LARCAI
COGNITIVE AUTOMATION

(010) 285 0444 / 0845814062
Soetdoring Building, 7 Protea
Road, Centurion, 0157

LarcAI is a well-recognised South African company with a credible track record in partnering with clients to achieve their specific **digital transformation** objectives. Our aim is to **empower** our clients through **digital and technology transformation**, enabling them to **scale** and be more **competitive**.

We do this by combining:

- Intelligent Robotic Process Automation (iRPA),
- Artificial Intelligence (AI),
- Machine Learning (ML),
- Virtual assistants,
- Bespoke Developed Software,
- Intelligent Document Processing,
- Computer Vision,
- Natural Language Processing (NLP),
- Managed Consulting Solutions

Our success lies in the delivery of various successful **automation and integration projects** and have worked with clients from **different market verticals** where their specific **intelligent automation and integration** goals have been achieved. We focus on building new products/services and implementing prudent strategies in today's dynamic digital environment.

With this said we integrate information from any source and **simplify data communication** between different systems.

What we are proficient in to deliver Integration and Automation Solutions:

C#, vb.net
Microsoft Power Platform
UIPath
Data Services
AI Services
ML models
SQL Server (SSAS, SSIS, SSRS)
Azure and other Cloud technologies

We can work along side your team or upskill your team or we can be your team.
