

Lotus Beta Analytics Nigeria

Lotus Beta Analytics Nigeria is a company leading the revolutionary approach to information technology (ICT) by redefining and reimagining a strategic approach to solutions and service delivery. We are focused on professional world-class service delivery, delivered according to global best practices, and customer satisfaction before and after. Our clients and enterprises and SMBs are spread across different industries in Nigeria.

WHAT WE OFFER

PRODUCT DESCRIPTION: Our Azure File Migration service allows organizations to migrate their files from on-premises or other cloud platforms directly into Azure file storage.

MORE INFO :

With our flexible solution, you can easily migrate your files while maintaining full control over how long you want to keep your backups by setting retention policies that suit your business requirements. Our fully automated system ensures secure backups as well; all backed-up data is encrypted at rest using 256-bit AES encryption standards while being transmitted over secure SSL channels.

KEY INFO:

Seamless Migration: Our solution allows for the seamless migration of files from on-premises or other cloud platforms directly into the Azure file storage.

Compatible with All Windows

Devices: You can easily back up data from any Windows device - whether it's an on-premises server or running in Azure - to cloud storage.

Secure Backups: Your backed-up data is encrypted at rest using 256-bit AES encryption standards while being transmitted over secure SSL channels.

Flexible Retention Policies.

Automated Backups and Disaster Recovery.

Cost-effective solution: Our pay-as-you-go pricing model for storing backed-up data in the cloud as well as optimized network usage through incremental backups only saving changes made since the last backup time point provides cost-efficient backup solutions.

WHAT OUR CUSTOMERS ARE SAYING

"LBAN team has proven capability in deploying solutions that enhance productivity and further improved the effectiveness of our security application. within our business environment.
