Antares Azure Open AI Centre of Excellence

Empower your business with the strategic advantage of artificial intelligence (AI) through our Azure OpenAI Centre of Excellence (CoE) Service. With AI rapidly transforming industries, staying ahead requires a comprehensive and structured approach to AI implementation.

Our CoE Service is designed to deliver tangible benefits and drive successful AI adoption.

Enterprise OpenAI CoE Framework, Architecture and Deployment Process

Our CoE covers essential aspects including governance, structure, and reference architecture, ensuring a solid foundation for successful AI implementation. We establish a governance framework tailored to your AI CoE, defining roles, responsibilities, and communication channels.

With a focus on development and deployment processes, we outline the AI lifecycle, data methodologies, and model monitoring for continuous improvement.

We provide expertise in implementing an internal company branded ChatGPT bot application, revolutionising customer interactions and internal processes

Take advantage of AI Responsibly and Safely with the AI CoE!

Get started fast

With workshops ready to go, undertake OpenAI at an enterprise scale quickly

Built for Accepted guidelines and frameworks

Adapted to comply with company specific policies and OpenAI governing standards

Stay secure

An AI framework that emphasises ethical practices, privacy, security, and data protection.

Why Antares Solutions?

At Antares, we harness the power of AI and machine learning to provide exceptional guidance and support as you navigate the intricacies of the AI landscape. Our team of experts specialise in custom development, delivering intelligent solutions that are tailored to seamlessly integrate with your specific business operations. As your trusted AI partner, Antares is committed to guiding you through every step of the OpenAI implementation process. From identifying the most suitable use cases to defining responsible governance models, our experienced professionals ensure a smooth and successful journey. With our deep industry and technology expertise, you can rely on us throughout your transformational journey.

We'll work with you to:

- Identify and prioritise use cases for key requirements and challenges.

- Understand the best Architecture for your Business

- Define your Responsible AI Governance Model

- Get value with immediate ROI for the right use cases
