

KLIPPA IDENTITY VERIFICATION

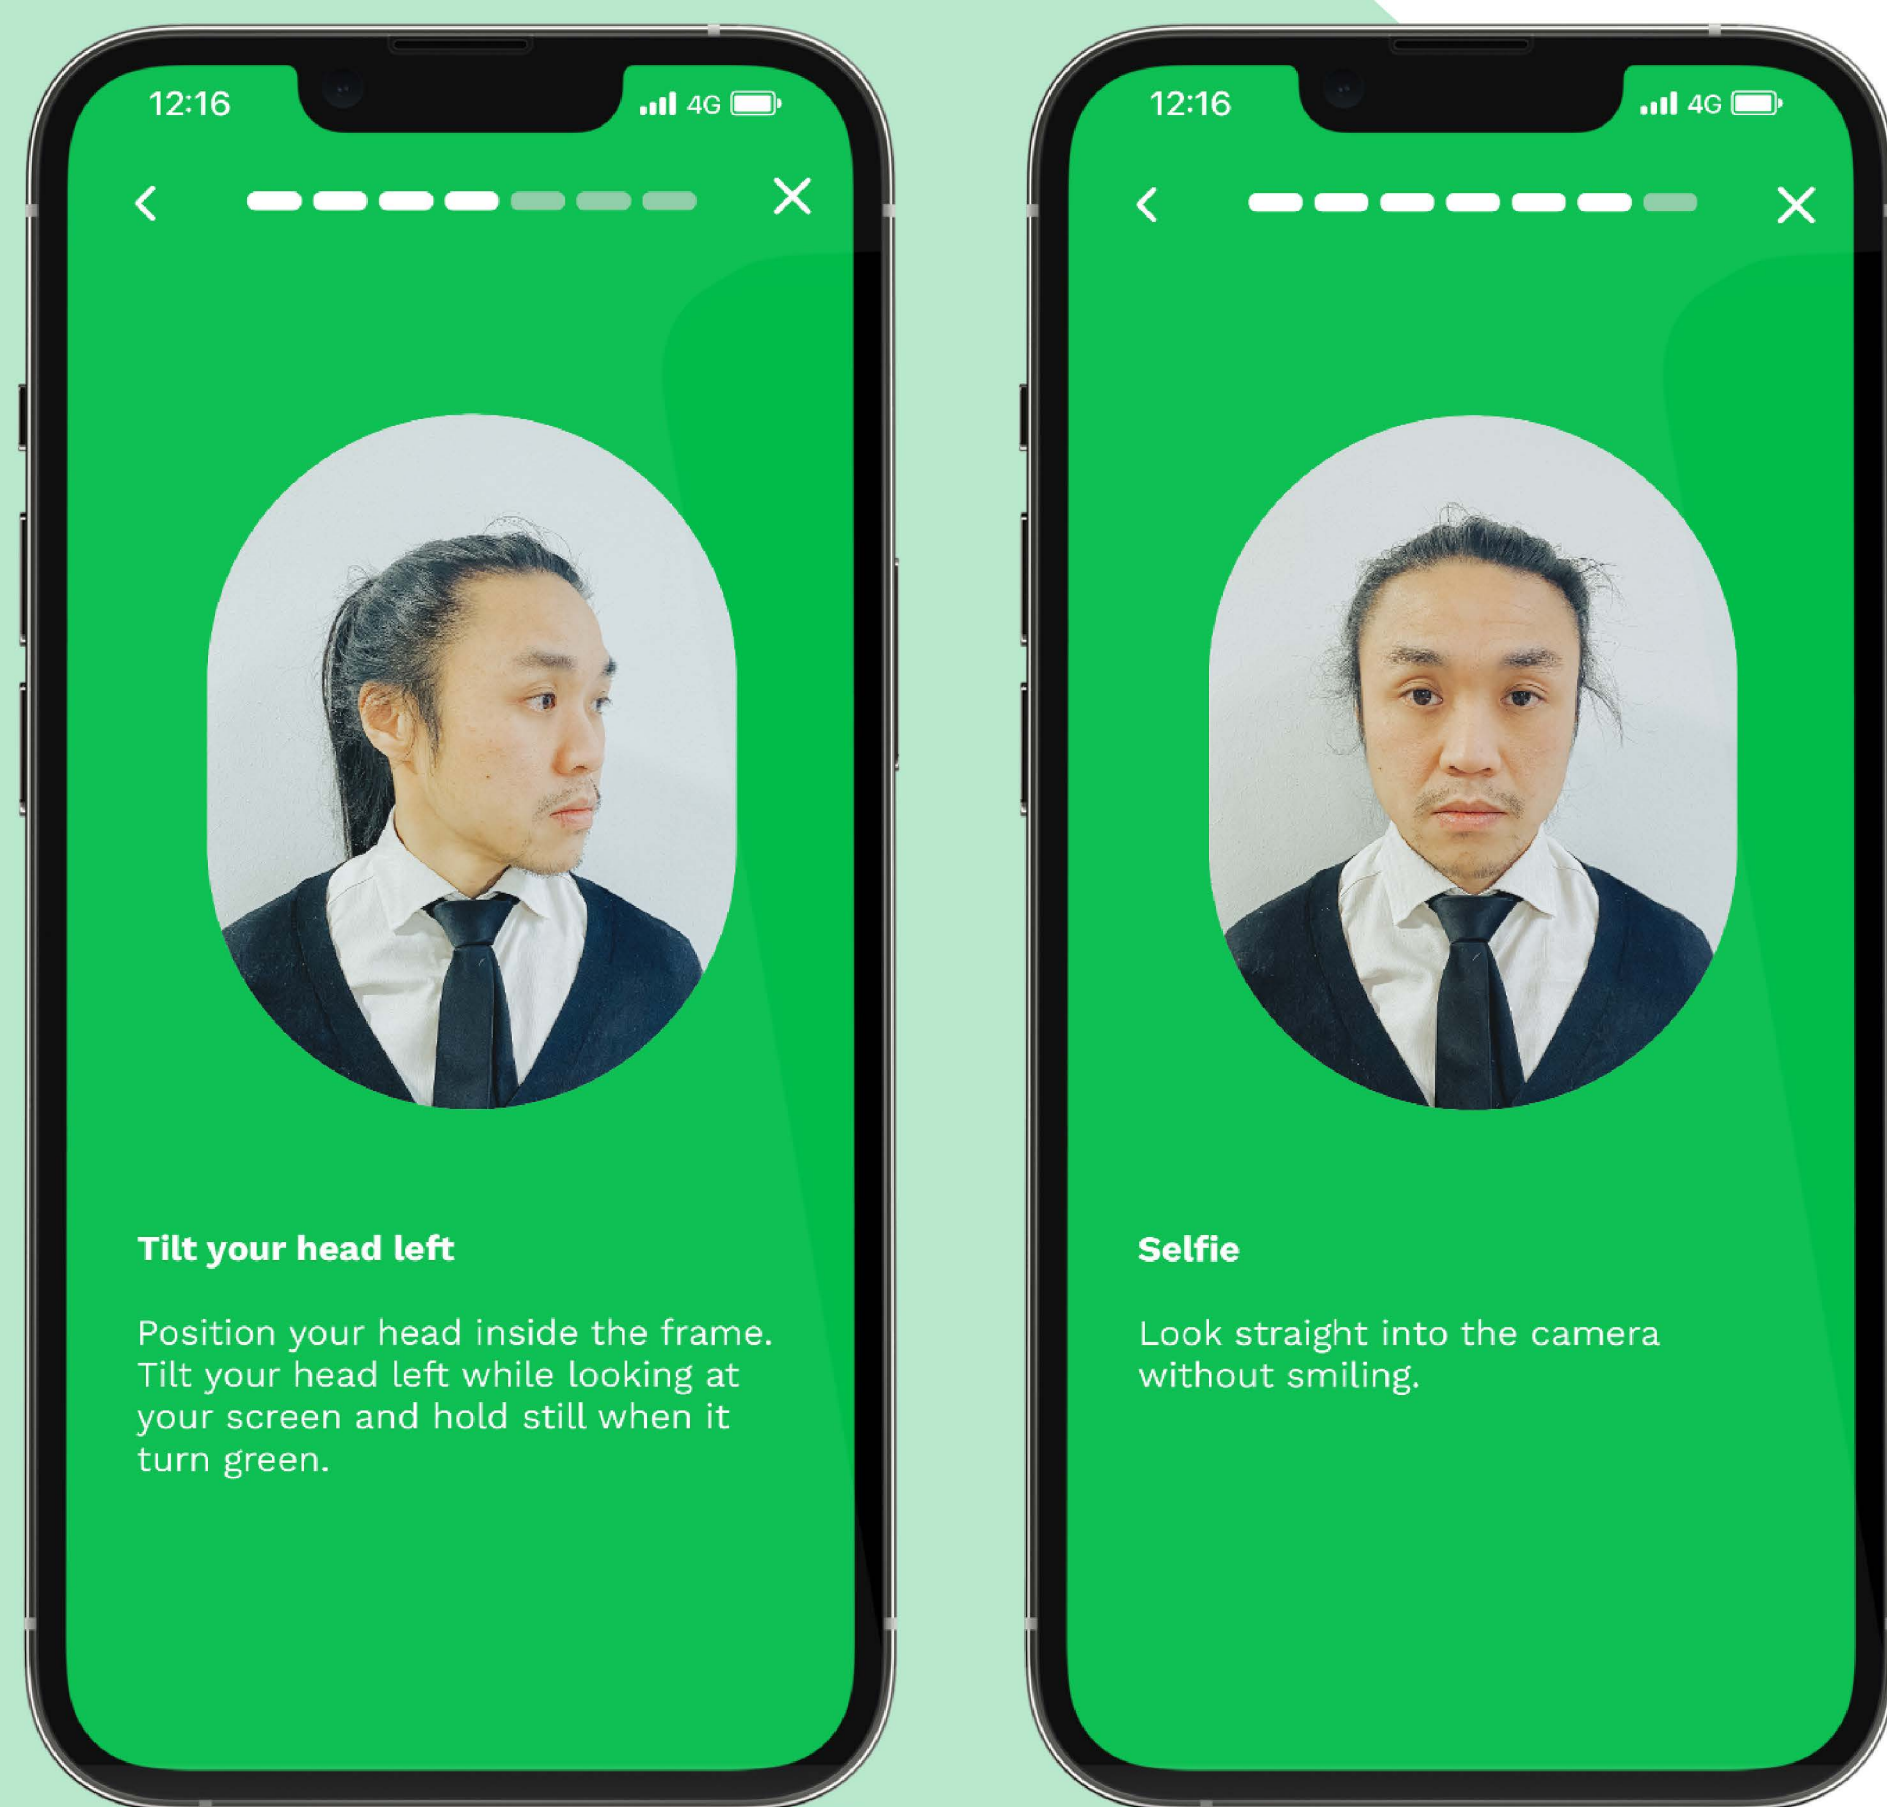

Simplify your customer onboarding or compliance checks with Klippa's AI-Powered Identity Verification Software.

HOW DOES KLIPPA ID VERIFICATION WORK?

1. Capture Data

Upload or take a photo of the ID to capture and extract the data.

