

READY TO SAIL

MARITIME

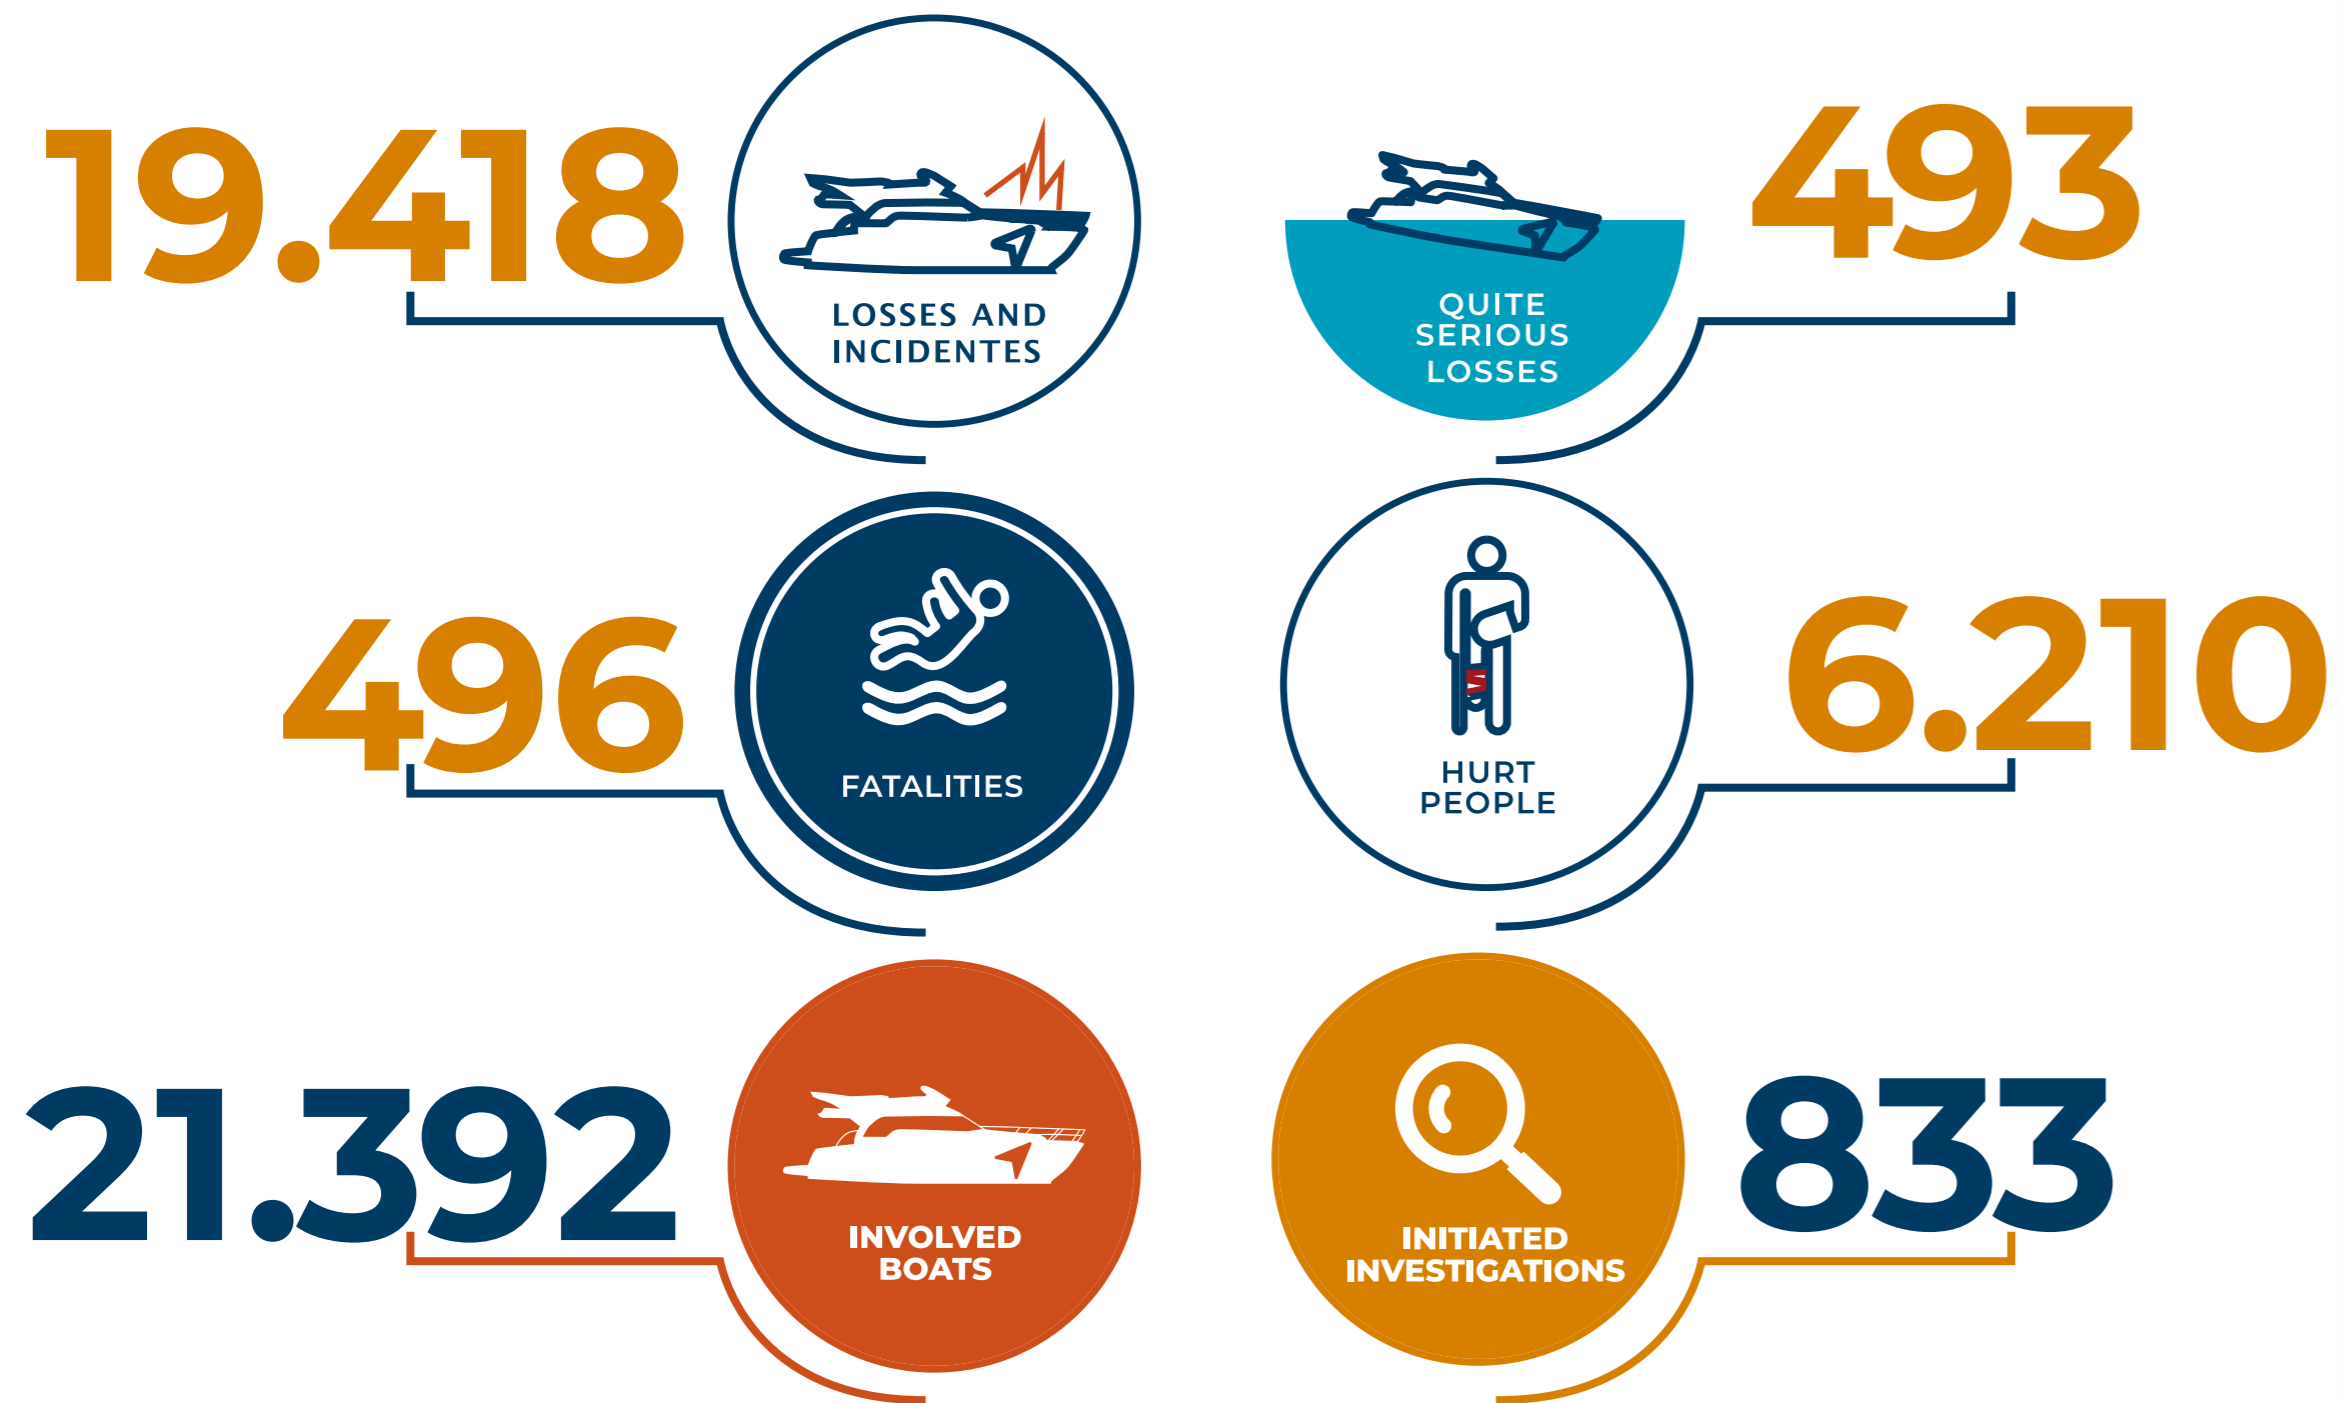

An aerial photograph of a port area. A large container ship is docked at a pier, its deck covered with numerous blue and red shipping containers. Two tugboats are positioned alongside the ship, one in front and one behind, connected by ropes. The water is a dark greenish-blue. In the background, other port infrastructure like cranes and smaller boats are visible. A large, semi-transparent blue arrow graphic points from the top right towards the bottom right, partially overlapping the text and the ship.

WE ARE THE BEST ALLY TO CONTROL SAFELY YOUR VESSEL

Sail prepared, safely controlling your yacht with ReadytoSail. Actiontracker Solutions 'Connected Brains' technology will allow you to digitize, automate, monitor and collect information precise tasks on board your boat, in order to foresee possible problems or accidents, from any part of the world, in real time. Our company has developed a technological solution that will help you in the comprehensive management of your yacht, with all the necessary tools to make you feel safe and enjoy your travels. Our priority is to take care of you, your crew, your interests and your boat.

