

Microsoft Viva Connections Go-Fast

Microsoft Viva Connections is your gateway to a modern employee experience – get ready to inform, engage and empower your organisation. A modern SharePoint Online intranet is the key dependency for Viva Connections.

We've designed 'Microsoft Viva Connections Go-Fast' specifically for organisations who already have a modern SharePoint Online intranet to plan for and implement Viva Connections.

Expected outcomes

- ✓ A review of your existing intranet to inform Viva Connections implementation pathway including workshops
- ✓ Hi-fidelity design mock-ups
- ✓ Solution package containing all approved artefacts including installation scripts
- ✓ End user guide to support key user journeys
- ✓ Solution roadmap to help you prepare for launch including recommended activities, timeline, effort and dependencies

Design & Discovery

We'll conduct a series of workshops to gather your requirements and work with you to prioritise the project scope. We'll then provide 5 high fidelity mock-ups to ensure you are confident with what will be delivered.

Configure & Implement

We'll provide you with a release package containing all your artefacts ready for deployment, together with an end user guide to support non-technical users in getting the most out of your new solution.

Solution Roadmap

To support your product launch, we'll provide you a roadmap of recommended activities, realistic timelines, effort and dependencies to ensure that you are well equipped for a smooth and successful go-live.

Project pathway:

What is the timeframe of this engagement?

~5 weeks

What is the expected investment?

\$25,000* AUD
*Microsoft funding available for qualified customers

Who is this engagement suitable for?

Any organisation with a modern SPO intranet wanting to roll out Viva Connections
