

TELMA AI AUTOMATE YOUR ROUTINE TASK WITH AN ARTIFICIAL INTELLIGENCE VOICEBOT/CHATBOT

TELMA AI is capable of simultaneous omnichannel communication - inbound & outbound.

ABOUT US

TELMA AI helps to automate communication via phone, chat or other channels using their own propriete artificial intelligence tools. TELMA AI was founded by a former IBM R&D team who have spent the last 20 years developing speech and voice AI into the widely used form we are encountering today.

WHY TELMA

- ✔ Automate your communication and unlock the capacity to create your added value
- ✔ Free the hands of your employees by letting Telma to execute the routine task
- ✔ All your data stays with you - on your hard drive or on your cloud