**Our priority is to take care of you,
the crew and their boat.**

“Falls were the main cause of lives loss.”

According to figures registered by the European Maritime Safety Agency (EMSA), a large percentage of injuries represented by 52.3% occurred aboard the recreational craft subcategory, where 47.7% of them were attributed to slips, trips and falls. Due to the above, we have created a IoT solution that meets the highest standards of quality and innovation provided by the latest Security and Communication Technologies so that you can

ENJOY YOUR TRIP WITH COMPLETE PEACE OF MIND.

COGNI

The Cogni system called 'Man Overboard', developed by our company, works through a discreet portable device -wearable- that allows the crew members or personnel on board to be monitored in-situ or on the spot, emitting signals of alarm in case of an event. Based on this, the 'Man Overboard (MOB)' functionality and the switchboard receive notifications, carry out location actions and subsequently, give timely notification to predetermined emergency contacts, nearby ships and relevant authorities.

MAN OVERBOARD

READY TO SAIL

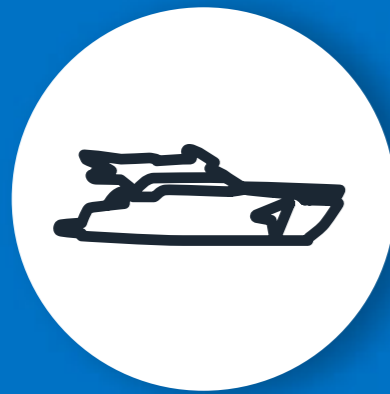

MARITIME

Know the exact and real-time position of your boat and crew.

