

Microsoft Teams is the hub for teamwork in Microsoft 365

Qubic's **Direct Routing** enables
Phone Calling in Microsoft 365
using Microsoft Teams

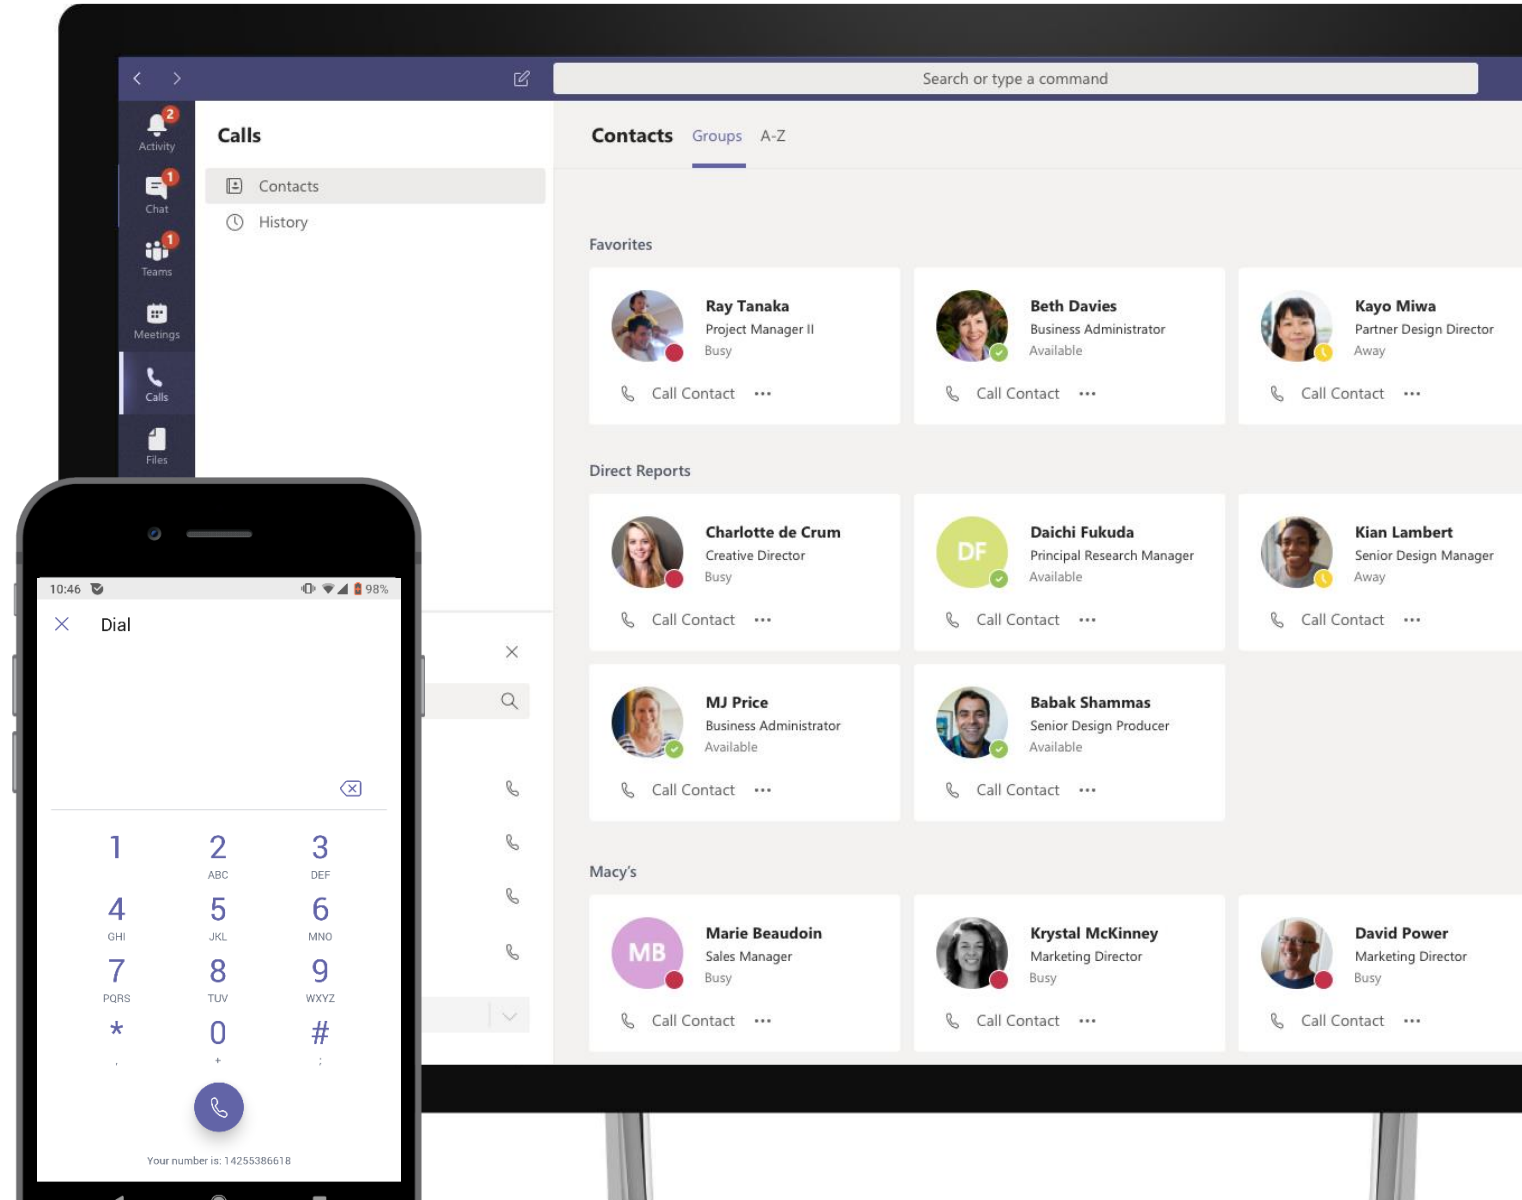

Direct Routing Enterprise Calling & Voice

Qubic has technology located in the Qubic Cloud Nexus that routes Microsoft Teams calls directly to and from the PSTN over resilient SIP trunks.

Calls charged via straightforward per minute billing at highly-competitive rates.

Phone System

Replace your traditional phone system with Microsoft 365 using [Teams](#)

Unify your global phone communications

Create a fully unified communications platform for video, chat and phone calls.

Integrate legacy and specialist phone systems

Qubic's technology lets you tightly integrate Teams telephony with platforms such as Mitel MiContact Centre

Add additional features

You can add PCI compliant Voice Recording, Call Logging or Voicemail

*A complete voice solution is possible with a combination of Phone System and Direct Routing

Call Directly from Teams

Your phone number displayed here

Dial pad to dial phone numbers

The screenshot shows the Microsoft Teams interface with the 'Contacts' page open. The left sidebar contains navigation icons for Activity, Chat, Teams, Meetings, Calls, and Files. The main area displays a 'Contacts' list with a 'Speed dial' section and a 'Suggested' section. A search bar at the top says 'Search or type a command'. A dial pad is visible at the bottom left of the main area.

Speed dial contacts:

- Aadi Kapoor, Program Manager, Available, Call contact
- Alvin Tao, Program Manager, Available, Call contact
- Babek Shamas, Program Manager, Available, Call contact
- Hilary Reyes, Program Manager, Available, Call contact
- Cassandra Dunn, Program Manager, Available, Call contact
- Kadji Bell, Program Manager, Available, Call contact
- +99 23-234-AUSTRALIA, Call back
- Chris Naido, Program Manager, Available, Call contact
- +1 (425) 678-San Francisco, CA, Call back
- Lawrence Gilbertson, Program Manager, Available, Call contact
- Tom Davis, Designer, Available, Call contact

Suggested contacts:

- MJ Price, Program Manager, Available, Call contact
- Sarah Roach, Program Manager, Available, Call contact

Calling in Teams

Replace traditional phone system with Microsoft 365

Seamless user experience

Make and receive business calls in Teams, while at home, or on the road from Android and iOS, video and sharing.

PSTN Calling Available

With Direct Routing, ensure every user can make and receive calls – a true enterprise voice solution.

Collaboration and Voice Together

Teams lets your users make and receive calls from the office, from home or on the move – encouraging working together.

