

WE GET WANTING TO ENSURE YOU ACHIEVE MAXIMUM SECURITY PROTECTION.

CDW Amplified™ Endpoint
Microsoft 365 Security Assessment

Security is at the forefront of every organization's concerns. A lack of security poses a real threat. The Microsoft 365 suite contains numerous products and features designed to keep applications, data and users secure, while providing advanced notification of security threats from many sources. Maximize the benefits of Microsoft 365 by performing a Security Assessment of your current environment to determine where there are gaps and how Microsoft 365 can help address the risks. We help you understand some of the features that may have gone overlooked and educate you on the benefits of Microsoft 365 E3 or E5 Enterprise.

A Microsoft 365 Security Assessment can help you achieve:

Operational
Efficiencies

Agility

Reliability

Orchestrating the Right Solution

The Microsoft 365 Security Assessment will provide:

- The most value from Microsoft 365 Security features.
- Identification of security risks and what features are available to mitigate them.
- Knowledge of best practices on deployment, management and integration.
- Insight on how to secure business-critical applications, data, devices and users.

CDW's Microsoft 365 Security Assessment allows you to analyze and plan your organization's security posture and includes the following benefits:

- Assess Windows 10, EMS and Office 365 security features.
- Review organizational and technical requirements for security features around Office 365, EMS and Windows 10 Enterprise.
- Understand and identify security risks in your current production environment.
- Establish a roadmap to implement security features to reduce exposure to data and users.
- Understand how Microsoft 365 can provide an integrated experience to managing security.

CDW GETS MICROSOFT

CDW is uniquely qualified to design IT solutions that remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it.

We can help you navigate Microsoft's robust array of solutions. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid cloud environments. Based on your organizational demands, we can help you plan, deliver and manage a flexible cloud solution tailored to your needs. We offer outstanding providers, risk mitigation strategies and dedicated, personalized expertise to deliver economic and operational benefits.

We get Microsoft. And we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.

CDW's full lifecycle of Services can support your organization no matter where you are on your journey
