Microsoft Solutions Partner
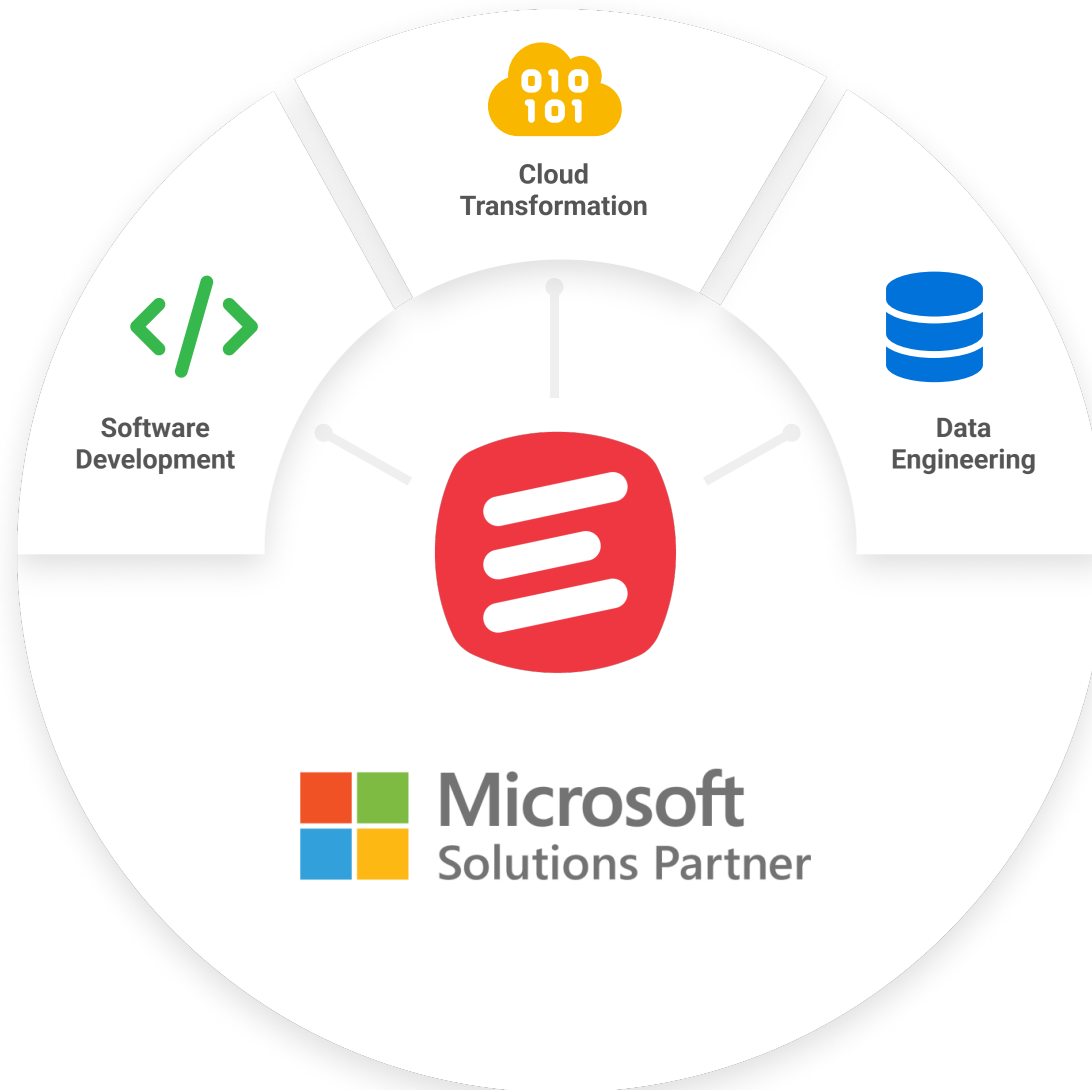

Why work with us

🤝 Trusted Long-Term Partner

Our goal is to be a trusted extension of your team, delivering successful projects for years to come.

🎯 Solutions Oriented Approach

We're focused on solutions, not products; prioritizing long-term value through quality-driven delivery.

👥 Flexible Engagement Options

We offer pro and managed services, allowing you to engage a full team on a turn-key project or enhance your existing team with one of our specialists.

Why SQL Managed Services?

👪 Utilize an Experienced Team

Manage your database environments with a team of senior DBAs who know both Azure & SQL Server.

🪄 Maximize & Optimize your SQL Databases

Get the most out of your existing Azure SQL and SQL Server infrastructure.

🛡 Protect & Secure your Data

Monitor, secure, and backup your data while aligning with business continuity goals.

Benefits of SQL Managed Services

Access a team of Senior DBAs

Our team of experienced DBAs specialize in both Azure SQL & SQL Server. Avoid lack of coverage due to vacations & 2-week notices.

Ensure Business Continuity

Make sure your backup & restore processes meet your RPO & RTO. Test your DR plans at the database layer.

24x7 Real-time Monitoring

SQL specific alerts and fast response times in your chosen response time window.

Achieve Data Protection & Security

Use Azure Defender for Cloud for both your cloud and on-premises databases. Enforce data classification & encryption policies with Azure Arc.

Additional Benefits

Be in the Know with Regular Health Checks

Rest assured knowing your database environment is healthy with quarterly review meetings and detailed reports.

Improve Database Performance

Best practice configuration, query optimization, and index tuning. Stored procedure & ETL development also available.

Avoid Disaster Scenarios

Know about database corruption before your backups are infected & potential disk space issues before it's too late.

Reduce Licensing Costs

Consolidate databases onto Azure SQL elastic pools or shared infrastructure. Migrate workloads to Azure for flexibility & reduced management costs.

SQL Managed Services Includes

- Real time Azure SQL and SQL Server monitoring with customized alerting

- Azure Arc enablement of your on-premises databases

- Critical Issue Response Time Commitment

- Non-critical issue response within One Business Day

- Guaranteed Professional Services Hourly Rate

- Access to Online Support Portal for ticket submission

- Custom backup & Maintenance plans for both Azure & on-premises databases

- Database backup monitoring

- Quarterly database health check & security audit

- Query tuning and database development services