Unify your communications in Microsoft 365

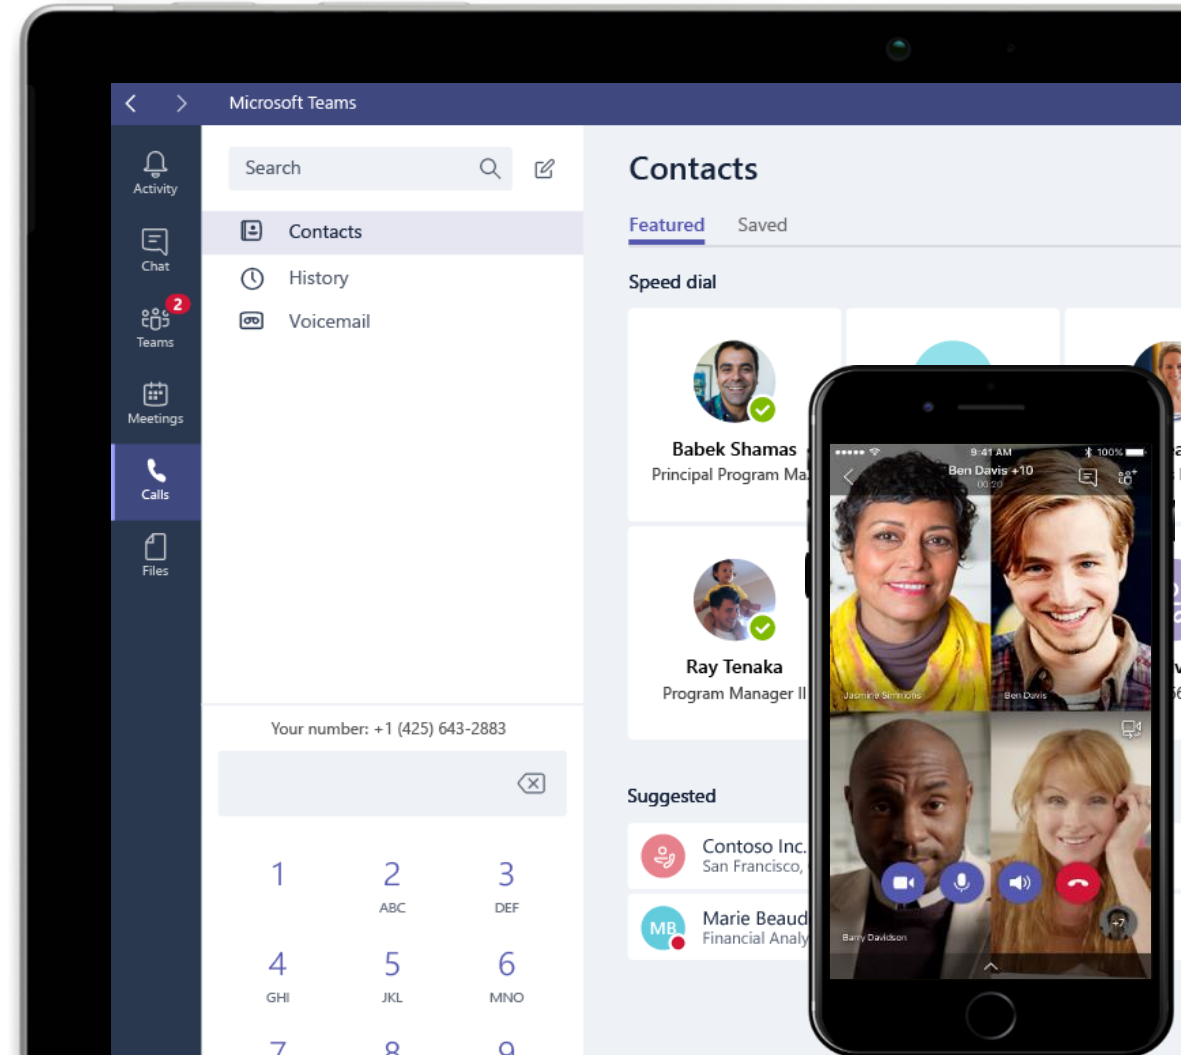

Provide a complete unified communications solution in the cloud. Reduce reliance on traditional PBXs and on-premises hardware.

