ABOUT CADVIL

Established in 2015, Cadvil is an exclusive global consulting power house. We originally started our operations a few years ago and have significantly grown as a System Integrator because of our deep and strong relationships with our clients.

As we look back on our humble beginning, we take pride to move forward and grow over the years. Today, we are proud to say that we have offices in different countries.

WHY ATALO

Atalo provides a comprehensive and streamlined solution for your business operations. With easy to use interface, mobile accessibility, affordable SaaS pricing, and free AMC and upgrades, it offers the best value for your investment. The HR, Production, Inventory, Finance, Procurement and Sales modules are equipped with the latest features to increase efficiency and drive growth.

Choose Atalo for a seamless and efficient management of your business.

ORGANIZATION

Atalo offers a centralized solution for managing multiple companies, including locations, documents and various contracts. By utilizing Atalo, you can streamline your company's data management processes, reduce the risk of losing information, and ensure that all information is easily accessible to those who need it.

- Group Information
- Multiple Companies

SAAS ADVANTAGES

By adopting a SaaS cloud ERP platform, your business avoids the capital expense of infrastructure and can now invest in innovation and generate additional revenue. With internet connectivity at our fingertips, your users can access the ERP applications and data literally from anywhere at any time.

There are endless benefits of utilizing SaaS to implement your ERP system, including cost, scalability, innovation, and efficiency.

- Lower ownership costs
- Operational Expense
- Free Maintenance
- Free Upgrades
- Access Anywhere Anytime
- Faster & Easier Upgrades
- World class Server Hosting
- Flexibility and Interoperability
- Easy Scaling
- Multi Integrations

MICROSOFT AZURE HOSTING

Enterprise-grade practices to protect ATALO customers.

Secure and Reliable Infrastructure

ATALO uses Microsoft Azure for the hosting of staging and production environments. Azure data centers are monitored by 24x7 security, biometric scanning, video surveillance and are SOC 1, SOC 2, and SOC 3 certified. A world class application security.

Data Encryption

Data is encrypted in-transit using bank-grade TLS 1.2. Data is encrypted at-rest using 256-bit encryption via native Azure capabilities.

SSO

Single Sign-on (SSO) allows you to authenticate users in your own systems without requiring them to enter additional login credentials. All our plans include SSO via SAML 2.0 and Oauth at no extra cost.

Data Permissions & Authentication

Access to customer data is limited to authorized employees who require it for their job and data access is logged.

Incident Response

Security breaches will be communicated within 48 hours, and vulnerabilities are fixed ASAP.

PRICING AND LICENSING

Our pricing model for Atalo is designed to be flexible and cost-effective for businesses of all sizes. With a yearly subscription fee, you only pay for the modules you need and the number of employees in your organization, ensuring that you're getting the most value for your money.

With our module-based pricing, you can select only the features you require, making sure you're not paying for unnecessary functionalities. Our setup charges are also competitive and affordable, giving you access to the full range of Atalo-ERP's benefits at a reasonable cost.

Yearly Subscription

Charges based on selected modules, number of users, number of employees and number of companies

Setup & Data Migration

One time fee for configuration and data migration.
