

# REACH ZERO

## COMBINING COMMUNICATION AND INSPIRATION TO DRIVE ACTION

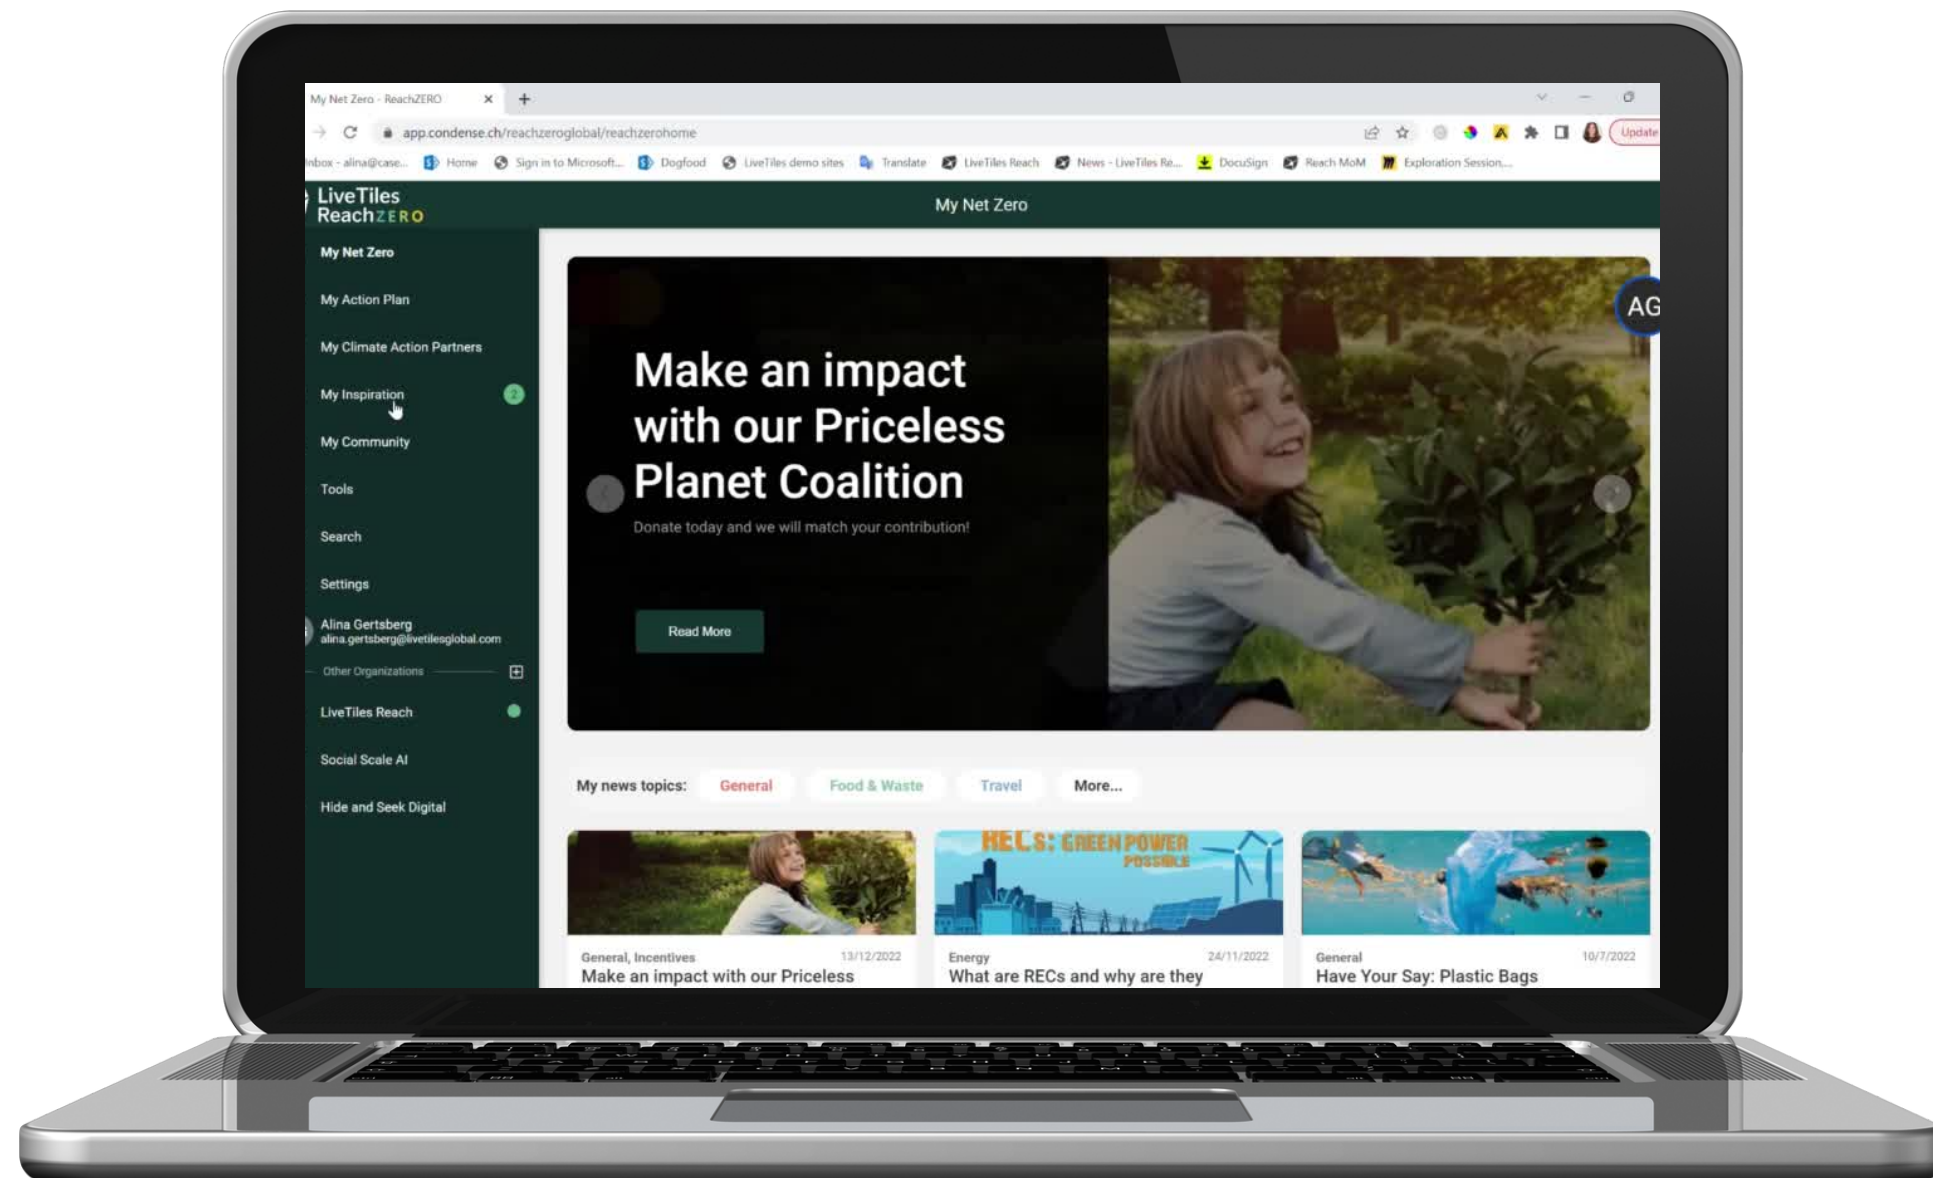

Reach Zero is an internal communications and engagement platform that unifies your people with their climate action aspirations and with the organisation's ESG activities, boosting engagement, increasing retention and driving connection – not only with each other, but with our planet.

With dedicated channels for climate news and events, Reach Zero ensures your people are always connected to their purpose, anytime, anywhere, with the capacity to embed and consolidate the My Net Zero Green Homes and Personal Climate Action Plan solutions.

## BENEFITS OF REACH

Proven global SaaS platform used by some of the world's largest employers.

Personalization and targeting cut through noise to deliver what users need.

Integrated with your corporate security and authentication service.

ISO 27001 certified and adheres to best practice security standards.

Seamlessly integrates with common workplace tools, including Microsoft Teams.

Mobile app (able to be co-branded) for iOS and Android.

Meets Microsoft accessibility standards.

Support multiple languages and translation.