Sending an alert if a crew member falls into the water.

Store all routes taken, even in out-of-coverage areas.

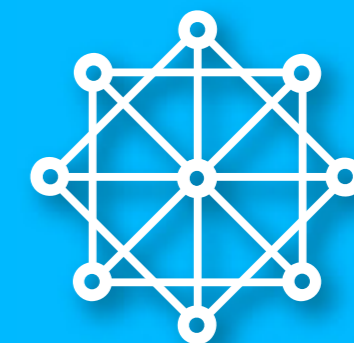

Control your boat from the palm of your hand.

Monitor systems and receive critical alerts in real time.

Avoid the theft of your boat, electronics and equipment.

ALWAYS ALERT

At Actiontracker we develop IoT solutions that allow you to maintain a direct, fluid, efficient and bidirectional **communication** with their workers.

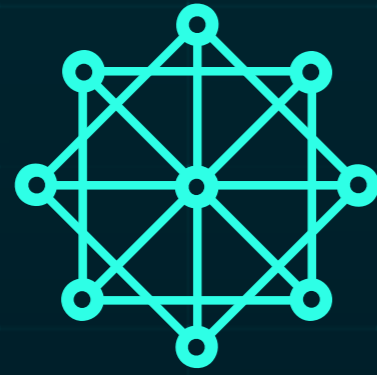

With our portable device -wearable- we prevent the falls of any person who is a crew member in the boat diminishing human failings, **saving costs and in addition to, increase profitability. save lives.**

ACTION TRACKER
CONNECTED BUSINESS

COGNI Wearable

Share and collect data and information on real time for a quick response.

READY TO SAIL

MARITIME

Sensors and devices

Detect worker status and store data.

SDKs & APIS

Build and integrate your systems and applications

Cloud

Web hosting, applications in the cloud for greater flexibility.

Gateway & Edge

Connect sensors and devices to the cloud.

Web frontend & backend Apps

Interact with users using centralized apps and data.

