Reimagine the Employee Experience with Microsoft Viva

The employee experience includes every interaction that happens along the employee life cycle, which involves an employee's role, workspace, manager and wellbeing. Creating a positive employee experience has increasingly become more important with the sudden expansion of remote work. However, according to a recent Microsoft survey*, nearly 60% of people say they feel less connected to their team after shifting to remote work.

Microsoft's new employee experience platform, Microsoft Viva, brings together communications, knowledge, learning, resources, and insights. Powered by Microsoft 365 and experienced primarily through Microsoft Teams, Viva fosters a culture where people and teams are empowered to be their best from anywhere.

Microsoft Viva Changes the Way you Work

Viva Connections Improve Culture and Communications

Keep everyone connected, improve collaboration, unite your organization. Viva Connections encourages meaningful connections across the organization by enabling employees to easily discover relevant communications and communities.
