Azure Virtual Desktop PoC

Get the best virtual desktop experience, delivered on Azure

OVERVIEW

Confidently Plan Your Migration

To ensure that AVD is the right fit for your organization, we highly recommend our 10-day Proof of Concept service before making any deployment decisions. This service enables you to explore AVD with your users and compare it with your current solutions, without the financial investment of a full deployment.

WHAT'S INCLUDED

Azure Virtual Desktop enables various remote work strategies for AVD. However, is it suitable for your organization? Our 10-day AVD Proof of Concept (PoC) Service can help you find out.

› DISCOVERY WORKSHOP

Gather requirements for a successful AVD Proof of Concept and establish an initial AVD footprint to tackle the needs of the moment.

› CONFIGURATION AND IMPLEMENTATION

AVD environment set and deployment and publlication of your apps. This process can take between 1-5 days depending on your requirements.

› TESTING & VALIDATION

We work with your users to monitor performance, test the deployment, and gather feedback.

› NEXT STEPS

After the AVD PoC is completed, we review the performance with your team and provide recommendations for a full AVD implementation.

About Softlanding

Founded in 2000, Softlanding is a leading provider of cloud, professional, and managed IT services. We are a multi-award-winning Microsoft Solutions Partner with 5 Microsoft Solutions Designations and 9 Microsoft Specializations. We use our experience and expertise to solve our client's business challenges while creating a solid foundation for growth strategies, flexibility and scalability.

KEY BENEFITS

Give your organization a fully managed desktop virtualization system that enables a central management security solution.

SIMPLIFY IT INFRASTRUCTURE

Reduce the complexity of IT infrastructure by managing cloud operations from a single set of tools to reduce maintenance and improve reliability.

PRODUCTIVE DESKTOP VISUALIZATION

Provide your users with the only multi-session Windows 10/11 desktop virtualized in the cloud that's highly scalable, always up to date, and available on any device.

BUILT IN SECURITY AND COMPLIANCE

Take advantage of multi-layered security provided by Microsoft across physical datacenters, infrastructure, and operations in Azure.

DEPLOY AND SCALE IN MINUTES

Quickly virtualize and deploy modern and legacy desktop apps to the cloud in minutes with unified management in the Azure portal.
