

## M365 Barracuda Office 365 email-based security 2.0

### FEATURES:

- Prevent attacks from getting through by combining email-gateway defenses, API-based inbox defense, and web security.
- Identify and limit the impact of any threats that reach your users with automated response and security awareness training.
- Ensure compliance and stay productive during downtime. Back up your important Microsoft 365 email and data to recover easily from malware attacks or lost data.
- Protect yourself from lateral attacks.
- Detect and respond to malicious attacks and unauthorized activity.
- Train users to recognize email threats.
- Simplify and automate post-delivery remediation.

### DELIVERABLES:

- Spam, Malware, and Advanced Threat Protection.
- Impersonation Protection.
- Account Takeover Protection.
- Email Encryption and Data-loss Prevention.
- Domain Fraud Protection.
- Incident Response.
- Security Awareness Training.
- Zero Trust Access for Microsoft 365.

### GLOBAL LEADER

• SAM • LICENSING • CLOUD TRANSFORMATION • ASSOCIATED CONSULTING SERVICES

### Vision

We believe in the power of technology to drive the greater good.

### Mission

We help our customers build the commercial and technical foundation for a successful and secure cloud-first digital transformation journey. We do this through a reliable services framework allowing our customers to rightsize and optimize their IT estates throughout the entire life cycle to unlock technology potential and innovation while saving costs.