Improve flexibility

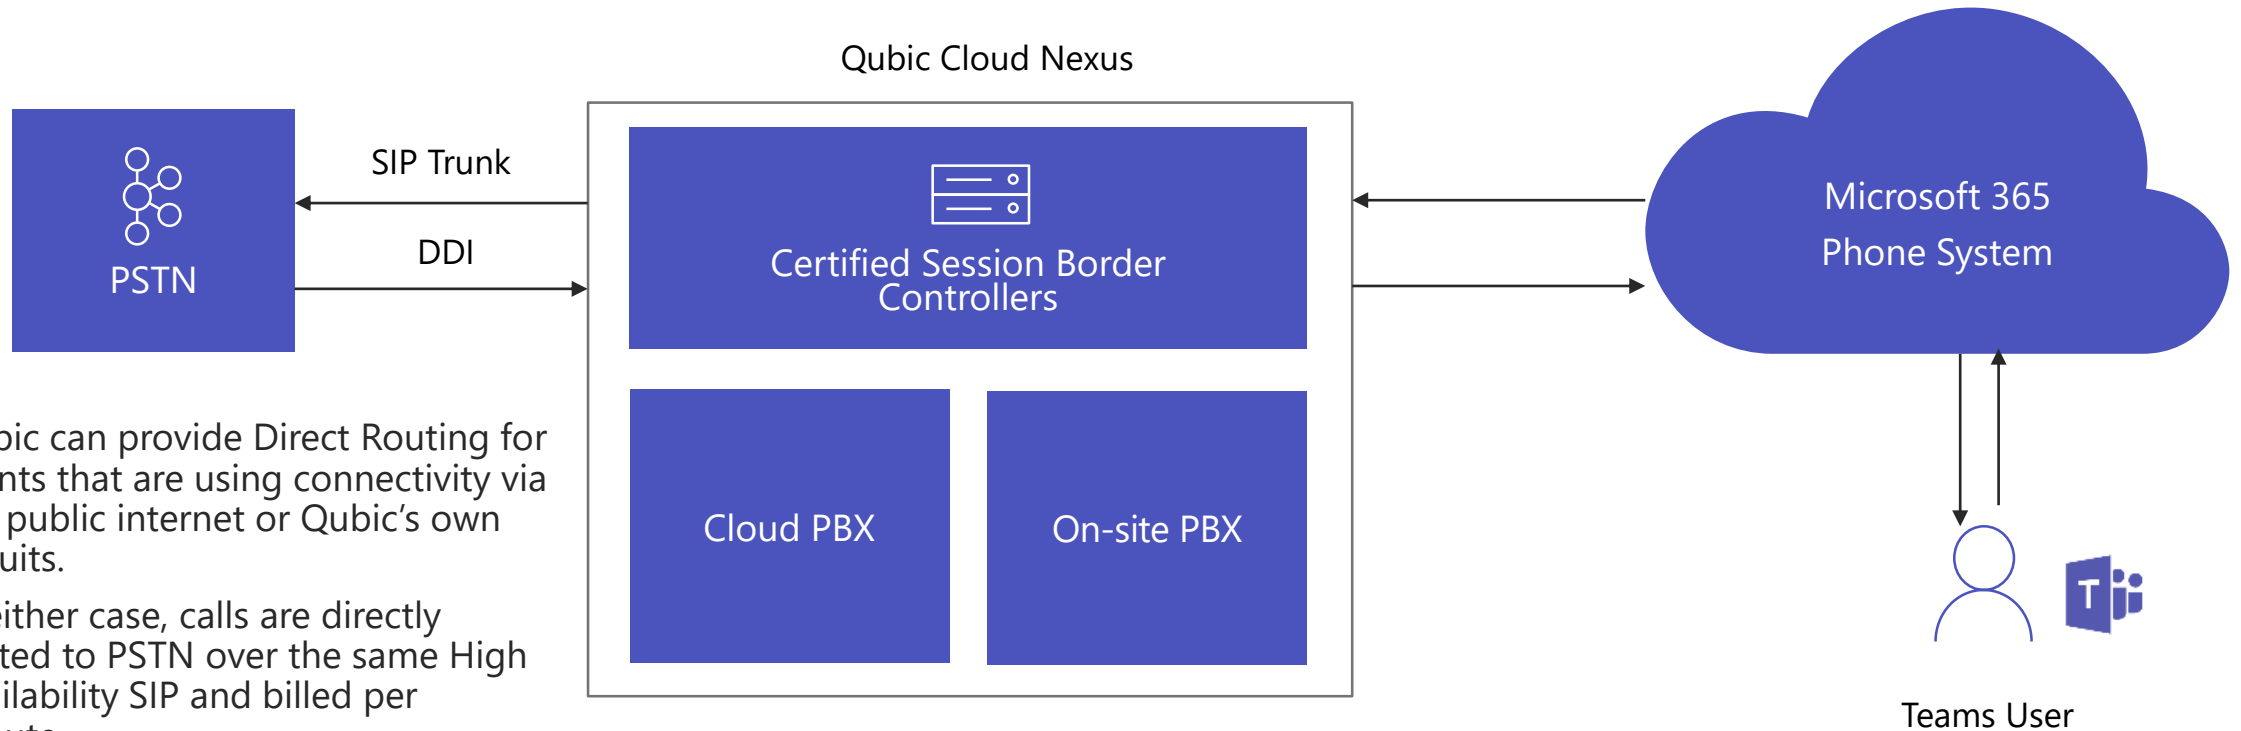

Increase agility and resilience with people able to work from anywhere with the same tools and environment on any device.

