Transforming Education with LMS and Virtual ClassRoom solutions integrated with Microsoft 365.

About Velocity Learning Management System:

Velocity Learning Management System, is a cloud-based learning management system and Virtual ClassRoom designed for education and corporate institutions, promoting remote and in-person learning designed to close the learning gap.

What we offer

Scenario: A large university in the United States is looking for a comprehensive learning management system (LMS) that can accommodate both asynchronous and hybrid-remote video conferencing classes. The university is also interested in incorporating real-time data analytics to help instructors track student progress and provide personalized feedback.

Solution: Jones Software Corporation is selected to develop a cloud-based LMS and virtual classroom for the university. The LMS includes a content management system that enables instructors to easily upload and organize course materials, as well as a communication system that allows students to collaborate in a virtual classroom environment. The virtual classroom is equipped with advanced video conferencing capabilities, enabling both asynchronous and hybrid-remote classes to be conducted seamlessly.
What our customers are saying

"Providing real-time data analytics,VLM incorporates adaptive algorithms that analyze student performance and provide personalized recommendations to instructors and with Microsoft 365 with Teams integrations."

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Key use cases

Business-class email
Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

Cloud storage
Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

Meet online
Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

Collaborate, chat privately
Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

Microsoft 365

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
