

Teams Manager for Microsoft Teams

Empower hybrid workers with collaborative apps in Teams

Agenda

-
- Microsoft Teams powers hybrid work collaboration
 - Teams Manager for Teams
 - See it in action: Teams Manager for Teams

Hybrid work is here to stay

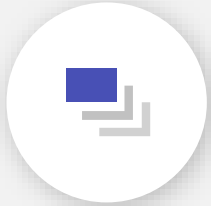

80%

of leaders say they plan to make major changes to their flexible work policies¹

73%

of employees want flexible remote work options to stay¹

Hybrid workplaces are difficult to control

Uncontrolled growth in a Teams environment

Clutter and disorganization from uncontrolled processes

Enormous effort to keep everything up-to-date and tidy

25X

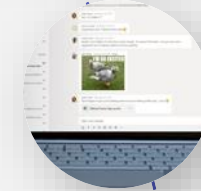

On average, information workers switch between 10 apps up to 25 times a day²

Create a collaborative business environment in Microsoft Teams

Teams Manager introduces structure to Microsoft Teams at AZO

Results

- Since December 2019, AZO is successfully using Microsoft Teams in their environment with the structure and support of Teams Manager.
- Up to 1,000 users worldwide work with Teams Manager every day and have already created 80 well-structured Teams.
- Teams Manager made it possible for AZO to maintain the Microsoft Teams environment with just one person.

“By integrating Teams Manager into our Teams Client, we give our users the possibility to effortlessly create Teams from a predefined set of templates. We finally got to a set and strict process of governing Teams while also generating a great overview and control over all created Teams.”

Tim Baumgartl

Software Engineer, AZO
