

THE NEXT WAVE OF P&C INSURANCE SOLUTIONS

Spear's innovative approach has disrupted the world of property and casualty insurance enterprise systems with a full suite of core software solutions harnessing the incredible capabilities of the **Microsoft Power Platform™**.

With **Spear**, your insurance organization will be operating on the most advanced technology designed from the ground up for your business! You'll be able to pivot quickly to changing market conditions, respond to new business requirements faster and less costly than ever before, and experience what a modern core insurance platform should really be like!

- ✓ Full Suite or Standalone
- ✓ Low Code Platform
- ✓ 100% Cloud-based
- ✓ Powerful Workflows
- ✓ Dashboards & Analytics
- ✓ Single Tenant

Spotlight on SpearSuite™

▶ SpearPolicy™

Multi-line, multi-state policy administration system will elevate your operations and allow your underwriting team to adapt and thrive in a changing market.

▶ SpearBilling™

An integrated and robust billing solution designed with insurance billing in mind. Automate complex billing activities and digitize the entire process with ease.

▶ SpearClaims™

Multi-line claims management system that handles everything from multi-jurisdiction workers' compensation to commercial and personal auto to property, and even homeowners.

▶ SpearPortal™

Provides your agents and policyholders with a seamless, easy-to-use, and meaningful experience to access policy information, download documents, report claims, submit new business, and so much more!

SPEED. CONTROL. RESULTS.

BUILT FOR INSURANCE

Designed and built for the unique needs of property and casualty insurance companies of any size

ANYTIME, ANYWHERE

From your desktop computer to your mobile device, you can work in the way that you prefer with Spear

BE IN CONTROL

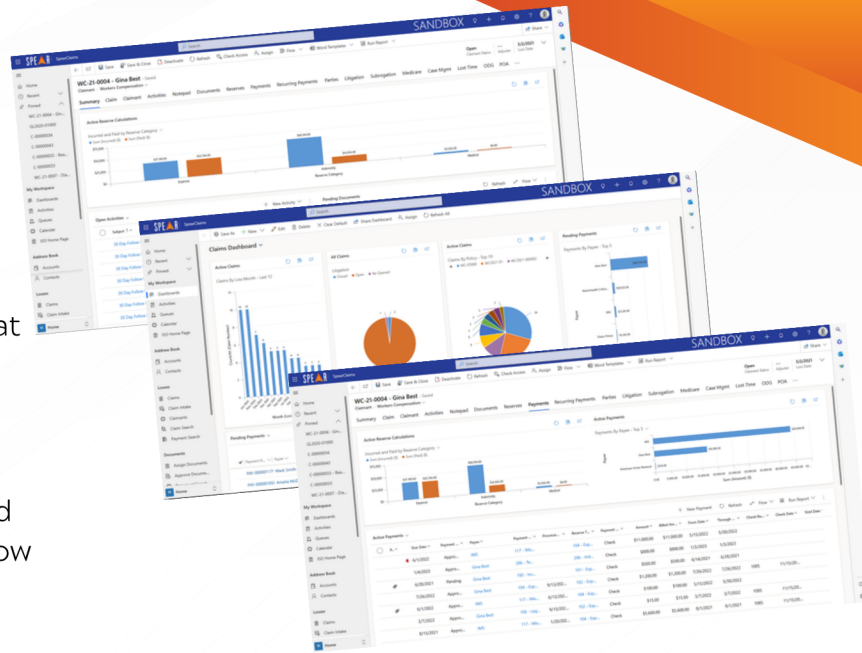

Break the cycle of vendor dependence and stay in control from data to forms, workflow to reporting, and more!

ADAPT TO MARKET CONDITIONS

Know that with Spear your business can make the necessary changes on-the-fly to adapt to changing markets and customer demands ... all measured in days (or less!), not months

WHO WE SERVE

Solutions built for carriers, self-insured funds, third-party administrators, risk pools, captives, risk management firms, public entity groups, program administrators, and MGA/MGUs

GAME CHANGING TECHNOLOGY

Escape the restricting drag of legacy technology solutions and experience what a truly modern solution should be like with Spear

ZERO I.T. FOOTPRINT

Spear's cloud-native solutions are fully managed and administered in the Microsoft Azure™ cloud & Dataverse™.

A FOUNDATION YOU CAN TRUST

The SpearSuite™ is built on the ultimate low code / no code platform developed by Microsoft to deliver unmatched solutions that are scalable, configurable, & extremely easy to use

INSURANCE SOLUTIONS BUILT ON THE LOW CODE / NO CODE
MICROSOFT POWER PLATFORM™

SPEED. CONTROL. RESULTS.
