WITHINGS

- One API that powers integrations with all the system rapidly
- Unique API for all types of integration with different wearables

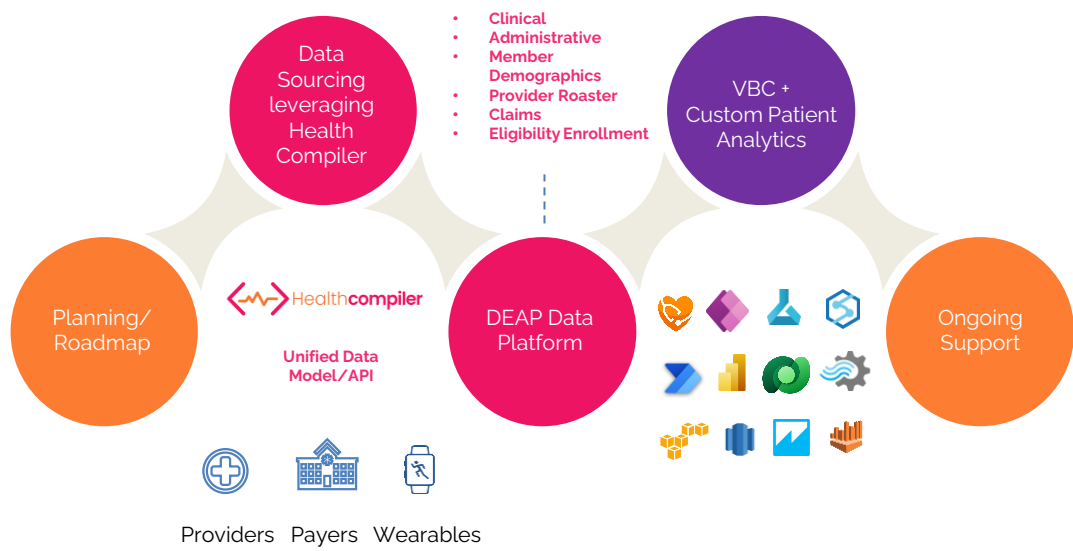

Activity	Basal metabolic rate (B...)	Calories burned	Oxygen saturation	Weight	Sleep	Menstruation	Hydration
Cycling pedaling cade...	Heart Points	Move Minutes	Power	Nutrition	Body Temperature	Heart rate	Height
Step count delta	Cycling wheel revoluti...	Distance delta	Speed	Blood Glucose	Blood Pressure	Body Fat Percentage	

Our Values

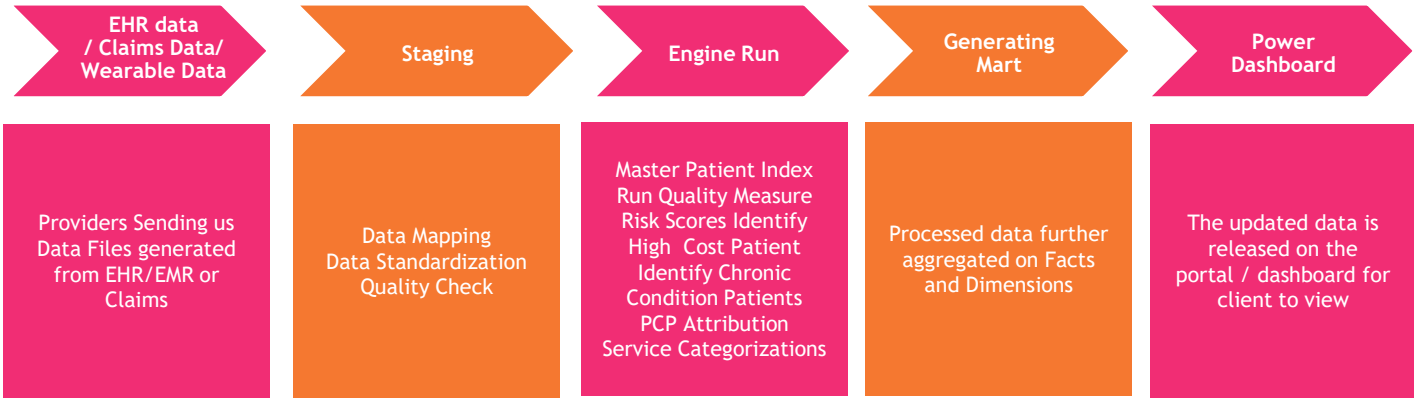

People Centricity | Customer Focus | Execution Excellence | Task Ownership | Technology Leadership

Ride a new wave of Value Based Contracting (VBC 2.0) backed by Real World Data and Analytics