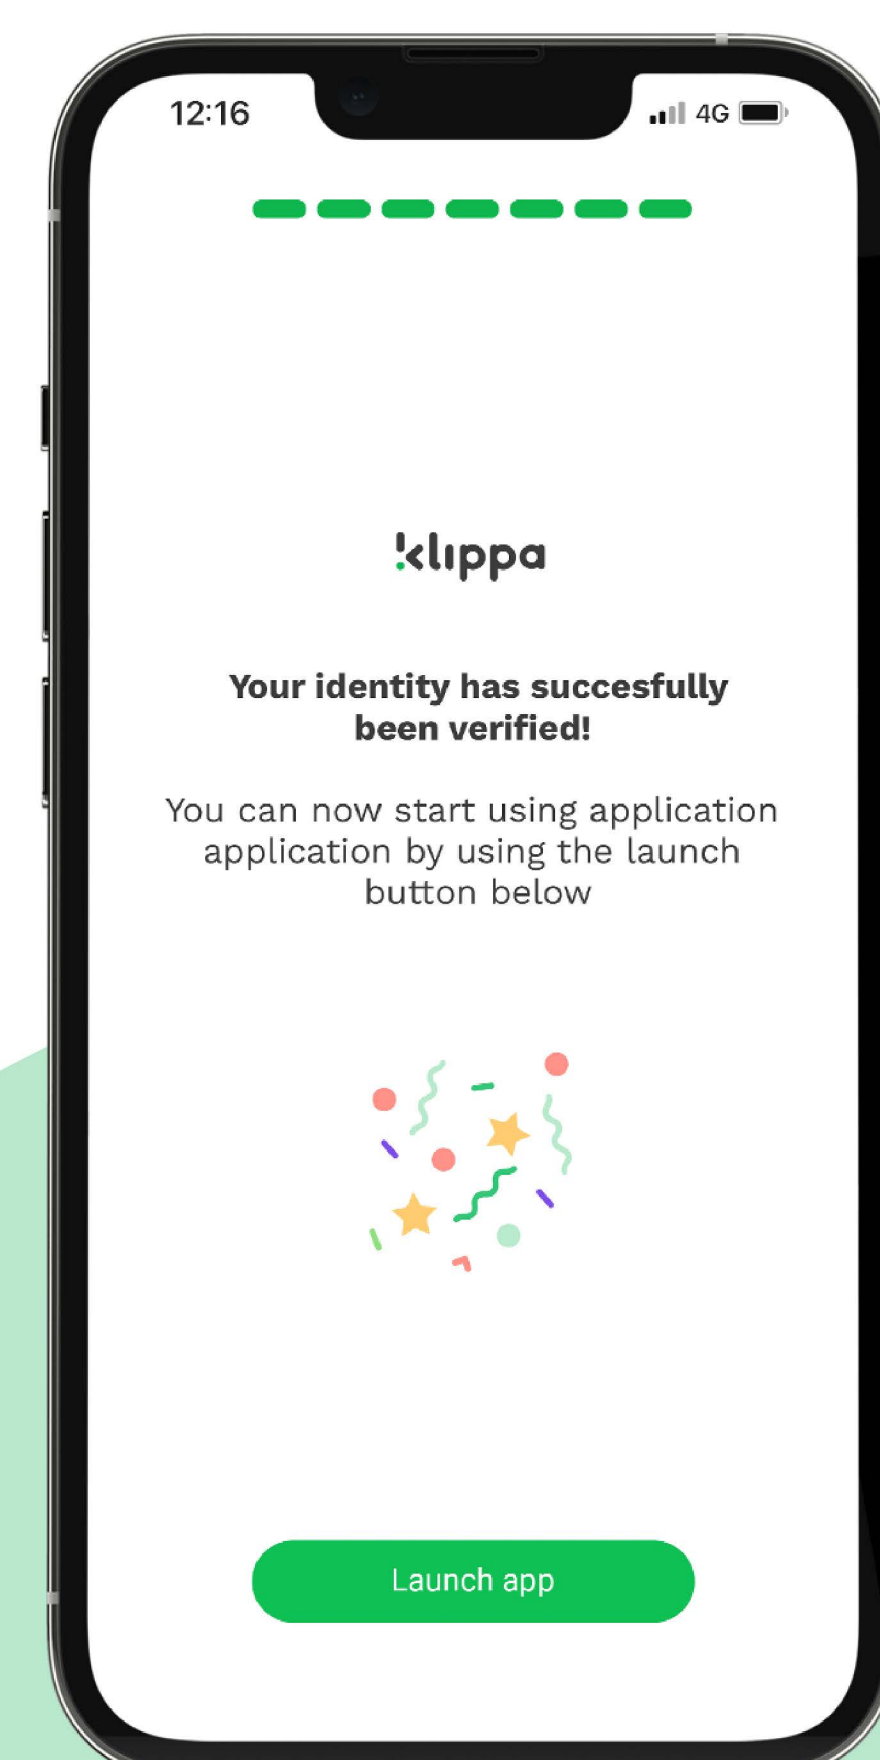

2. Verify Biometrics & Liveness

Secure KYC compliance with biometric verification and liveness detection.

3. Get ID Verification results

Results are provided almost in **real-time** for the next step of the onboarding.

Your data privacy and security are ensured:
