LIGHTHOUSE

Legacy Data Migration & Optimization

This engagement delivers defensible migration from legacy on-prem archives to M365, policy development based on regulatory requirements mapped to the Microsoft Purview suite, and deployment of Purview eDiscovery Premium, Information Protection & Governance, and Insider Risk Management in support of enterprise data management framework.
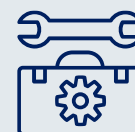

Overview

ASSESS & ANALYZE

A current state assessment and data inventory identifying unique customer needs, use cases, third-party integration, pain points, and success metrics.

LEGACY DATA REMEDIATION AND MIGRATION

A defensible migration from legacy archive platforms (i.e. SourceOne, EnterpriseVault, Proofpoint, Commvault etc.) to M365

M365 PURVIEW DEPLOYMENT

A holistic deployment plan to effectively manage, archive, and discovery data once migrated to M365.

Easing defensible legacy archive migration to Microsoft Purview

Using a phased transformation approach, Lighthouse will help your organization to modernize archiving platforms and operations while reducing the overall data footprint and mitigate associated risks of over-retention, data leakage, and data spoilage. This proven strategy reduces operational costs of maintaining legacy data tools while still meeting regulatory and eDiscovery obligations, as well as fully leverages the investment in the Microsoft 365 platform and Purview suite.

This marrying of the latest in cloud functionality from technology experts of Microsoft with the security and compliance expertise at Lighthouse eases the formidable task of data migration from legacy tools to Microsoft Purview for seamless deployment, increased integration, native protection, and enhanced features for your data life cycle.

Deliverables include, but are not limited to:
- Current state assessment complete with archiving assessment, goals, use cases, data retrieval frameworks, third party integration, risk analysis, functional requirements, developed performance metrics.
- Execution of data remediation and migration plan from legacy archive to M365 including strategy, cost, timelines, and business case.
- Summary of Microsoft feature and gap analysis against organization's functional requirements and resulting recommendations, and ROI.
- Execution and design documentation of end-to-end Purview deployment post migration.

Why Lighthouse?

For more than 25 years, Lighthouse has been providing global security and compliance advisory solutions combining decades of industry experience and best practices with leading edge technology driven approaches to help organizations confidently achieve scalable, practical success.

Our unique expertise in security, compliance, and legal together with deep expertise in the Microsoft M365 and Purview technologies results in a full breadth of Microsoft security and compliance offerings and a track record of collaboratively supporting Security, Compliance, IT, and Legal business decision makers for measurable results.
