# WINDOWS SERVER MIGRATION

*Move your on-premise physical or virtual environments to*

## AZURE

*Our team of experts will make it easy for you to migrate your virtual or physical Windows servers to Azure and fully maximize its benefits*

- *Expedite operational capacity while reducing IT overhead costs. Pay only for the computing time used*
- *Move on your own terms with hybrid flexibility*
- *Safeguard your business assets with multi-layered security tools. Secure and manage identities, connect your remote workforce, and protect your users from 99.9 percent of identity attacks using Azure Active Directory*

*Founded in 1988, Shellsoft is one of the top Microsoft Licensing Solution Partner, helping customers on their software investments, through the various licensing programs and deployment and implementation services.*

*We are a member of the Microsoft Partner Network with expertise in Modern Work, Infrastructure, Digital & App Innovation and Data & AI.*

☎ 632 8740-0431, 632 8882-0008

📍 7/F, Santolan Town Plaza, 276 Santolan Road, San Juan City, Metro Manila 1500, Philippines

## AGENDA

- *Review current architecture, infrastructure, performance, security, dependencies, compliance, security, availability, backup, recovery, and necessary prerequisites for migration.*
- *Design migration plan and deployment as per client requirements.*
- *Creation of the Azure environment as planned, using best practices.*
- *Gradual migration of individual servers according to the agreed sequence*
- *Test applications and fix any deficiencies found*
- *Preparation of documentation (procedures, manuals)*

## PROJECT TIMELINE

*Normally takes 10 days*

## DELIVERABLES

- *Documentation of roadmap and new architecture*
- *Functioning Azure environment with Windows workloads running*
- *Post migration documents*
