

Strive MedTech is in the business of helping make the desired lifestyles possible of both patients and care teams. Our FDA cleared wearable sensor technology and virtual care platform connects to a smart device, literally putting the care team in a patients' pocket.

Strive accelerates delivery of the right information at the right time throughout an episode of care, maximizing connectivity and producing consistent high-quality outcomes. Simply put, Strive has found a way to harmonize the distinct needs of modern healthcare, improving the quality of life for both patients and care teams.

MISSION

To harmonize the distinct needs of modern healthcare to improve the quality of life for patients **and** care teams.
