SkillsTX®

What we do and why is it important?

What do we do?

We help answer these two vital questions:

What skills do we have and **What skills do we need**

Within a data-driven

Skills and

Talent e**X**perience **Platform (TXP)**

Why is it important to you?

Because you care about Employee Engagement.

Your organization is being held back by the digital skills shortage.

You want to reduce business risk by clearly identifying skill gaps

Developing skills is key to your organization's success

The vital ingredients

01
A consistent skills and competencies framework

02
Knowing what skills you have against the framework

03
Knowing what skills you need now and into the future

**04**