ENABLING DATA DRIVEN TRANSFORMATION FOR PROVIDERS, PAYERS, PHARMA, CROs, ACOs, Direct Clinics

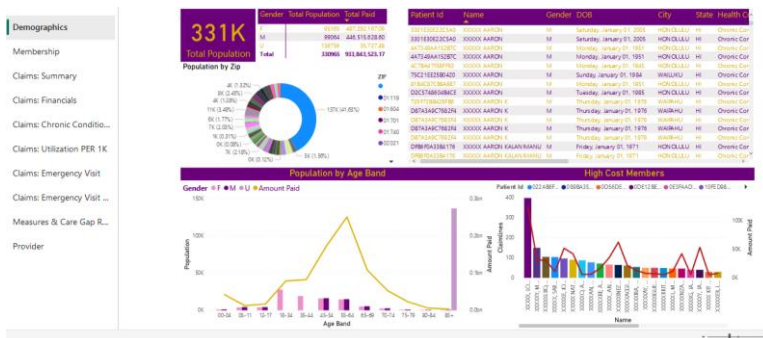

Our Data Processing Workflow

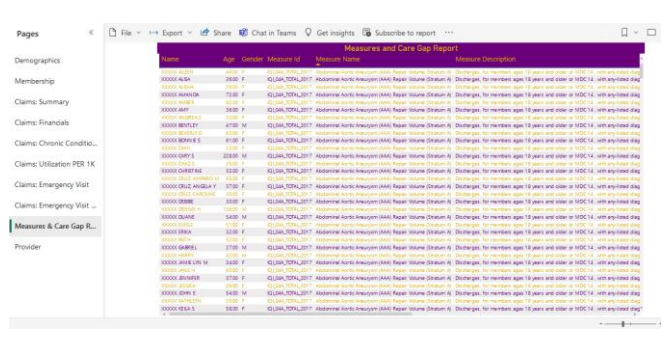

We capture Common metrics that are used to identify and manage patients who are incurring high healthcare costs and may be at risk for poor health outcomes. This leads to identification of support needed for member outreach and proactive care management initiatives

We build analytics that enables you to identify care gaps and engage with your patient to provide better care outcomes

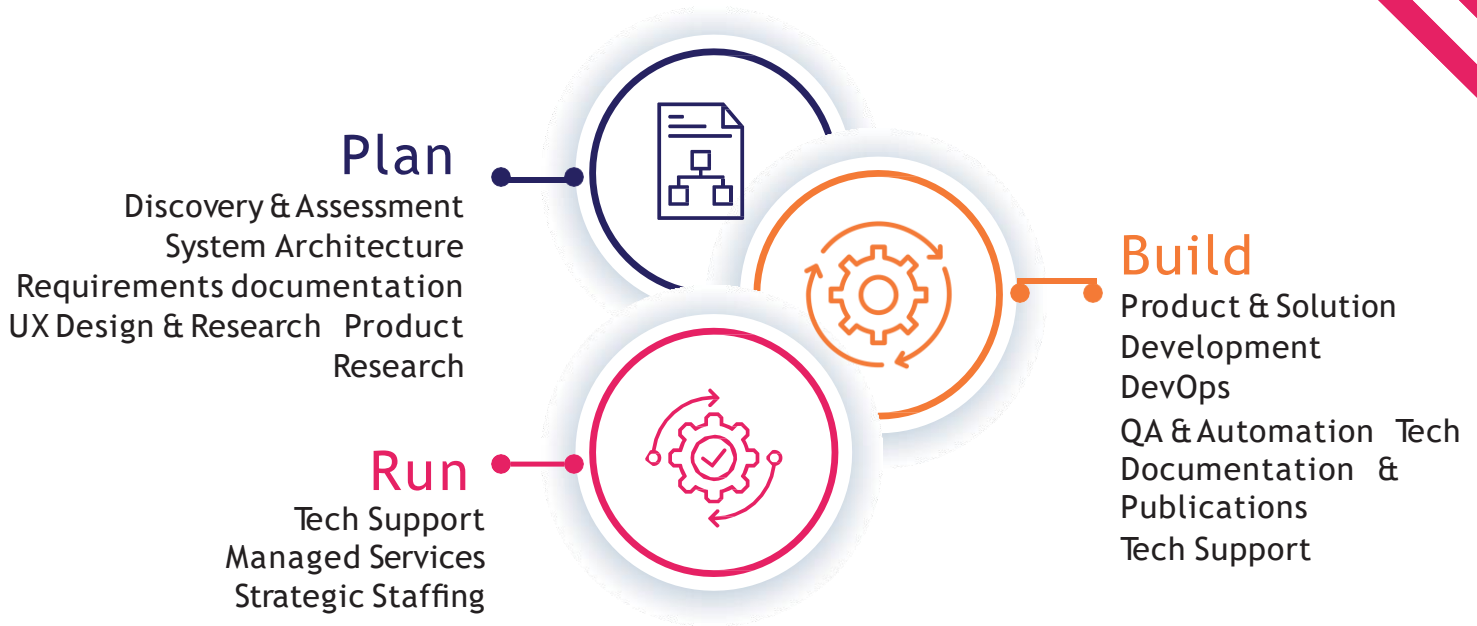

High Cost/High Risk Member Identification

Identify Care Gaps for better Outcomes
