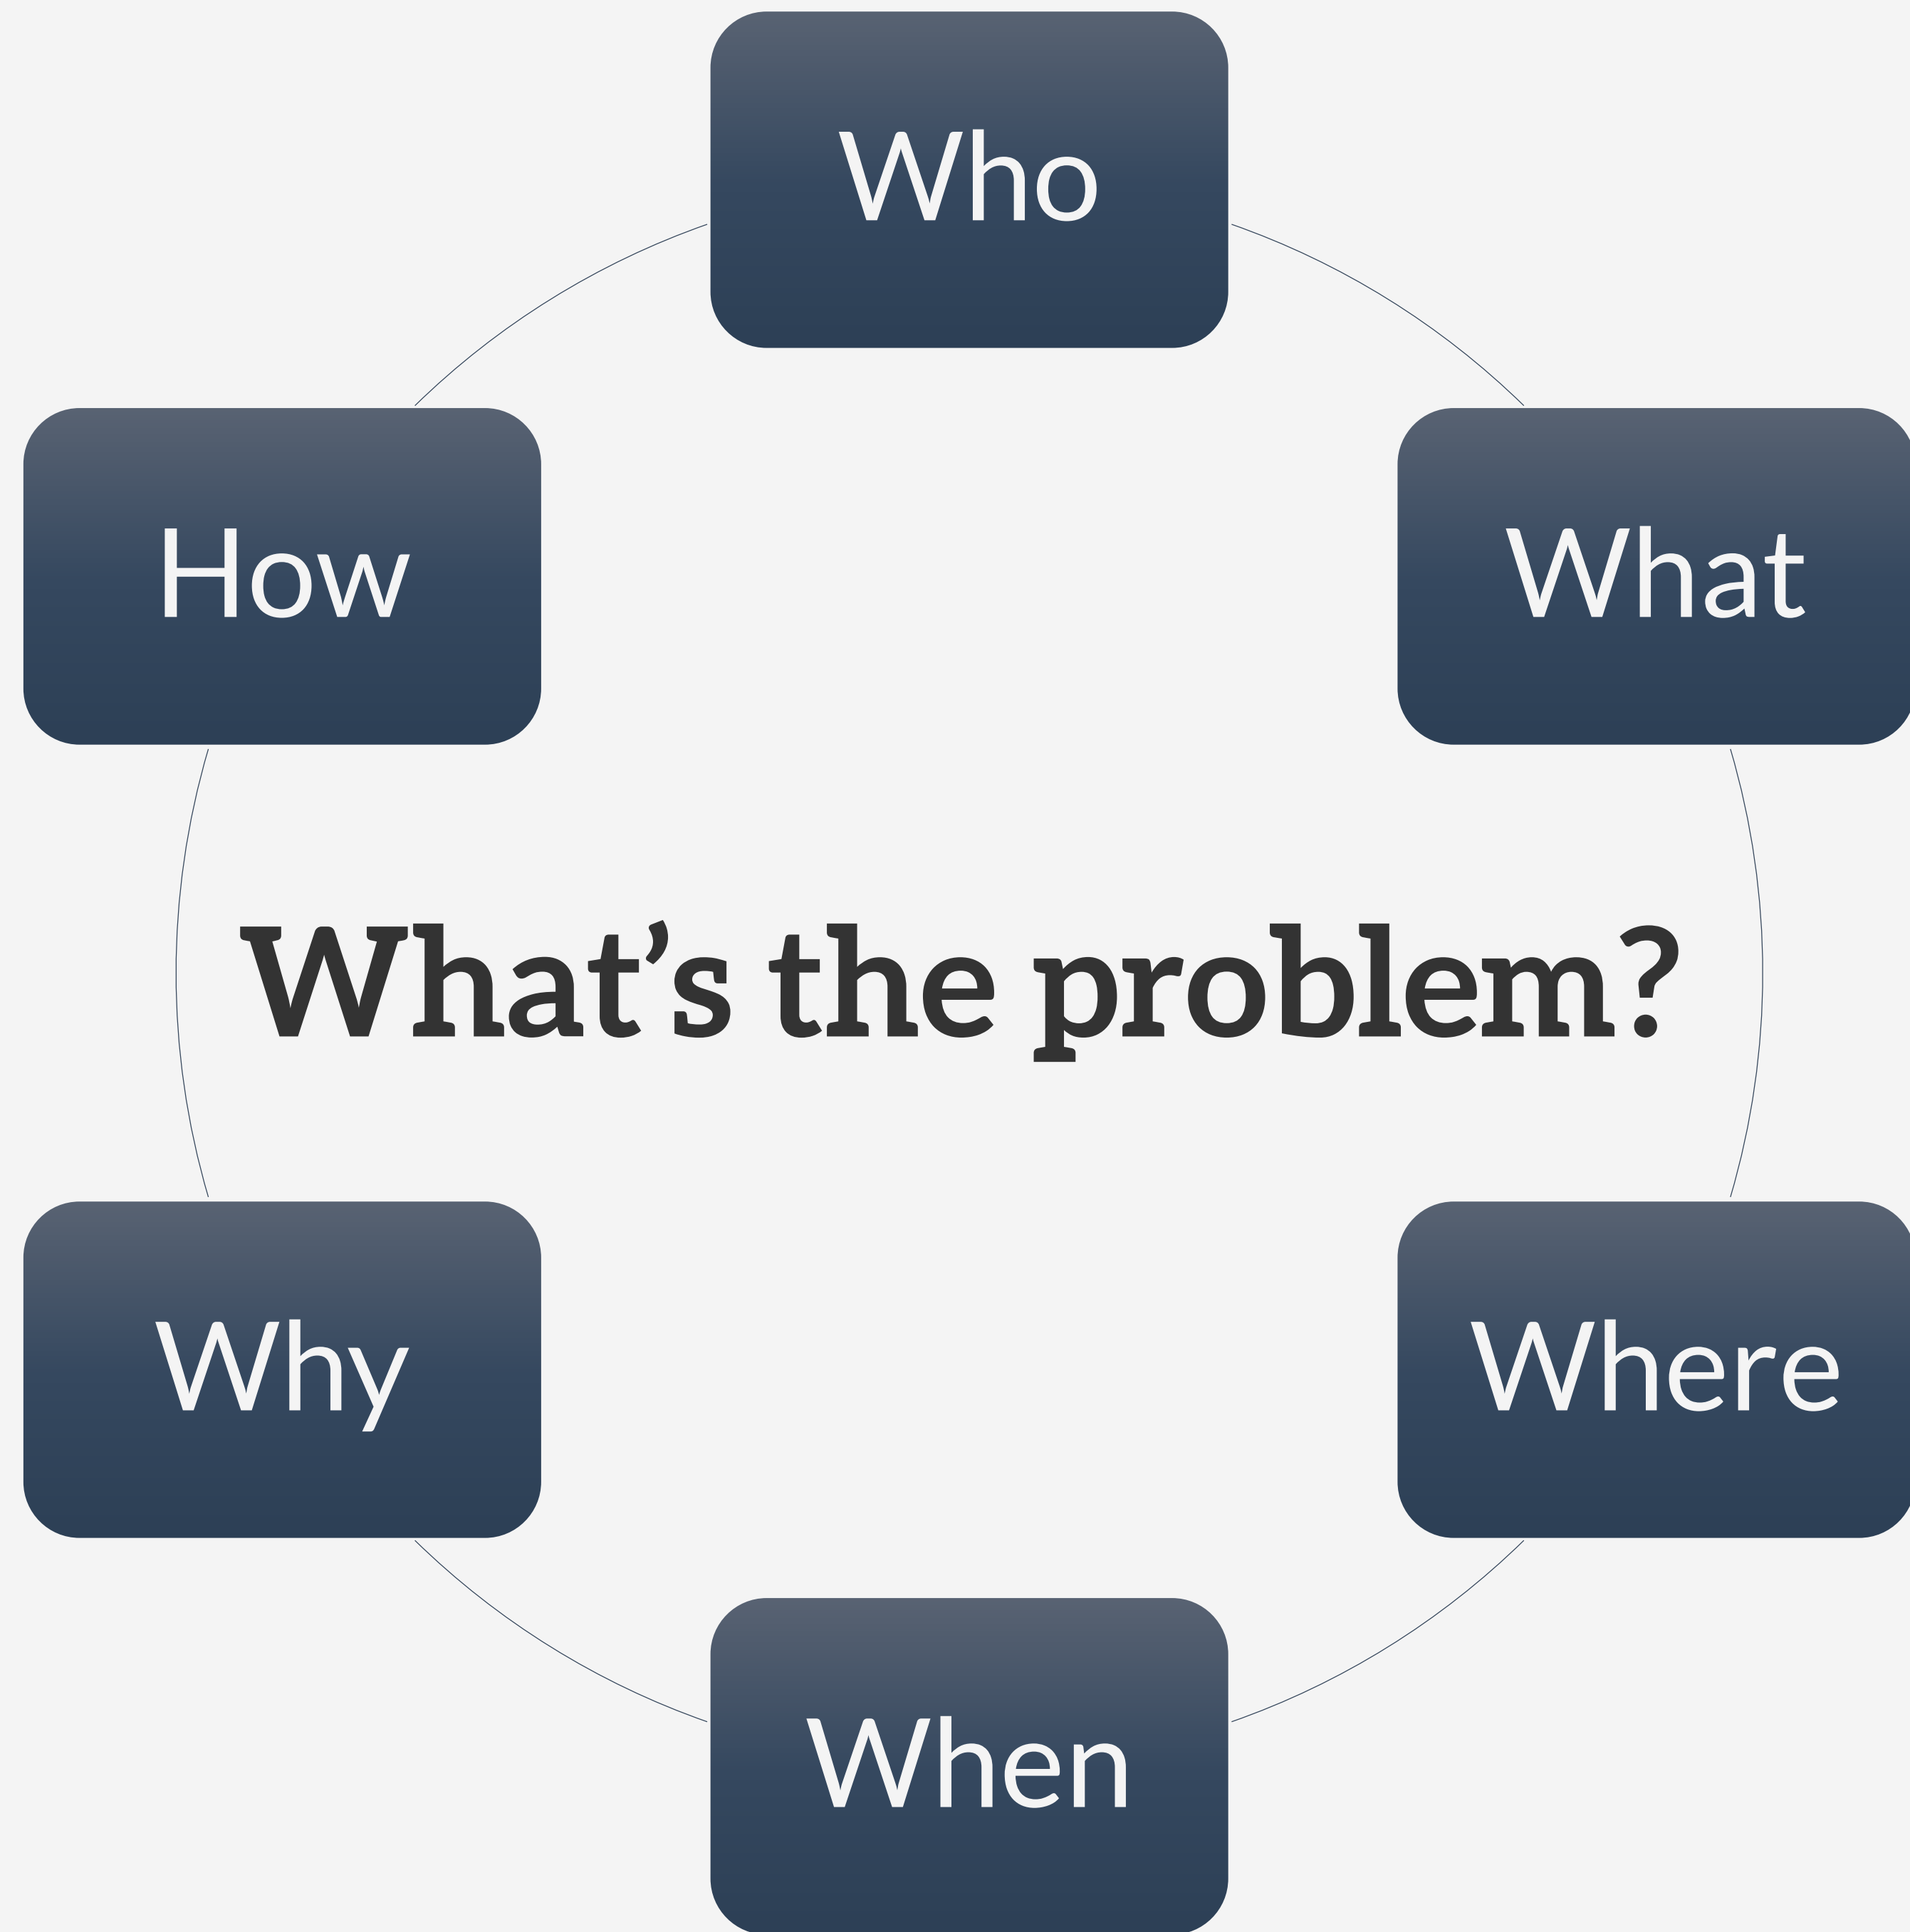

Understanding online resellers

