

# PLATFORM OVERVIEW

AI Enterprise Application Modernization

**FLOW<sup>x</sup>.AI**

We believe a modern enterprise is defined by the ability to provide modern, seamless, zero-friction digital products and services to its customers and employees. Products and services that are easy, satisfying to use, and help people achieve their goals without encumbering them.

Enterprises were promised useful tools for application modernization. Instead they got a thousand disjointed point solutions.

We created a unified solution that works: [FlowX.ai](#)

---

FlowX.ai is **used by large banks** as a long-term solution to accelerate

## Omni-channel application development & deployment

- ✓ Personal Banking
- ✓ Commercial Banking
- ✓ Corporate & Institutional Banking
- ✓ Investment & Protection

Universal banking solution

## Core Systems & Infrastructure Renewal

AI-powered continuity platform
