

# Migrate to Azure VMware Solution

Migrate and modernize your infrastructure by seamlessly moving your VMware-based workloads to the Azure cloud with Azure VMware Solution (AVS).

Take full advantage of your existing VMware investments while modernizing your infrastructure with a seamless and efficient migration to Azure.

By leveraging Azure VMware Solution (AVS), you benefit by continuing to use familiar VMware tools including vCenter and vSphere, without additional hardware expenditures or learning new technologies.

EMERGENTSOFTWARE.NET

## Maximize VMware Investments

Take full advantage your VMware skills and tools

## Comprehensive Security & Compliance

Secure infrastructure plus Azure features & tools

## Improve Operational Efficiency

Centralized management of VMware in Azure

## Increase Agility & Scalability

Scale your VMware clusters and hosts in a private cloud

## Move from CapEx to OpEx

OpEx model for significant savings & maximum agility

## Extend On-Premises

Quickly extend your data center to Azure in days

## Achieve Disaster Recovery Goals

Leverage AVS as your VMware DR solution

## Optimize for Hybrid Cloud

Azure Arc-enabled VMware on-premises plus AVS
