PLAY Your Business

PID Playmaker is a cutting-edge process intelligence platform.

Playmaker Manufacturing is a specific **Playmaker** Offering that focuses on business processes in manufacturing industry and provides effective solutions to its operational and strategic challenges.

Have you ever observed challenges such as unpredictable order fulfillment with no visibility on what is really happening? Or low inventory turns with limited visibility? Or Sub-optimal job scheduling?

If you are a leader, you may often experience lack of alignment of objectives and actions or disconnects between organization's silos.

Playmaker Manufacturing, helps enterprises effectively manage these inefficiencies by addressing distortions in inventory levels, distortions in flow of material and distortions in flow of cash. It provides a single source of truth and aligns the entire organization towards common objectives and goals.

Let us understand, **how** it works.

Playmaker Manufacturing brings to bear digital technologies such as Process Intelligence, Analytics, Optimization or Automation to solve your complex business process challenges.

It integrates with and leverages your existing IT investments such as ERP, CRM, MES Systems, Data Warehouses / Data Lakes, IOT / IIOT implementations and builds on them to achieve unprecedented value realization for business.

Playmaker Manufacturing provides elegant process solutions to such 'process challenges' by creating a Process Twin.

Playmaker Manufacturing Advantages:

- It is about YOUR challenges in YOUR business.
Transactions are standard while Processes and Practices are bespoke. Playmaker captures these nuances of your business.
- Bringing YOUR strategy and goals to life
Playmaker's models capture your priorities, preferences and KPIs. It provides unprecedented alignment between your strategy, operations and organization structures.
- Speed, Ease and Accelerated Value
Playmaker is a low-code, no-code SaaS platform with faster implementation cycle. Also, it gives quick return on existing investments by addressing blind spots in IT and hence, enabling you to concentrate more on strategic initiatives.

Playmaker empowers you to truly **PLAY your Business**