Scale globally

Connect your phone system to the public worldwide network and get the power to use Teams telephony wherever your business goes.

Direct Routing for Teams

Qubic can provide Direct Routing for clients that are using connectivity via the public internet or Qubic's own circuits.

In either case, calls are directly routed to PSTN over the same High Availability SIP and billed per minute.

Microsoft Teams Devices

Access intelligent communications

Smarter and faster ways to connect and collaborate with your devices

Built for purpose

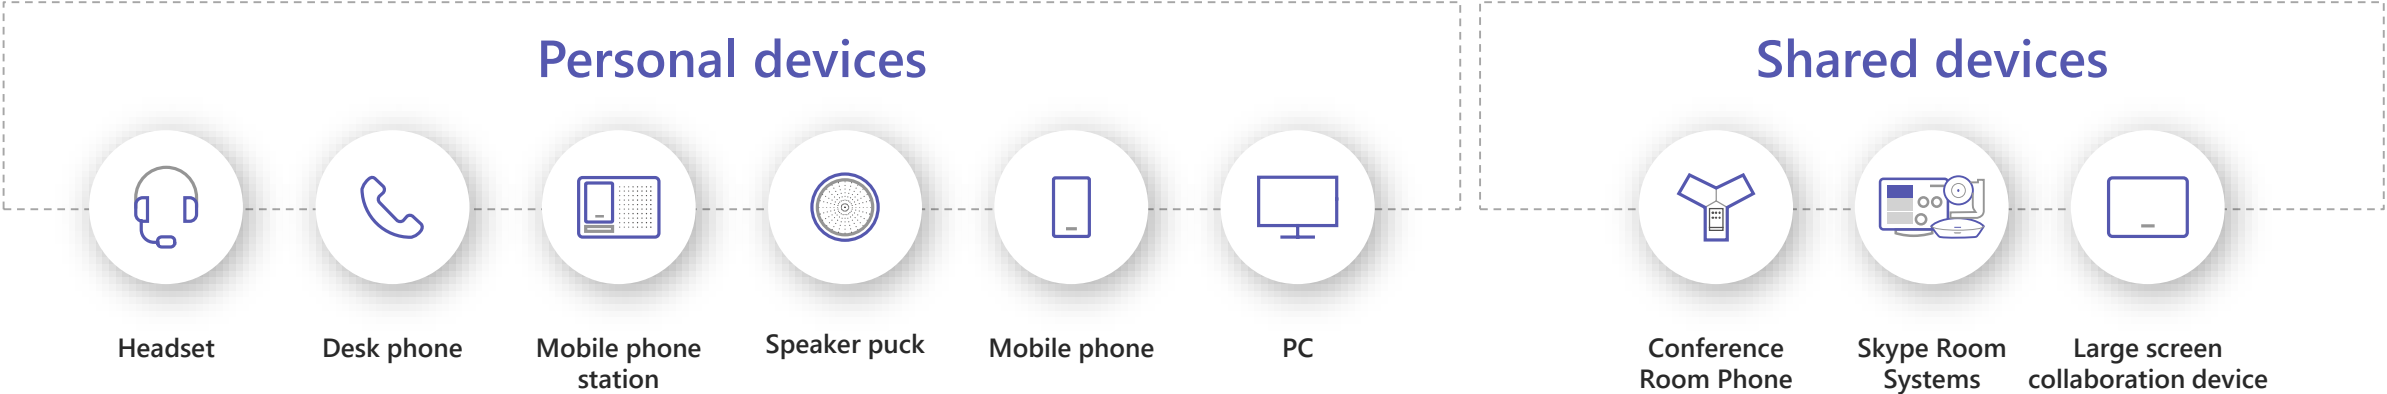

Devices optimized for your spaces and work styles

Work with confidence

Certified devices, with high quality video and audio, enterprise-grade security, and easy set up and management

<https://www.qubicgroup.com/services/telephony/microsoft-teams-devices/>
