

# ChatGPT in Azure Open AI Services

## The Discovery Workshop

If you have wondered what ChatGPT in Azure Open AI Services is and what it could do for you, this is the workshop for you.

1. We will help you figure out the details about ChatGPT in Azure Open AI Services and its possibilities.
2. We will provide you with support on locating the next business opportunity within your organization e.g. for HR/Marketing/Sales.

**Learning goals for the Discovery Workshop are:** You will gain understanding of what ChatGPT Azure Open AI Services is about, how you can tackle hallucination risks and what makes it secure. Also you will get guidance on what is doable with ChatGPT in Azure Open AI Services with your own data, and what are the first steps to create your own CompanyGPT.

**We are your partner in sustainable and secure AI, with and for your people.** We will tailor this workshop to suit your participants list. When it is HR experts who joins the Discovery Workshop, we'll make sure they'll get HR related service support. If you sent us motley crew from every team in your organisation, we'll tackle that as well.

**Length of the Discovery Workshop is 4 hours, with option for rapid piloting validation and roadmap.** Available as on-site and virtual options. Participants preferably are using Azure and either have or are planning to have Azure Open AI Services in use.
