BlueVoyant®

Microsoft Threat Protection Workshop

Learn how to put next-generation Microsoft security tools to work for Managed Detection and Response (MDR)

WORKSHOP HIGHLIGHTS

- Identify real threats to your cloud environment with Threat Check

- Understand your security goals and objectives

- Deliver the end-to-end Microsoft security story

- Showcase security scenarios with product demos

- Develop joint plans and next steps

"The Threat Protection Security Workshop helped us understand our maturity levels on different sectors of cybersecurity"

HARRI KIVIMAA, HEAD OF END USER SERVICES, VTT

Do you know how many phishing attacks your organization has received? If employees are using the proper password protocol? Whether personal data is being exposed?

Improve your security posture with a Microsoft Threat Protection Workshop

Every customer who completes this workshop is certified as Managed Detection and Response Ready for BlueVoyant's leading MDR service. Get help achieving your broader security objectives—and identify current and real threats—by scheduling a Microsoft Threat Protection Workshop.

Our operations-focused implementation is customized for your organization and based on the recommendations of Microsoft cybersecurity experts. As a result, you'll be able to start your Managed Detection and Response journey full of confidence that your tools are operations ready.

Why you should attend

Given the volume and complexity of identities, data, applications, devices, and infrastructure, it's essential to learn how secure your organization is right now and how to mitigate and protect against threats moving forward.
By attending this workshop, you can:

- Identify current, ongoing risks to your cloud environment

- Walk away with actionable next steps to implement an MDR plan based on your specific needs and objectives

- Document your security and monitoring strategy for the benefit of key stakeholders

- Develop a strong understanding of how to operationalize your security journey using the latest tools

What To Expect:

During this workshop, we'll partner with you to strengthen your organization's approach to cybersecurity. We'll help you better understand how to prioritize and mitigate potential attacks, with:

- Learn how to set up Microsoft 365 Defender from an award winning Microsoft Security 20/20 Top MDR Team
- Work hand in hand with BlueVoyant's Security engineers to deploy Microsoft Defender tools and identify immediate threats
- Gain a deep understanding of your risk posture using integrated Microsoft 365 Defender and Microsoft Sentinel capabilities

- Enrich incident data and quickly contextualize events with proven SOC processes developed by BlueVoyant
- Actionable recommendations to help immediately mitigate the identified threats
- Ensure your critical assets are protected with deployment best practices and security baselines from BlueVoyant

Pre-Engagement Call   **Kick-off Meeting**   **Cloud Discovery Log Collection**   **Threat Exploration**   **Threat Results Presentation**   **MDR Transition**

Who Should Attend

The workshop is intended for security decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)

- Data Protection Officer
- Data Governance Officer
- IT Security, IT Compliance, and/or IT Operations
- Data Governance

Why BlueVoyant?

When it comes to compliance, you need an experienced partner.

As the 2021 Managed Detection Response Microsoft Security 20/20 Award Winner, along with BlueVoyant's status as a Microsoft Gold Partner with an Advanced Specialization in Threat Protection and founding member of Microsoft Intelligent Security Alliance (MISA), our mission is to proactively defend organizations of all sizes against today's sophisticated attacks and accelerate detection and response with Microsoft. A Microsoft credentialed advisor delivers all workshops.
