

CloudCompass

This Lighthouse subscription service for Microsoft 365 designed to keep you ahead of change in the dynamic cloud computing landscape.

Overview

CHANGE MANAGEMENT

Stay ahead of ongoing Microsoft 365 product updates to specific legal and compliance impacts

WORKFLOW OPTIMIZATION

Update your information governance, compliance, and legal programs through assessments.

PROCESS REALIGNMENT

Adapt policies and processes, manage risk, and improve implementation across information governance, compliance, and legal workflow.

Leveraging CloudCompass for Microsoft Purview

As businesses seek to reap the benefits of moving to Microsoft Purview in the cloud, they also face new challenges and risks relating to information governance, compliance, and eDiscovery programs. Businesses need a new approach to quickly adapt to their programs, operational models, and workflows. This is a dynamic process that requires constant attention, diligence, and expertise that can be difficult for legal and compliance teams to source and manage alone.

CloudCompass is delivered via a Lighthouse online portal providing timely, curated M365 updates prioritized by risk, backed by expert support designed to help you maintain compliance and defensibility to mitigate legal risk. Lighthouse offers our continual expertise guidance on Microsoft 365 updates and impacting your programs, keeping you ahead of the curve and driven by:

- **Readiness:** Our industry-leading Risk and Recommendations (R2) Report provides a risk rating, impact assessment, and recommended actions for every Microsoft 365 release on the roadmap.
- **Enablement:** Articles, documentation, and best practices authored by Lighthouse experts, some of the best and brightest in the industry.
- **Expertise:** In addition to a block of on-demand consulting hours, clients receive an annual health check, which includes an assessment and validation of your legal and compliance workflows. You also receive our annual workshop, a half-day review of trending topics, best practices, and emerging tech.
