

Offer overview

Microsoft Viva Connections Go-Fast

Viva Connections Go-Fast offering gets organisations up and running with Viva Connections in a matter of a few short weeks.

What is Viva Connections Go-Fast?

Microsoft Viva Connections is your gateway to a modern employee experience – get ready to inform, engage and empower your organisation. A modern SharePoint Online intranet is the key dependency for Viva Connections.

We've designed **Microsoft Viva Connections Go-Fast** specifically for organisations who already have a modern SharePoint Online intranet and want to implement Viva Connections.

This Go-Fast offering gets organisations up and running with Viva Connections in a matter of a few short weeks.

1. Design & Discovery

We'll validate, document and prioritise user stories through a series of workshops. Taking these learnings, we'll create user stories and work with you to prioritise and define requirements.

2. Configure & Implement

Time to deploy the finished products in your environment and provide you the necessary training to set you up for success.

What is Viva Connections?

It's widely accepted that the driving force for any business is its people.

Viva Connections puts people at the centre by bringing together your intranet and Teams into an integrated employee experience. It provides people with the resources and support they need to succeed and thrive, no matter their location.

Viva Connections is a company-branded employee experience app in Teams. It is a gateway to your employee experience, with personalised news, communications, tasks, people and resources. It provides a single curated employee destination that can be configured for specific roles, like frontline workers.

Leaders can communicate and engage with their employees, and employees can get easy access to the tools and resources they need from one place. Viva Connections builds on existing capabilities in Microsoft 365 like SharePoint and Yammer and pulls your communications together into a pre-configured app in Teams, designed for both desktop and mobile workers.

Profitability

Organisations with highly engaged employees have **21%** greater profitability.⁴

Employee Satisfaction

94% of employees say they would stay at a company longer if it invested in their learning and development.³

Talent Retention

Highly engaged employees are **12x** less likely to leave their company than those who are not engaged.¹ Your digital workplace should prioritise employee engagement.

Engagement

86% of top-performing companies reported that digital training programs boosted employee engagement and performance.²

Part 1: Design & Discovery

We'll work with you to implement Viva Connections in a way that meets employee requirements and delivers them an exceptional mobile experience that's customised to your organisation and your users.

Our 'Design and Discovery' phase enables us to approach this by delivering two Connections planning workshops and one design workshop. In these sessions, we'll capture user stories and acceptance criteria, and then work with you to prioritise each of these stories based on implementation effort assigned to each story, rationalised against the available implementation budget to define what's 'in-scope'.

To ensure we've met your requirements, you'll also receive five hi-fidelity design mock-ups agreed upon in the implementation scope. Draft mock-ups are then reviewed by the customer and finalised through a single iteration once recommended tweaks from the draft review are implemented.

Part 2: Configure & Implement

The implementation activities will rapidly develop and deploy the customer approved implementation scope.

We'll then provide you a solution package containing all artefacts necessary to install the solution into your M365 environment, as well as end-user guides suitable for non-technical end-users to guide their use of the Viva Connections solution.

Lastly, to ensure the smooth launch of your Viva Connections solution, we will provide a Solution Roadmap sets out the recommended activities for the ongoing evolution of Viva Connections, including timeline and dependencies.

Project pathway

Depending on your needs, we can complete this engagement over a period of 5 weeks with an investment starting from **\$25,000 AUD** excluding GST.

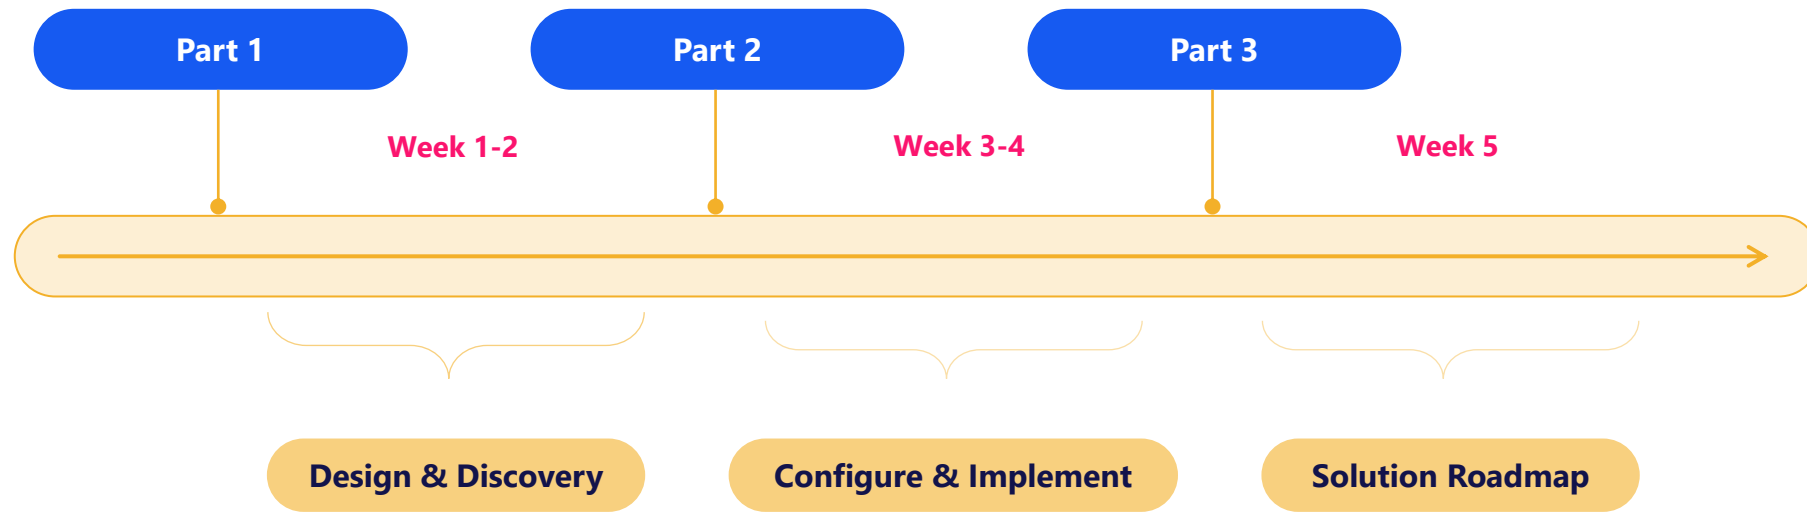

We'll work with you to develop a more detailed timeline, including mapping key stakeholders who we will need to engage as part of our project.

Engage Squared resources

Digital Workplace Consultant – to analyse your intranet, plan for the dashboard, and configure and deploy Viva Connections.

Digital Designer – to develop high fidelity mock-ups based on the user stories agreed on in the design and discovery phase.

Project Manager – to oversee smooth running of the project, provide status reports and support stakeholder engagement activities.

About us

We are Engage Squared.

Specialists in <people> friendly technology.

Our mission is to make work better. We are one of a small number of technology consultancies in APAC that provide end-to-end support for our clients, helping to tackle issues ranging from employee experience, business process automation, compliance and records management, technology adoption and more.

From design, to technical build, our team of experts use their broad range of skills across project delivery, cloud strategy, user experience design, governance, agile development, change management, and security to help our clients get the most of technology.

We specialise in a range of technologies, and partner with leading providers such as Microsoft, ServiceNow, AvePoint, Glint, SWOOP Analytics and many others. We take partnerships seriously and were proud to be named the **2022 global winner of the Employee Experience Microsoft Partner of the Year award.**