Help and Support

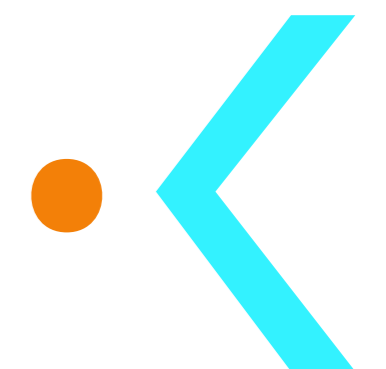

Help with decision making.

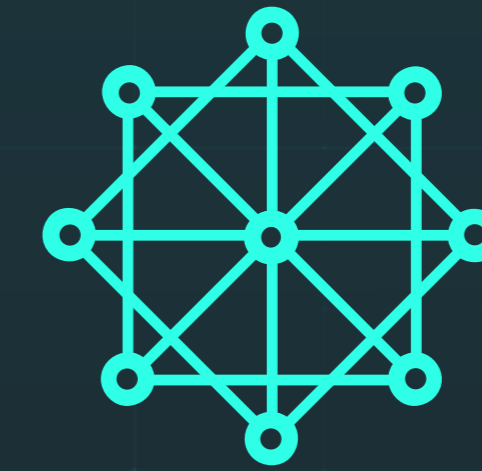

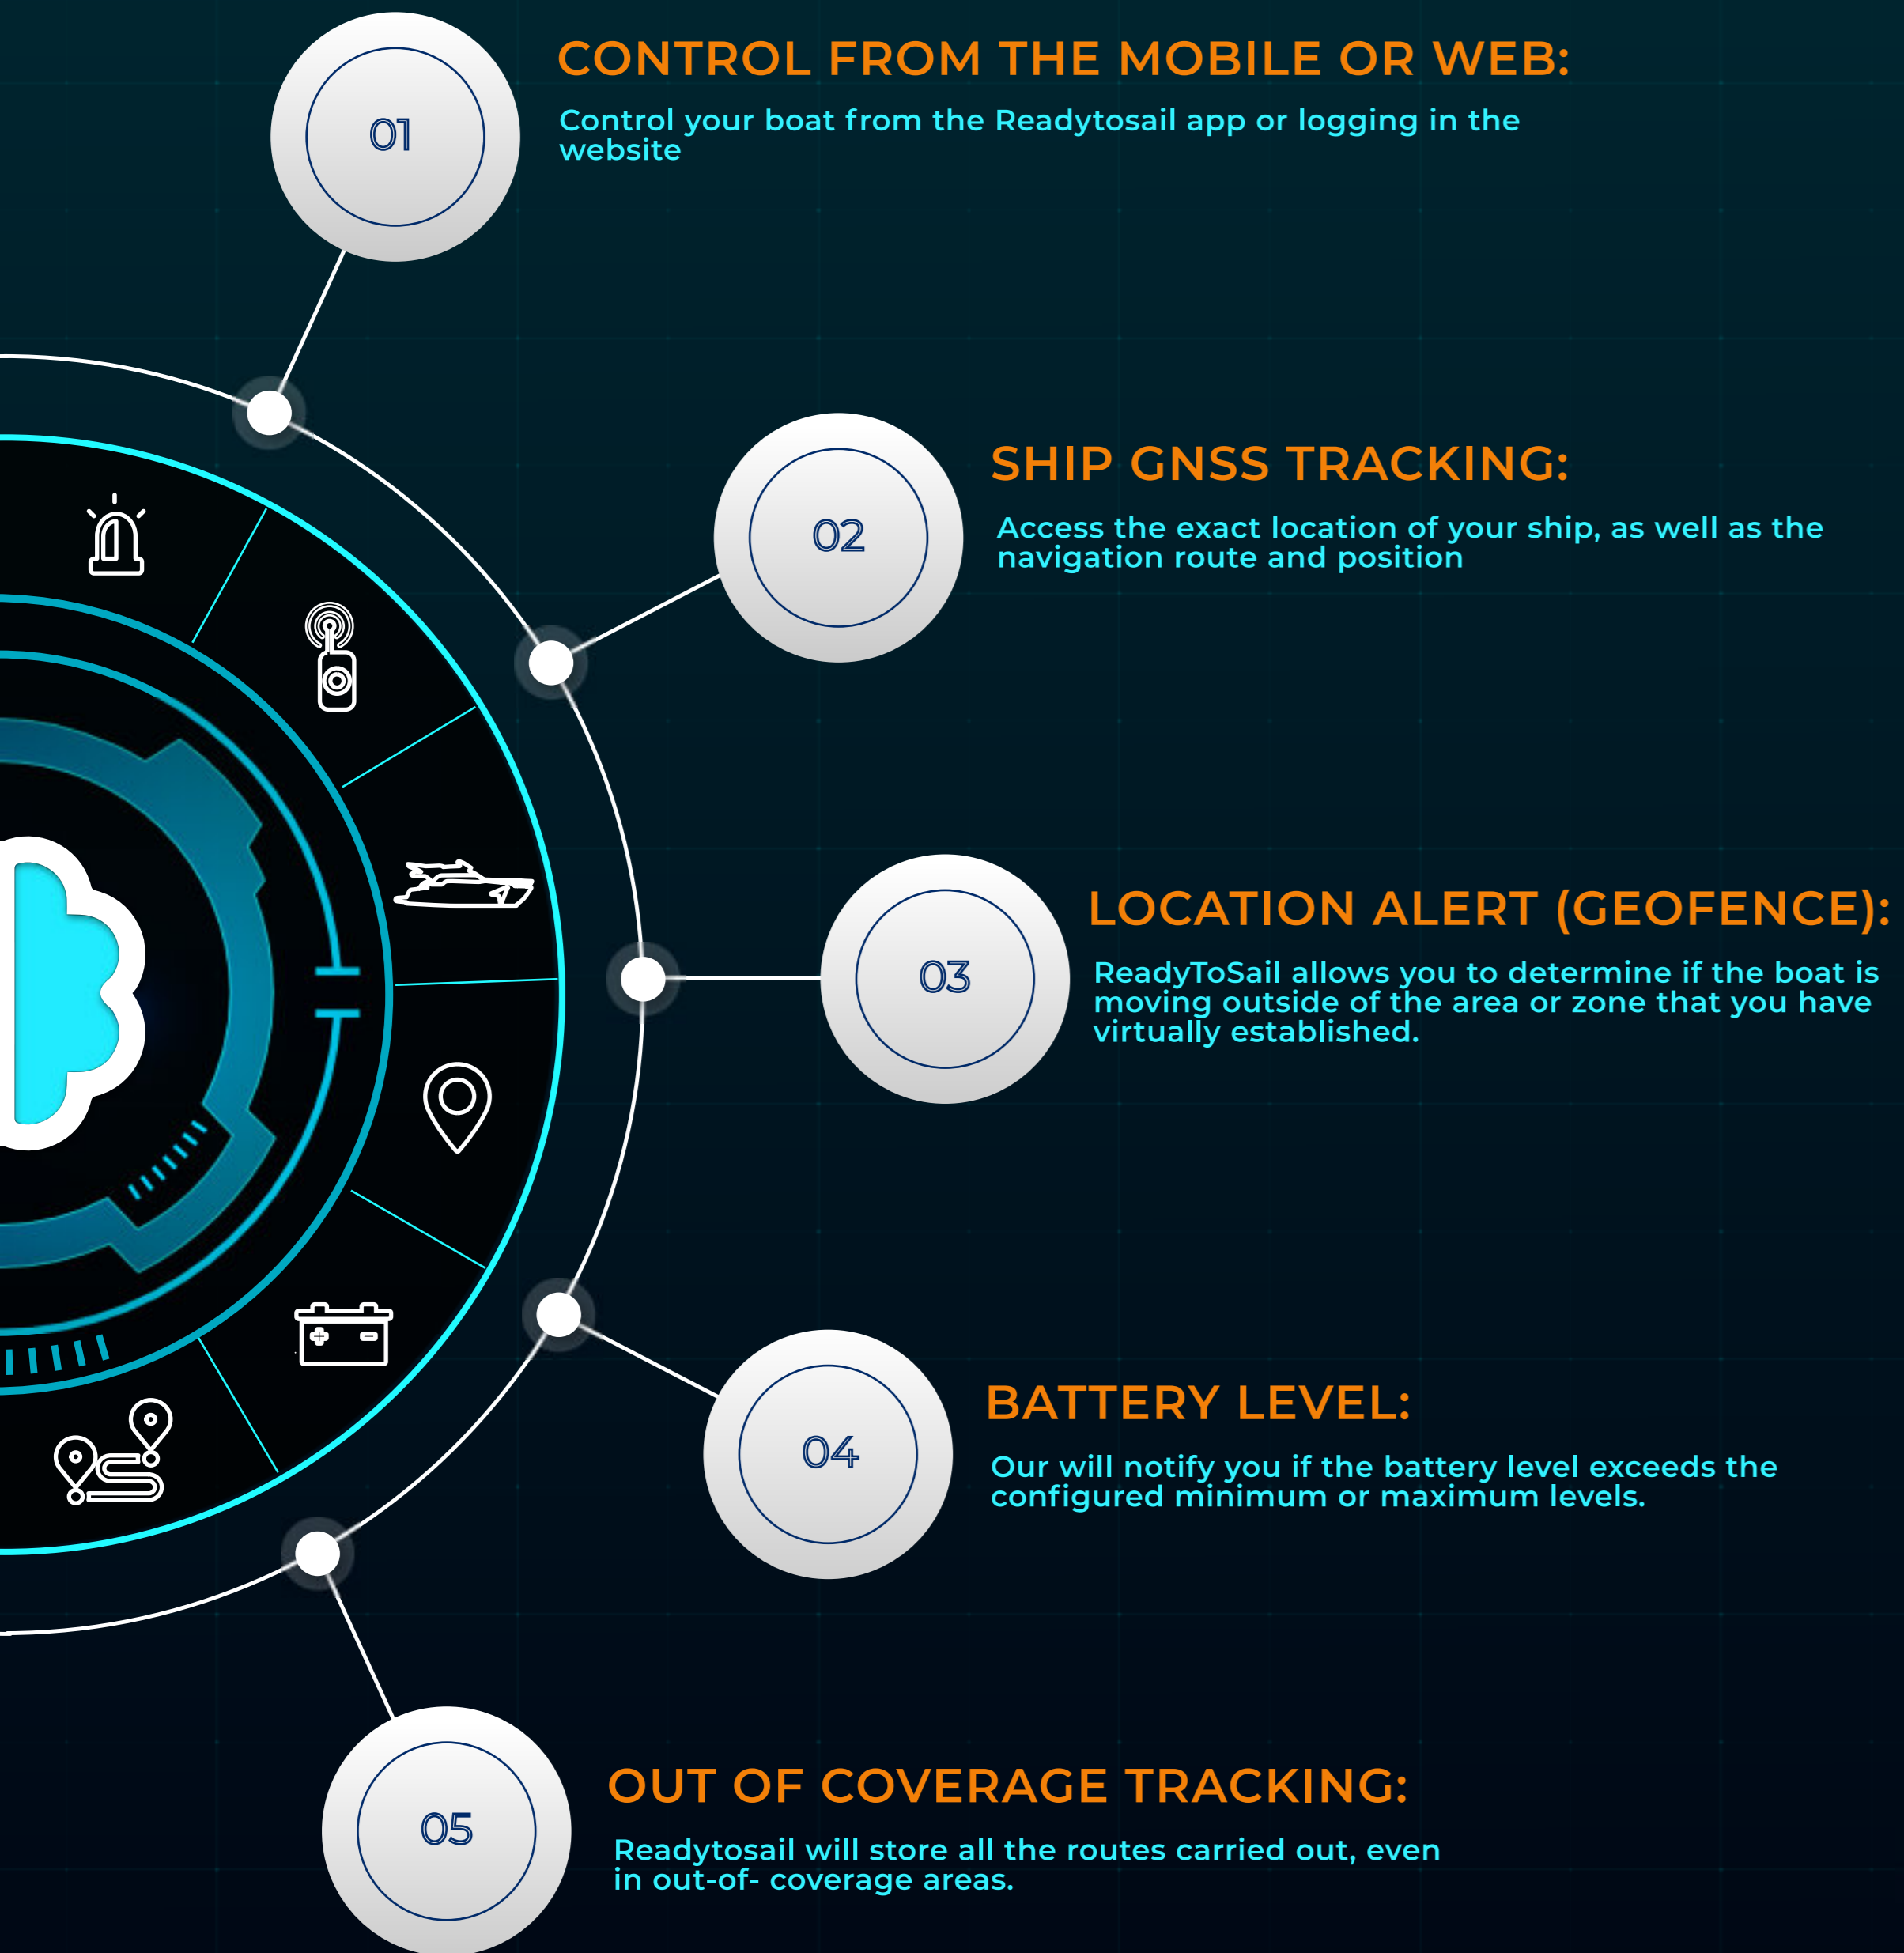

Data transfer and analysis

Generate Kpis and Smart predictions

The IoT SOLUTION that TAKE CARE OF YOUR CREW

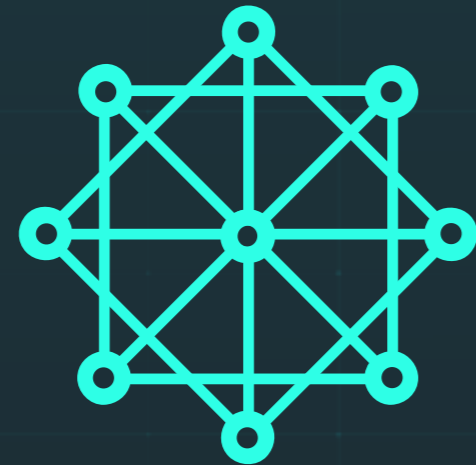

READY TO SAIL

MARITIME

Workers, vehicles and assets connected to each other and also to the infrastructure, to solve information problems security, protection and KPIs for react quickly, get the best results and optimize costs.

READY TO SAIL

MARITIME

Connected brains that ingest and analyze data in real time, including a multi-layer decision tool powered by artificial intelligence, which makes decisions and exchanges information, 24/7 connectivity everywhere, improving decision making.

ACTION TRACKER
CONNECTED BRAINS

DOOR OPENNING ALERT:

You will be notified if someone opens the door.

06

POWER SUPPLY CUT ALERT:

Readytosail will alert you if the dock or wave damper has stopped working

07

INTRUDERS ALERT DETECTION:

Thanks to its comprehensive sensor system, our solution will be able to find intruders inside your boat.

