

Name:	Readiness to KSeF in Dynamics 365 Business Central: 3-days Workshop
Primary product:	Dynamics 365 Business Central
Service type:	Workshop
Duration:	3 - days
Pricing:	2500 USD

1. Summary - briefly describe the purpose or goal of your offer:

See how you can benefit from our analytical workshops, designed to evaluate KSeF readiness for Microsoft Business Central and Navision ERP users also assisting you in choosing the optimal implementation solution.

2. Description - must provide enough detail for customers to clearly understand your offer:

KSeF is a national e-invoicing system implemented in Poland. It aims to facilitate and streamline the process of issuing, receiving, and archiving invoices electronically, promoting efficiency and reducing paperwork for businesses, government entities, and individual taxpayers. Starting from 1st July 2024, KSEF will be mandatory for all relevant parties, ensuring widespread adoption and compliance.

The subject of the workshop analysis is readiness to KSeF Implementation for Microsoft Business Central and Navision ERP Systems. Thanks to our workshops, you will receive a specific action plan, solution recommendations and support in choosing the right implementation, which will allow for smooth implementation and meeting the requirements of the KSeF before July 1, 2024.

The analysis is aimed at verifying, in legal, organizational and technical terms, mainly the following issues:

- **Verification of Compliance with KSeF:**

Detailed analysis of the sales and purchase processes in the Microsoft Business Central and Navision ERP systems in terms of compliance with the requirements of the Polish Financial Supervision Authority, both in legal and technical terms.

- **Planning and Schedule of Tasks:**

Developing the exact scope of works, including programming works, together with the initial planning of the KSeF implementation project, taking into account the specificity of your ERP systems.

- **Support in the Selection of the Implementation Provider:**

Presentation of recommendations regarding the best suited implementation providers who are experienced in the area of KSeF implementations for Microsoft Business Central and Navision ERP systems.

- **Adapting the Solution Architecture:**

Taking into account your current ERP systems when designing the KSeF solution architecture in the context of the selected implementation provider.

- **Post Implementation Support:**

We offer comprehensive support at every stage of implementation - from analysis, through the Implementation process, to later stages of service support.

- **Consideration of Legal Changes and Deadlines:**

Updating the knowledge about legal changes concerning the KSeF and adapting the project plans to the postponement of the KSeF entry into force.

Scope of work:

1. Workshop:

- **Analytical** workshops with the collection of functional requirements from Business;
- **Mapping** to standard functionality aligns business processes with a Business Central system's standard features to avoid significant customizations;
- **Recommendation** document with overall architecture, estimated budget of recommendations, general schedule, gap fit difference and indication of project risks.

Please note:

- The service can be performed remotely.