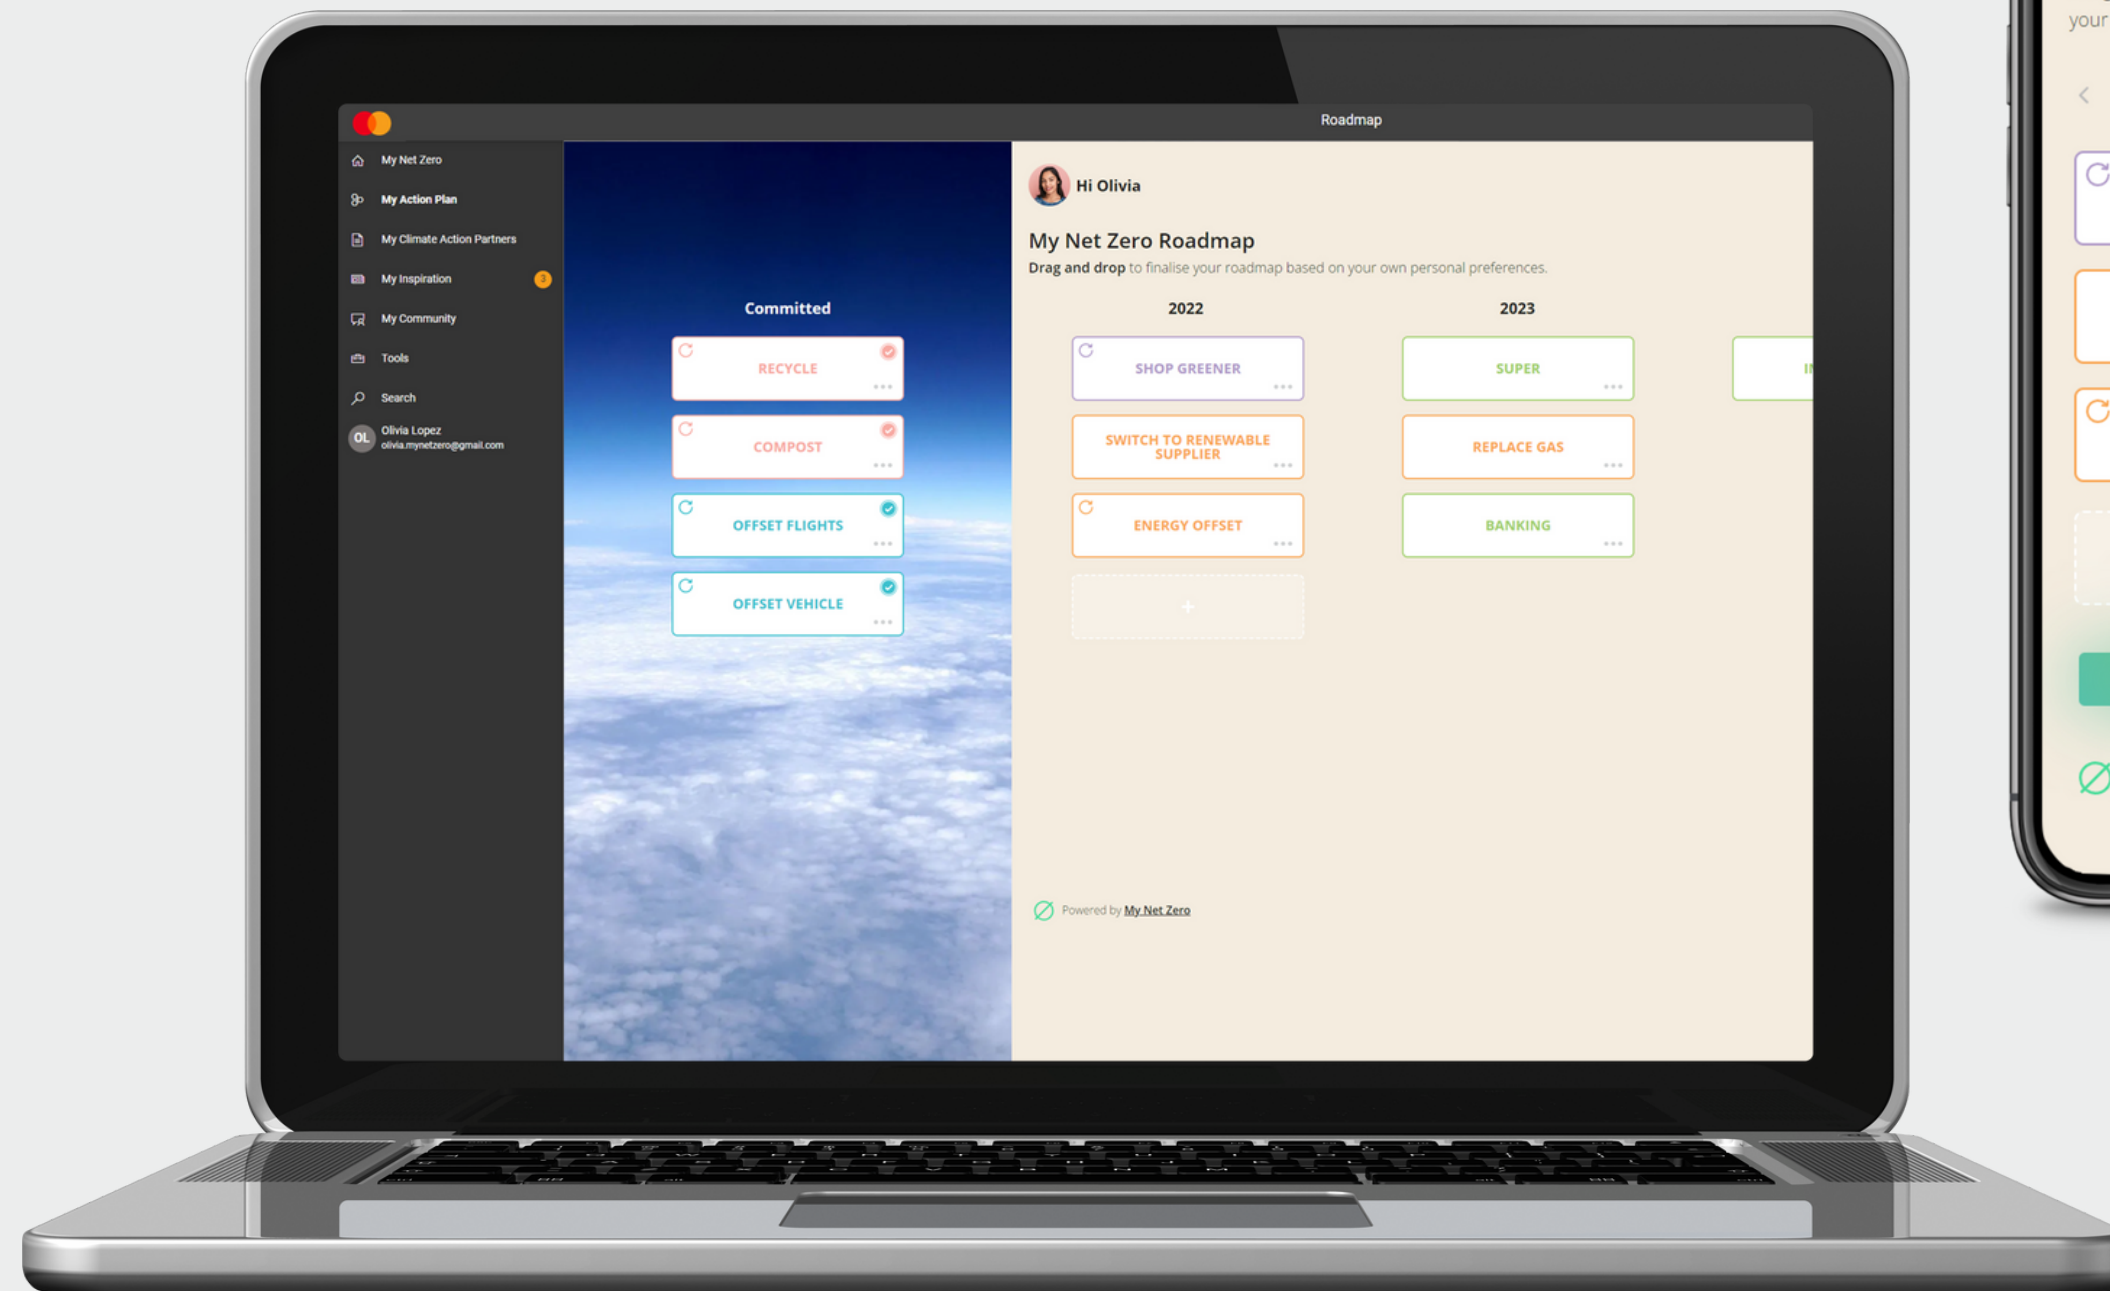

# PERSONAL CLIMATE ACTION PLANS

## PERSONALISED PLANS AND MARKETPLACE

Employees can build their Personal Climate Action Plans within Reach Zero.

Our integrated dashboards enable businesses to understand annual climate action aspirations across their employee base.

Leadership teams can leverage organisational climate action plans and extend employee benefits / rewards to support their people's aspirations, whilst reporting against the additional impact of the organisation.

**Compost Revolution**  
The Compost Revolution makes it easy for Australians to build greener, healthier, more resilient communities. They do this by inspiring people to nurture their soil to grow lush green gardens and delicious organic food. Over the last 10 years, the Compost Revolution has grown to become Australia's largest community of composters and worm farmers with 82,283 households joining the revolution to date. They have diverted over 25,940 tonnes of waste from landfill and avoided more than 41,420 tonnes of CO2-equivalent greenhouse gas emissions.

**SolarQuotes**  
SolarQuotes exists to help Aussies get multiple quotes for high quality solar energy systems for their homes or business from installers they can trust. It contains over 49,000 genuine reviews of solar installers, solar panels and inverters. It also has heaps of articles, blog posts and tools to help you navigate the solar power market. Since its creation in 2009, it has grown to become the most popular solar-specific website in Australia.
