

Services Overview

XRM Vision helps organizations bridge the gap between the yearly executive planning cycle and Project Managers using Viva Goals and Microsoft PPM technologies. We will increase the business value your projects deliver by designing the process & technology infrastructure needed to implement an OKR system, quantify the business value of projects as they relate to OKRs, and implement the business cadence & technology needed to facilitate this system.

About XRM Vision

- Microsoft Partner since 2010
- Recipient of the Microsoft Partner Awards for Best Portfolio Management & Best Project Management
- Head office is located in Montreal, with other offices in Victoria, Toronto, and Morocco

Business Value

Benefits of the Fully Aligned Organization Using Viva Goals

- Increases the business value of your organization's projects
- Projects become quantifiable, enabling more accurate planning and decision making
- Gives staff a greater sense of purpose in the workplace

Offer Deliverables

Discovery Workshops

- A 1-hour envisioning workshop that showcases the capabilities of Viva Goals & Microsoft PPM technology
- 1 – 3 (varies by organization size) 1-hour workshops where XRM staff will assess your current technology environment & business processes.
- These sessions will be used to draft a statement of work for implementing a Viva Goals Proof-of-Concept
