Free Microsoft 365 Defender Suite Proof of Concept Workshop

Uncover the capabilities of Microsoft's next-generation security tools in your own environment

Microsoft Solutions Partner

LEVACLOUD

Workshop highlights

Detect real threats and vulnerabilities within your own environment

Review your security goals and objectives

Map identified threats and vulnerabilities to specific solution recommendation

Get hands-on with the Microsoft 365 Defender suite in your own environment

Improve your security posture with our Proof-of-Concept Workshop

Managing growing volumes of data and alerts, tight budgets, and vulnerable legacy systems are everyday realities for organizations today. Through this hands-on workshop, we will help you work towards your broader security objectives and identify real threats within your system.

Why you should attend

This free, 4–6-hour workshop will provide you with a hands-on experience using Microsoft 365 Defender, Microsoft Defender for Office 365, Microsoft Defender for Endpoint, and Microsoft Defender Vulnerability Management.

By attending, you will:

- Identify ongoing security threats and discover vulnerabilities in your own environment
- Get actionable insights for next steps based on your specific needs and objectives
- Document your security strategy to present to key stakeholders
- Accelerate your security journey using the latest Microsoft Security tools
- If impressed, further explore our offerings through a paid pilot program of these products, consulting services, and managed services

What to Expect

In this Proof-of-Concept workshop, we will partner with you to bolster your organization's approach to cybersecurity. We will assist you in understanding how to prioritize and mitigate potential attacks, with:

•Analysis of cybersecurity threats targeting your organization
•Actionable recommendations to immediately mitigate identified threats and discovered vulnerabilities
•Insight into vulnerabilities in your Microsoft 365 cloud and on-premises environments to better understand, prioritize and address vulnerabilities and misconfigurations
•Long-term recommendations from Microsoft experts about your security strategy, with key initiatives and tactical next steps

Don't miss out on this unique opportunity to see the Microsoft 365 Defender Suite in action within your own environment. Discover how it can transform the way you manage and secure your organization against cyber threats.