08

WATER ALERT IN THE BILGE:

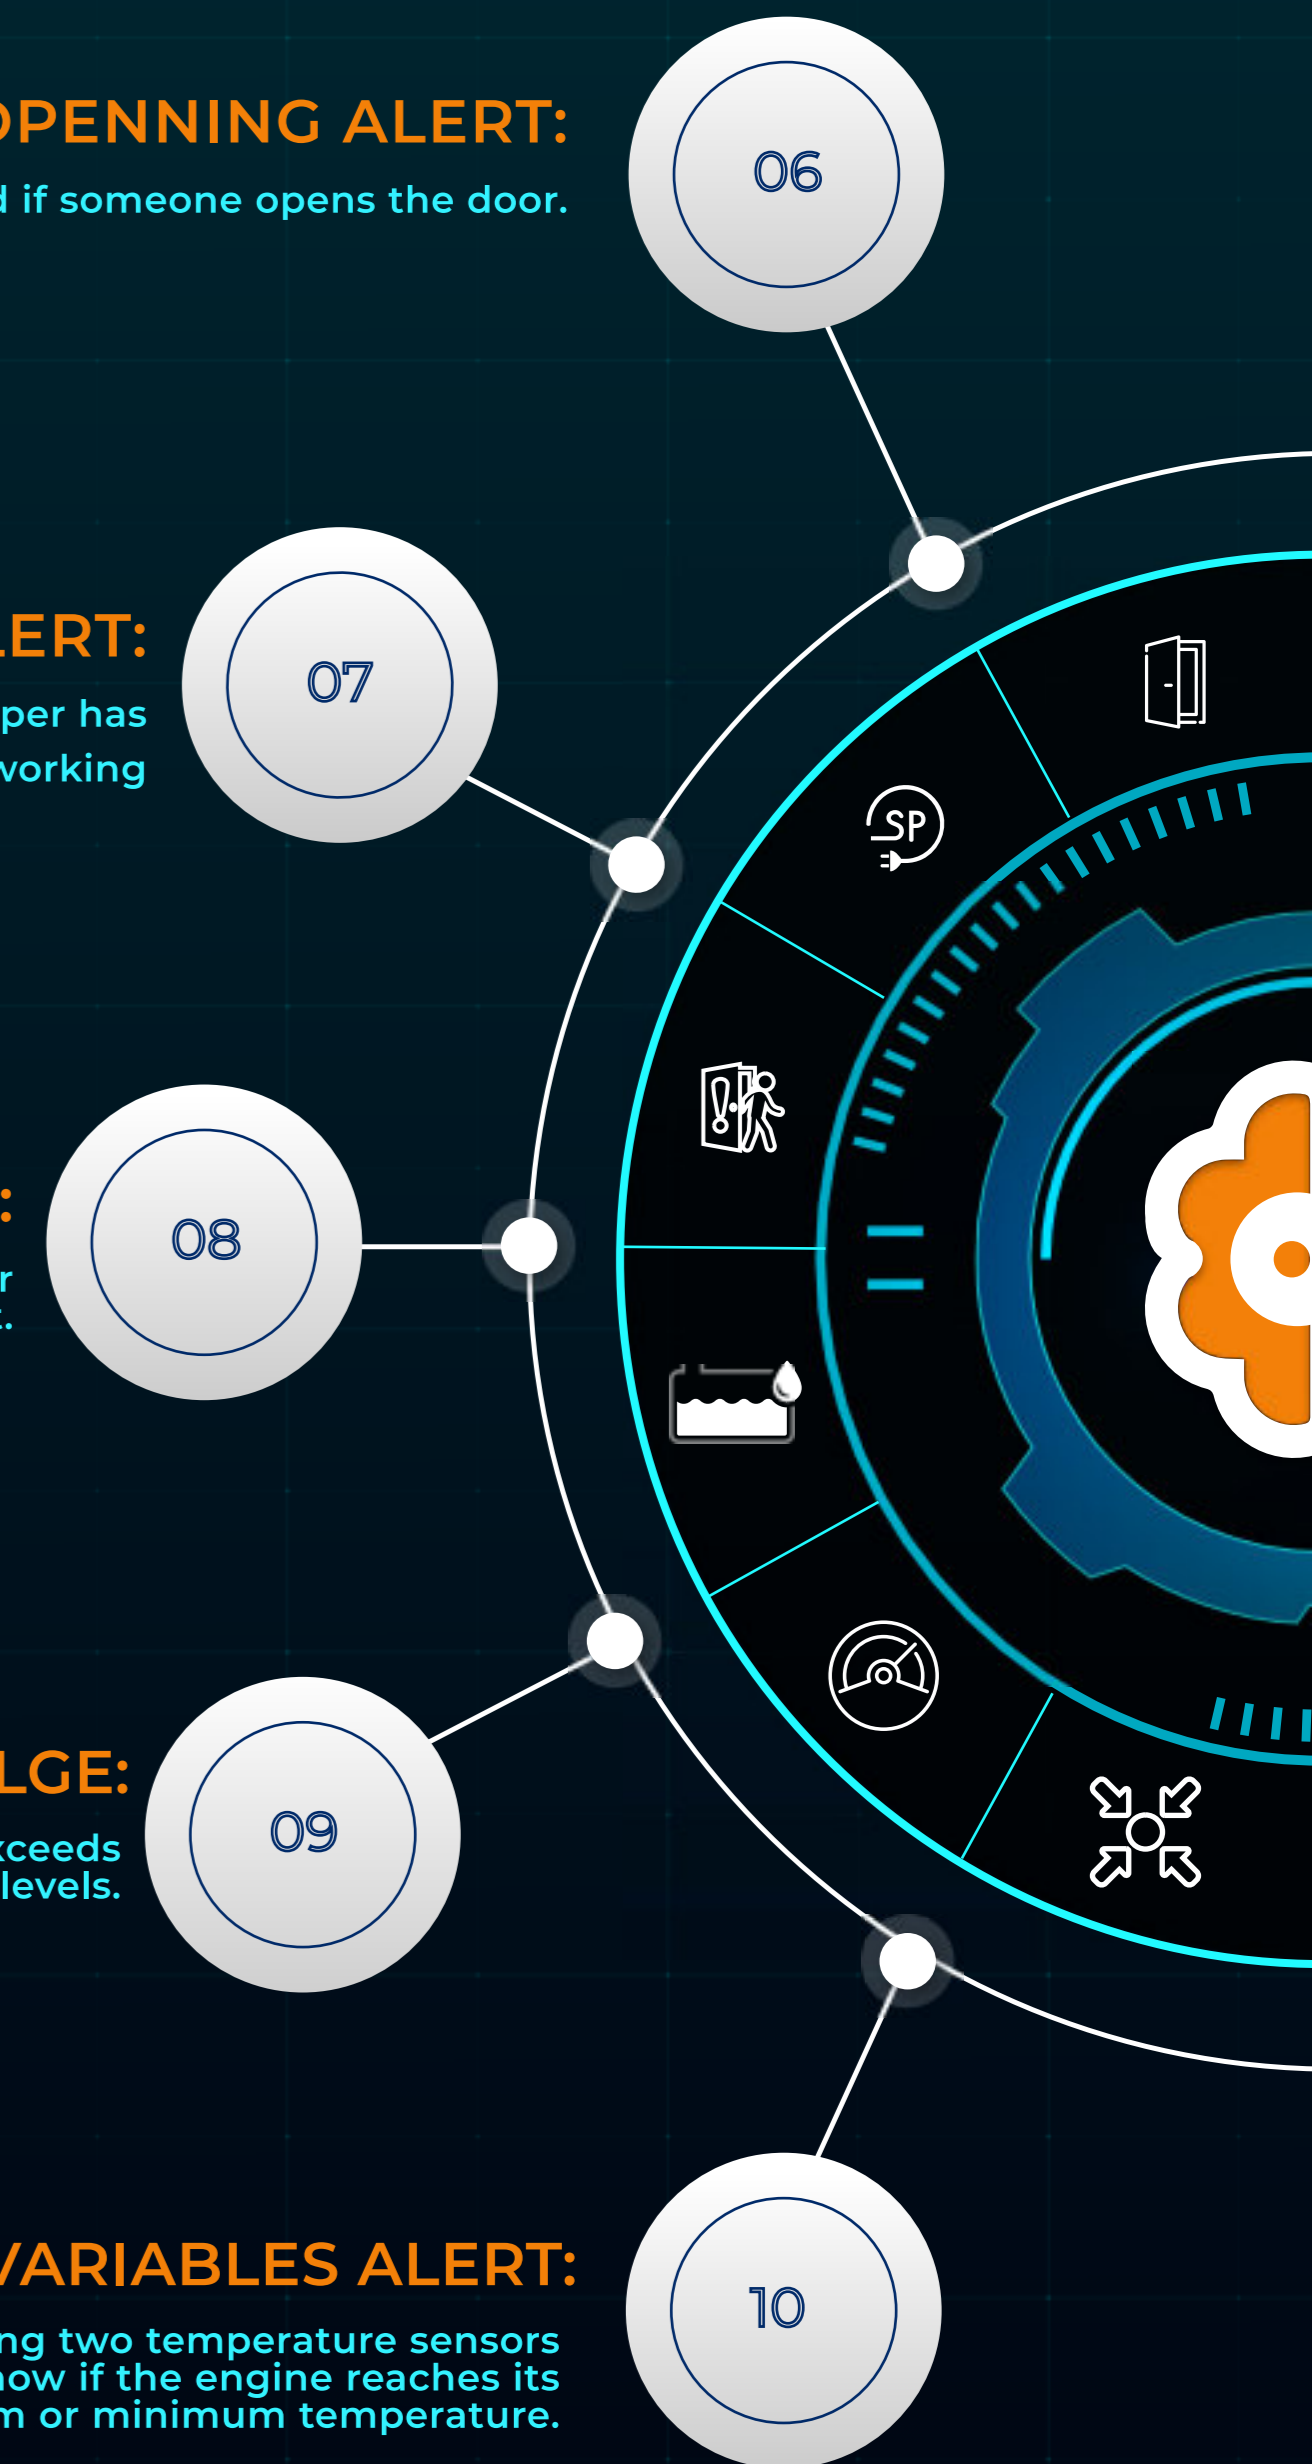

Our solution will warn you if the bilge level exceeds the configured minimum or maximum levels.

09

BOAT VARIABLES ALERT:

The possibility of connecting two temperature sensors will allow you to know if the engine reaches its maximum or minimum temperature.
