

# Intranet-as-a-Service (IaaS)

We're changing the way organisations think about, support and manage their intranet – in a monthly investment rather than a heavy upfront cost. With 3 different service levels, there is an Intranet-as-a-Service package to suit everyone.

Our Intranet-as-a-Service includes initial intranet implementation, launch, training, ongoing support and access to experts year-round with no up-front costs. It's like having an Intranet Support Team, Digital Workplace Consultants and Adoption Specialists all working together.
