

# EXCHANGE / OUTLOOK CONTENT CENSOR

- Built on the CB Exchange Server Sync concept

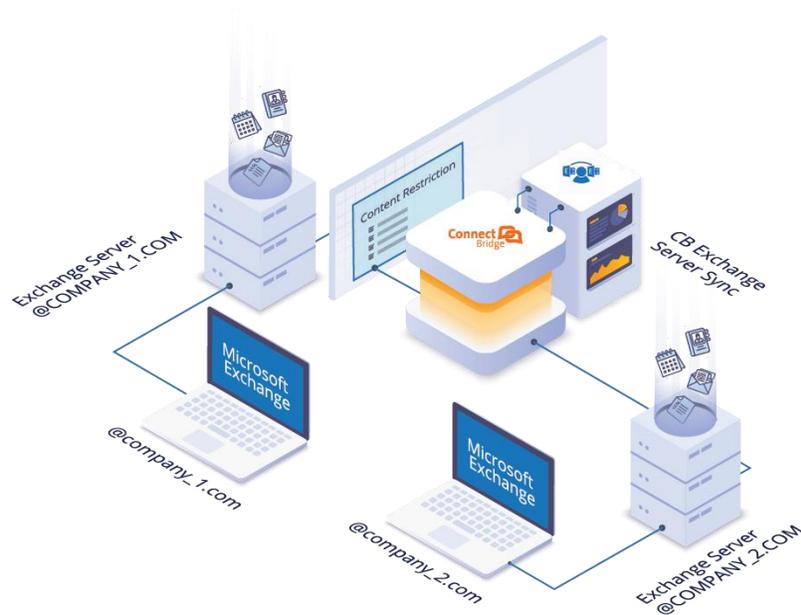

Protect content from misuse outside your local network

**Exchange/ Outlook Content Censor** is a solution that allows to access your Exchange account outside the company, for example, on mobile devices, without exposing sensitive information. You can **control** what to restrict such as: **attachments, address, signatures, names, documents and more.**

Fully customizable to your business needs and only for self-hosted deployment.

The solution is built on the concept of the **CB Exchange Server Sync** which is used in large corporations around the world.

## Features

Secure access to the local network

Control confidentiality of mailbox data

Prevent data breaches from mobile devices

Access Outlook calendar remotely for urgent matters

# Reading Material

## How to Have Secure Remote Access to Exchange/Outlook Mailboxes

Let's be objective. If we are lucky to leave the office at 5 pm or 6 pm, it doesn't mean that our workday is over. A lot of work happens during afterhours, with urgent notifications and calendar updates coming much later than we exit the office door. This is why we keep our mobiles as an extension to our workstation and confirm appointments, reply emails on the go – while commuting, for example.