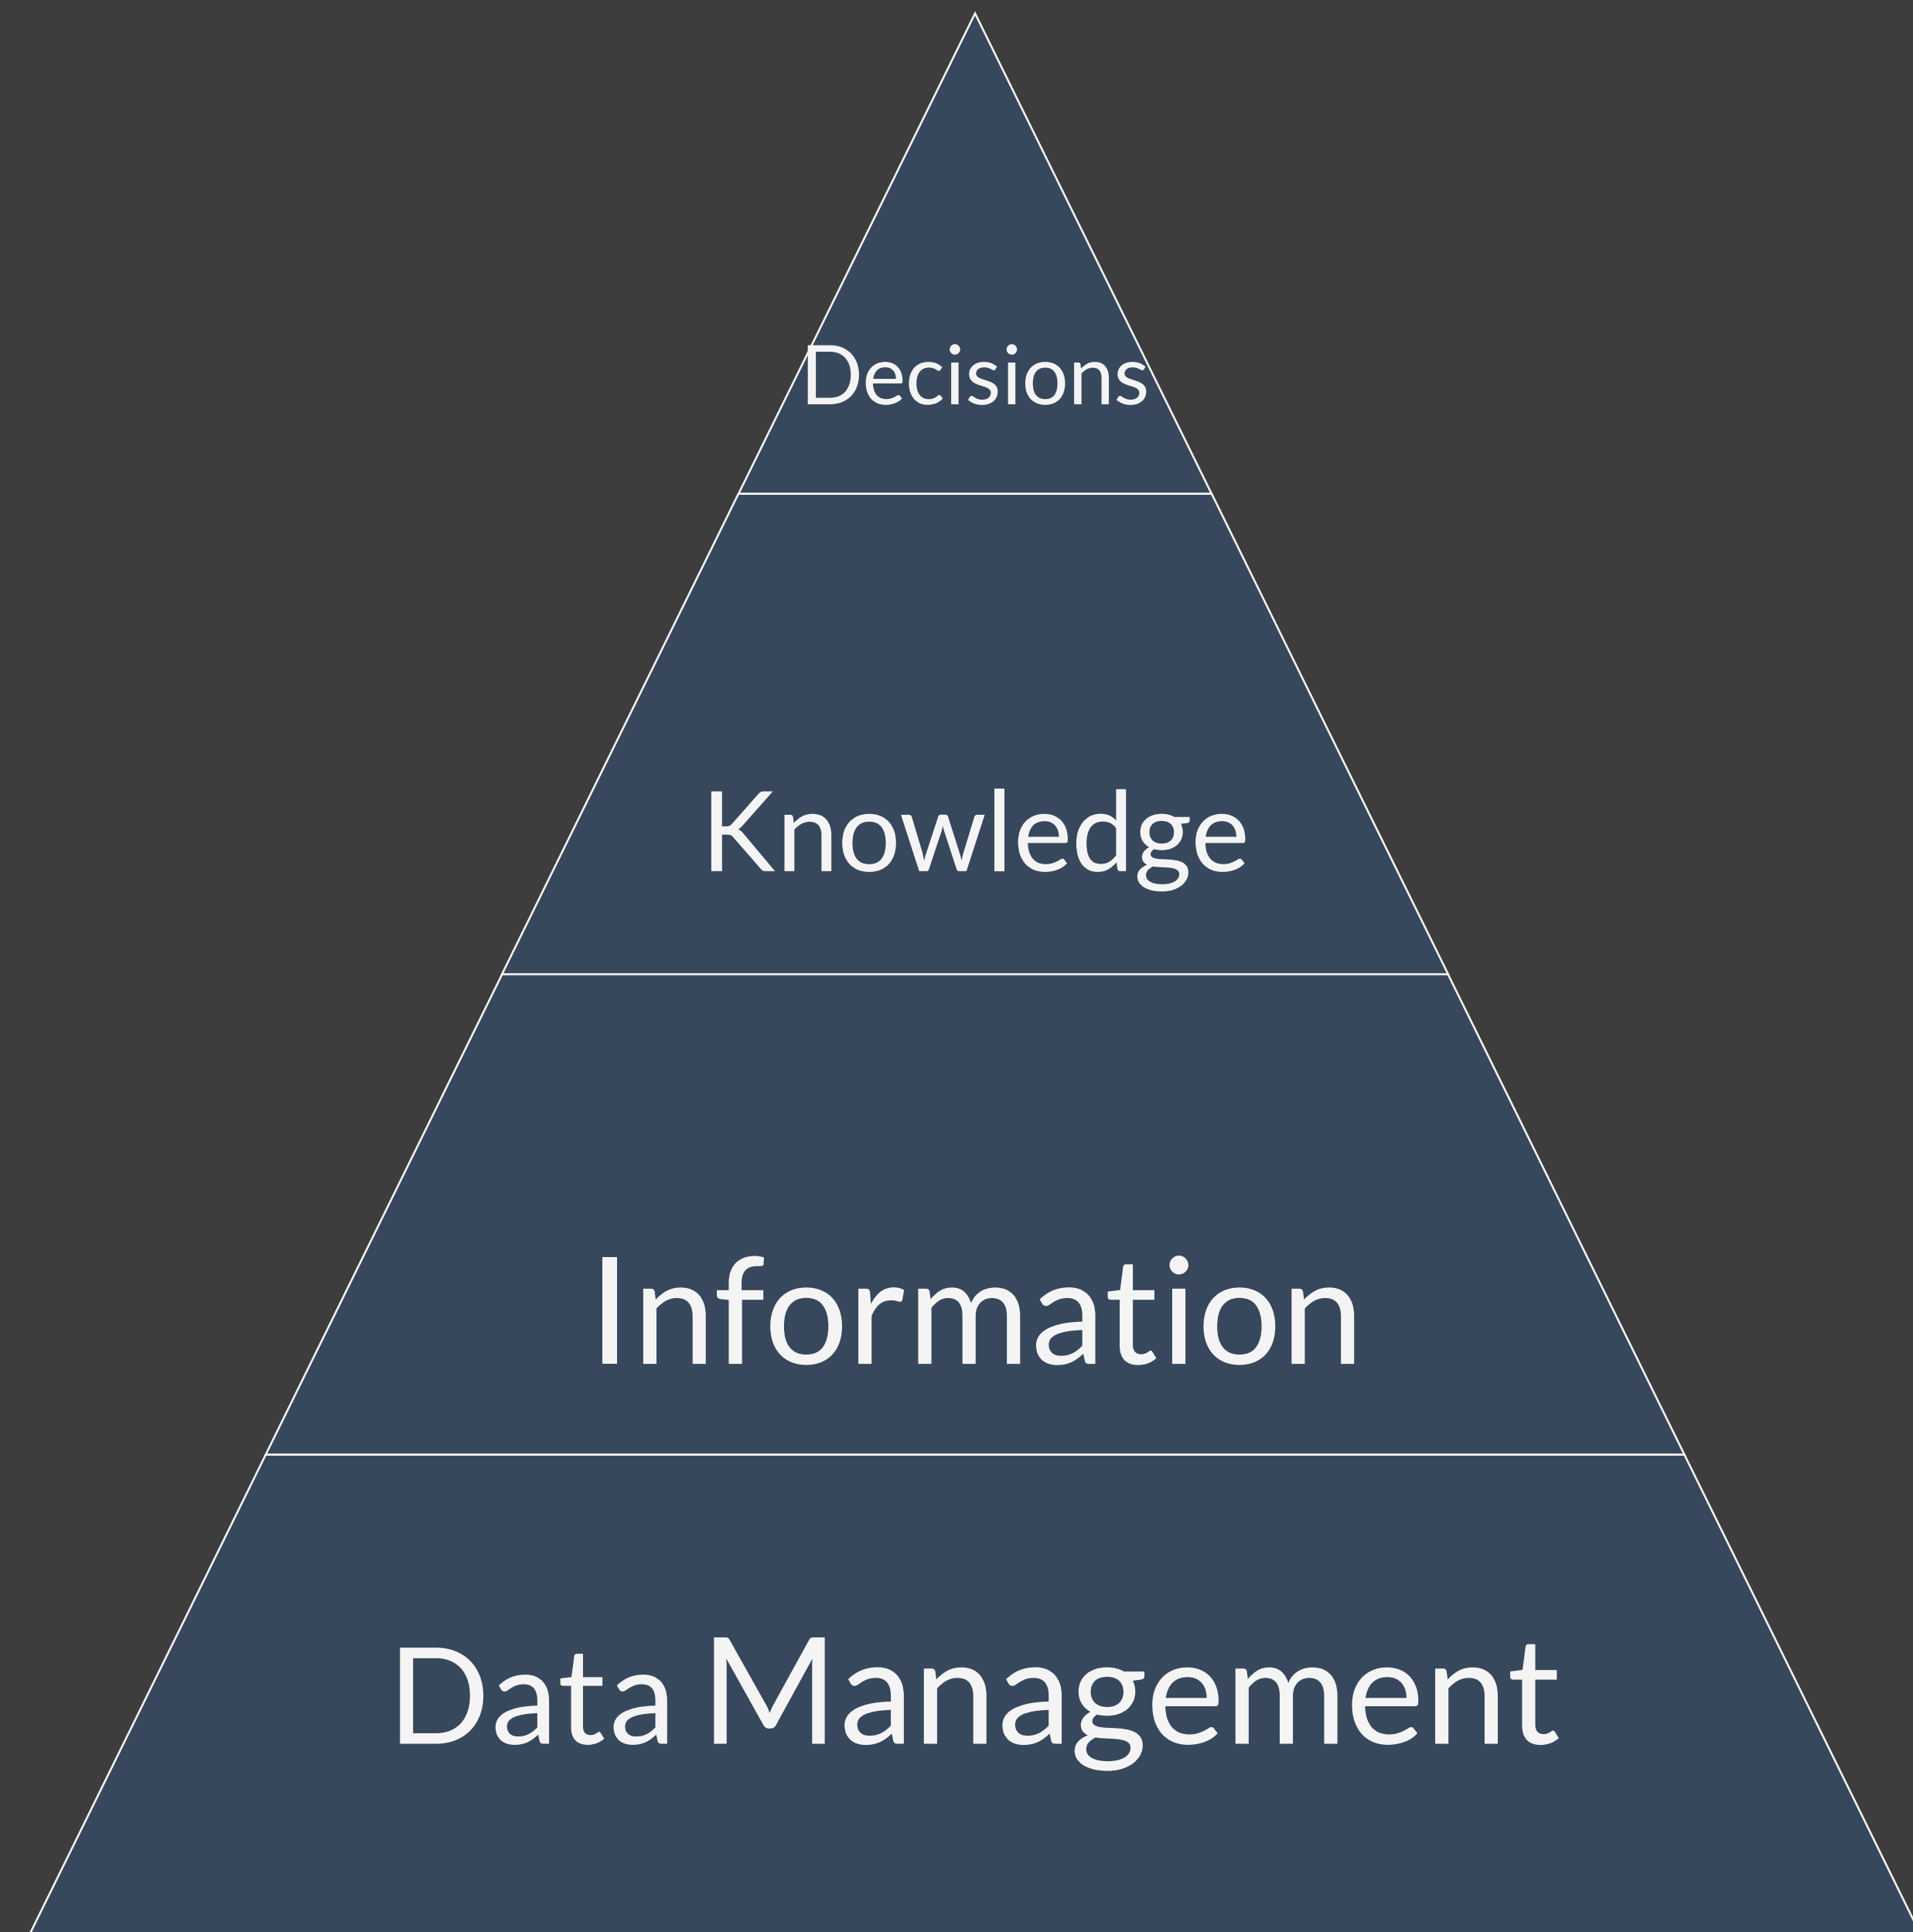

Staying ahead of the competition

Today these problems still exist however we have the power of PriceSynergy.IO you can overcome them!

What we do

We deliver key data to your business giving you the ability to analyse online resellers and make actionable decisions.

