Windows Virtual Desktop QuickStart

What is Windows Virtual Desktop?

Windows Virtual Desktop (WVD) is a comprehensive desktop and app virtualization service running in the cloud. It's the only virtual desktop infrastructure (VDI) that delivers simplified management, multi-session Windows 10, optimizations for Microsoft 365 Apps for Enterprise, and support for Remote Desktop Services (RDS) environments. Deploy and scale your Windows desktops and apps on Azure in minutes, and get built-in security and compliance features. WVD on Azure with Microsoft 365 offers a more secure, productive experience than traditional RDS or VDI deployments. Team Venti will work alongside your team to develop, test, deploy, and validate your WVD environment.

Areas of Focus

- **Set up of WVD Service**
  - Create Microsoft Azure Tenant
  - Creation of Host pool
  - Create Application pool
  - Publish up to five applications
  - Assign permissions for up to 10 users
  - Set up service alerts for Service issues and Health Advisory

- **Testing and Validation**
  - Ensure the environment is validated according to Microsoft best practices and recommendations

- **Implementation Report**
  - Enable your team to expand the WVD environment via technical documentation

Key Benefits

Deploy a scalable and flexible environment:
- Create a full desktop virtualization environment in your Azure subscription without having to run any additional gateway servers.
- Publish as many host pools as you need to accommodate your diverse workloads.
- Reduce costs with pooled, multi-session resources.

You can deploy and manage virtual desktops:
- Publish full desktop or individual remote apps from a single host pool, create individual app groups for different sets of users, or even assign users to multiple app groups to reduce the number of images.
- As you manage your environment, use built-in delegated access to assign roles and collect diagnostics to understand various configuration or user errors.
- Use the new Diagnostics service to troubleshoot errors.
- Only manage the image and virtual machines, not the infrastructure.

Assign and connect users to your virtual desktops:
- Once assigned, users can launch any Windows Virtual Desktop client to connect users to their published Windows desktops and applications.
- Securely establish users through reverse connections to the service, so you never have to leave any inbound ports open.

Cloud Computing Services with Microsoft's "Integrated Innovation" Value Promise

Team Venti is an award winning business technology services company founded by Microsoft alumni and partners. We are committed to helping our customers succeed through the smart application of information technology. As a Microsoft Gold Partner, we offer the industry's widest array of Microsoft Cloud-based solutions.

Team Venti's Added Value

We take pride in employing some of the very best talent in our industry. Our services and support practice enjoy Microsoft's top certifications and offers services including:

• Cloud Computing Solutions including Microsoft 365, Windows Intune, Dynamics CRM and Microsoft Azure

• Hosted Microsoft Teams and Call Center services (Enterprise Voice)

• Design and deployment of advanced security, collaboration, content management and web portal systems based on Microsoft's SharePoint platform (Server and Online)

• Deployment and management of cloud-based infrastructure and management environments built around Microsoft Azure

• Integration of client applications with their customers and vendors, including the automated execution of business processes inside and external to the client organization, regardless of the platform type

• Design and deployment services around Microsoft's SQL Server platform

• Design and deployment of business analytics and reporting systems

• Custom training services

Quick Facts

• Founded in 2007 in Austin, TX and serve clients worldwide

• We are a HUB-certified, minority-owned company

• Team Venti's tagline is "Serve More." Our team members share one thing in common: a genuine passion to serve others

• We help our clients succeed by hiring subject matter experts who take personal pride in their work. 90% of our staff is Microsoft Certified

• Most of our team leads are active local IT community leaders (user groups, associations, etc)

• In 2008 Team Venti became one of Microsoft's first cloud Partners, joining the Microsoft Online Azure and Microsoft 365 programs

• Team Venti has won "Cloud Partner of the Year Award" at Microsoft's Worldwide Partner Conference in 2013, 2014, 2015 & 2016
