The Cardio Health Journey Assistant is a Smart Health Bot that can more efficiently scale patient monitoring and care guidance.
How Cardio Health Journey Assistant Works
Dr. Smith and Eva use the Heart Health Journey Assistant to continuously monitor Eva’s Cardiovascular Disease more efficiently.
The Plan Heal Heart Health Journey Assistant increase care team capacity and throughput using Generative AI that’s more predictive and holistic.

One care provider now has more patient care capacity with ongoing and real-time patient care analytics.
Eva can now increase her health literacy and better manage and report her health in a more holistic way.

Bot

Let’s start tracking your Heart Health.

Have you had chest pain or pressure since you were discharged from the hospital?

Bot

Are you feeling chest pains right now?

Yes  No
Dr. Smith can now access analytics via the EHR that are more Actionable, Predictive, Realtime, and Holistic to support Eva’s unique needs.

Patient data represents Cardiovascular Disease patient that has comorbidities.