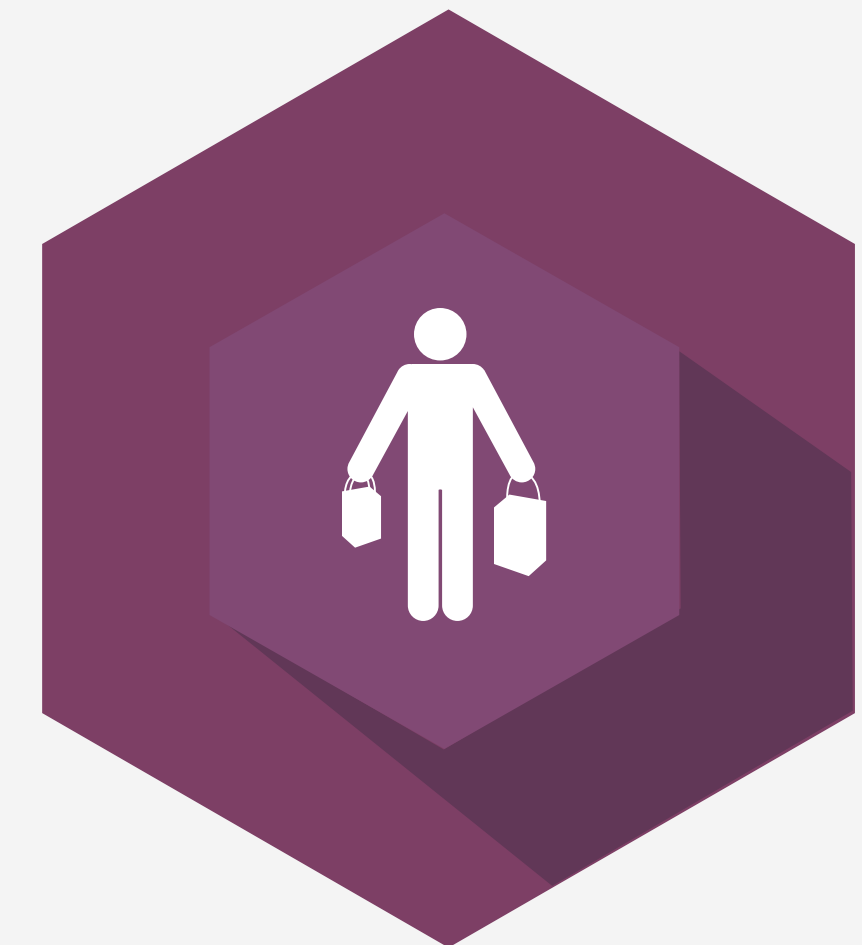

Our advantages

Platform can handle multiple, countries, revenue streams and marketplaces.

Investment and backing by Microsoft enabling reliable uptime, scalability and integration between systems.

Discover competitors and insights you never knew you had; all we require is single piece of information

The benefits

Visibility

- View all online reseller products
- What price they are being sold for
- View reseller brands

Opportunity

- Increase products being sold
- Find resellers online
- Track competitor products online

