

Power Platform Fast Start

Business challenge

Properly implemented, Microsoft® Power Platform® can transform your business, dramatically improving user productivity. And while getting started with the Power Platform can be easy, getting started in a way that ensures manageability and proper governance can be much more complex.

How we help

Insight's Power Platform Fast Start gets you up and running quickly with the fundamental building blocks in place for continued growth and adoption.

This program gets you started with:

- Power Platform governance
- App design and development
- Environment management

How to prepare

To ensure you receive the greatest value from this engagement, we suggest completing the following action items prior to the engagement:

- Identify who will be responsible for the Power Platform infrastructure
- Identify who will be responsible for the Power Platform as an application platform
- Consider existing electronic or manual processes that could be automated

Duration

3 weeks

Benefits

- **Enhanced productivity** through automating cumbersome manual tasks
- **Reduced IT involvement** through a well-defined governance model
- **Increased employee satisfaction** for citizen developers
- **Improved ROI** for your Power Platform investment
