# SAP S/4HANA Platform on Microsoft Azure

## SAP S/4 HANA Platform On Microsoft Azure

Codestone is the #1 SAP partner in the UK and EMEA North. Codestone is highly experienced across multiple sectors, delivering rapid implementation projects alongside complex rollouts.

### What we offer

SAP S/4 HANA on Microsoft Azure is your own ERP cloud instance, which is delivered and fully supported by Codestone, ready for you to embark on your S/4 HANA journey.

Your users can access the platform anywhere, on any device without the need for local hardware, and setup, access, backup and 24x7 support is rolled in.

This offering is designed to provide platform hosting & platform support services only - this does not include S/4 HANA On-Prem in any capacity.

### We help you realise all the benefits that **SAP on Azure can deliver**

Delivering SAP via Azure Virtual Desktop (AVD) results in a highly secure solution that presents the maximum flexibility for hybrid working while ensuring your valuable data is kept secure.

### What our customers are saying

"It's been a fantastic response from Codestone throughout our Azure deployment... they helped us to deliver our largest ever infrastructure project with no negative user impact or downtime"

– Ben Selby,  
Head of Finance Systems, Tristel

# Why Microsoft Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1000+ new capabilities recently, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3500 cybersecurity experts, security is foundational for Azure.

## Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organisation meet its business challenges. With Azure, your business or organisation has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