Protection

- MAP Violation
- Reseller Violations
- New Products & Resellers arriving online

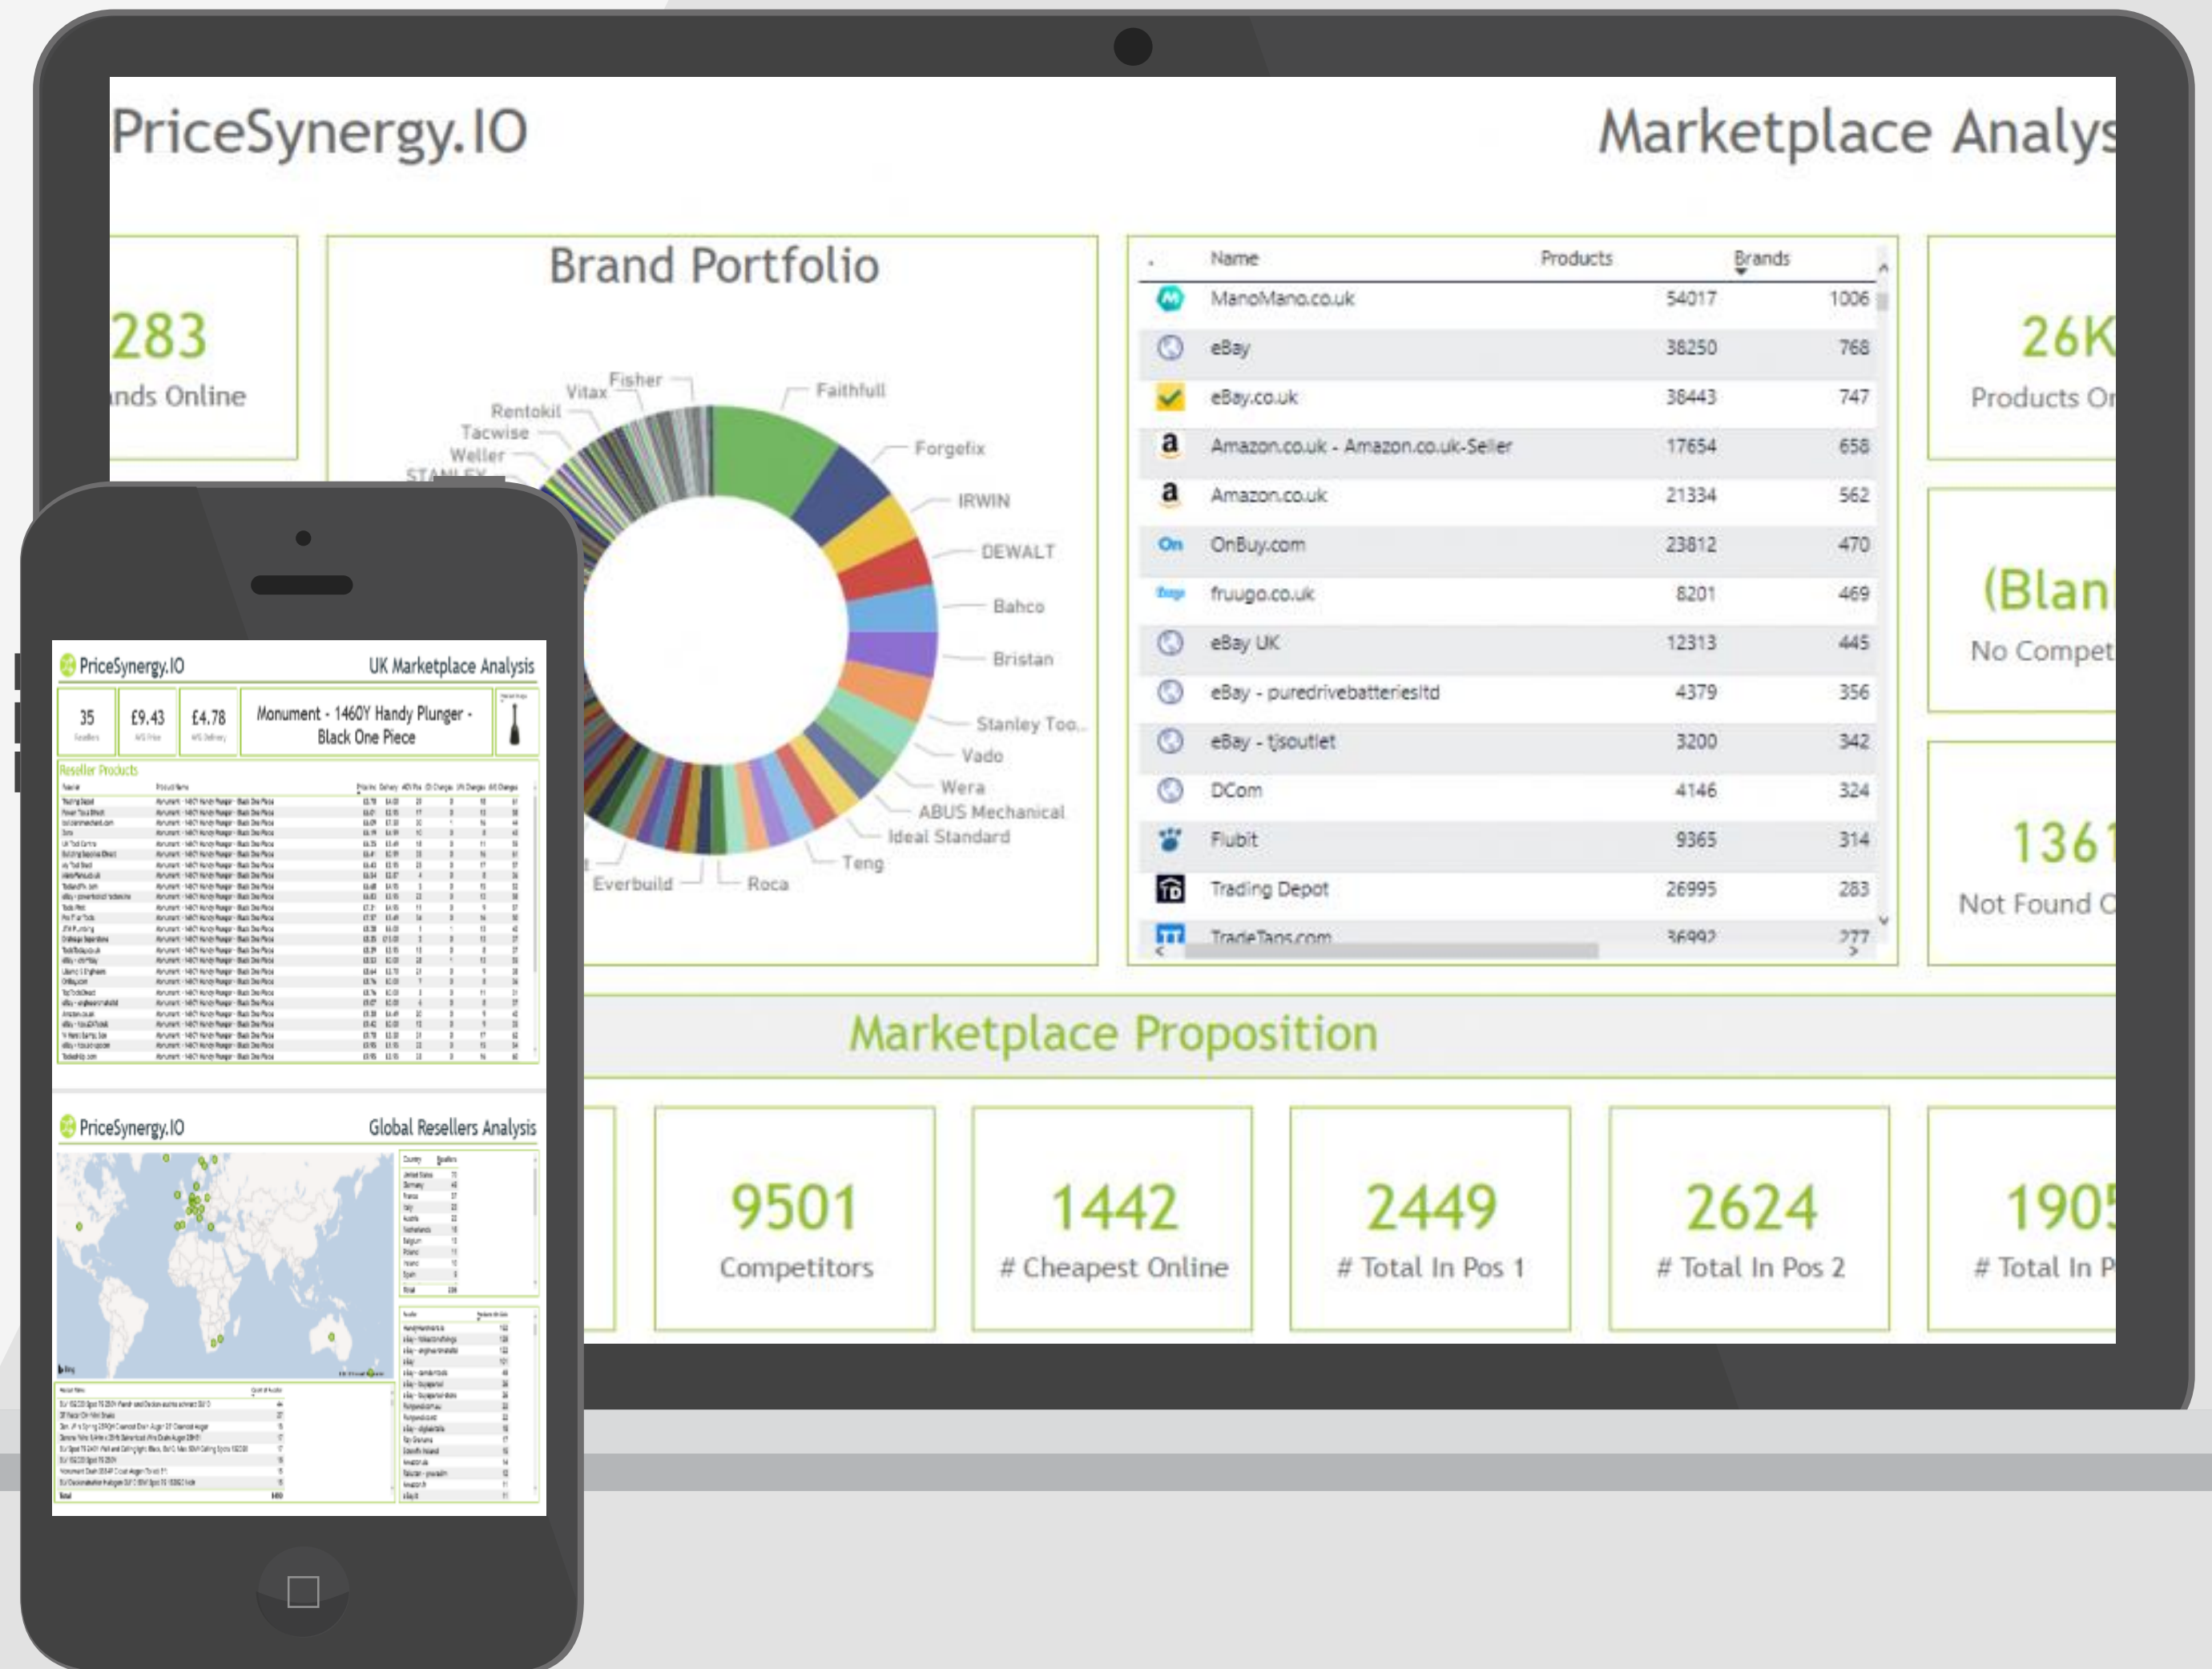

Integration

- Cross department usage
- Cloud Based Solution

Product overview

Management & Reporting

- Product management suite
- Drill through insights on Dashboards
- Competitor & Reseller Impersonation
- Export data to external systems

The value

Platform

- No specialist staff required
average saving of **25K** to utilise information
- Data can be used across the business enhancing knowledge without any added cost
- **Savings – Minimum 25k**

Protection

- Talk from strength, be the first to know on what is happening with your brand online.
- Instant notifications, don't let your customers tell you!
- Protect against Grey Imports
- **Savings - Unlimited**

Sales & Development

- Work with resellers to develop brand and grow sales
- Identify new accounts that are selling other brands over yours
- **0.5% Growth - estimate – what do you think**

Competition

- Monitor competitor promotions and product offerings
- Understand marketplace pricing VS your pricing.
- Find resellers selling competitor products
