Lotus Beta Analytics Nigeria
Lotus Beta Analytics Nigeria is a company leading the revolutionary approach to information technology (ICT) by redefining and reimaging a strategic approach to solutions and service delivery. We are focused on professional world-class service delivery, delivered according to global best practices, and customer satisfaction before and after. Our clients and enterprises and SMBs are spread across different industries in Nigeria.

WHAT WE OFFER

PRODUCT DESCRIPTION: Azure Backup is a service provided to help Enterprise/SMC organizations backup and restore their data seamlessly on the Azure cloud platform.

MORE INFO :
Organizations can enjoy hybrid cloud capabilities with Microsoft's technologies for connecting on-premises data centers to the cloud, which are tried and true. With Azure Backup services, your organization can simply back up data from any Windows device, On-premises or in Azure, to cloud storage.

KEY INFO:
Fully automated backups: Using Microsoft's Azure Site Recovery (ASR), you can achieve fully automatic workload migration and disaster recovery of your critical applications.
Flexible Retention policies: You have full control over how long you want to keep your backups by setting retention policies that suit your business requirements.
Secure Backups: Your backed-up data is encrypted at rest using 256-bit AES encryption standards while being transmitted over secure SSL channels.
Cost-effective solution: With a pay-as-you-go pricing model for storing backed-up data in the cloud as well as optimized network usage through incremental backups only saving changes made since the last backup time point; it provides cost-efficient backup solutions.

WHAT OUR CUSTOMERS ARE SAYING

"LBAN team has proven capability in deploying solutions that enhance productivity and further improved the effectiveness of our security application. within our business environment.
