Insight

GitHub Copilot Immersion Workshop

Learn how to innovate with next-generation generative AI services on GitHub

Duration: 1 day

Gain awareness and valuable knowledge on GitHub's Copilot with Insight's GitHub Copilot Immersion Workshop. Learn how AI is having tangible impacts to developer productivity and, how you can enable and manage the capability within your organisation. Join us in a facilitated, interactive exploration of GitHub Copilot showcasing the possible and ideating with you on how to turbocharge your development processes.

Uncover AI-led development productivity enhancements by attending Insight's one-day workshop.

Generative AI has been pervasive in media and culture as we attempt to unwrap how we can benefit from these revolutionary technologies. GitHub Copilot presents one of the few real-world practical implementations with immediate benefits to developer productivity.

The GitHub Copilot workshops will provide your organisation with a comprehensive understanding of GitHub Copilot cutting-edge capability including integration in developer tools such as Visual Studio Code, demonstrations of popular language support, early-access of GitHub Copilot-X based on OpenAI's GPT-4 and Copilot chat capability.

Workshop highlights

- Learn about the GitHub Copilot Vision and Roadmap

- Discover the GitHub Copilot Services available on GitHub and explore common use cases

- Understand Governance & Controls for managing Copilot within your Enterprise

- GitHub Copilot – Walk through Demonstration and hands on the services

- Developer workflow ideation session and enablement

What to expect:

During this workshop, we'll partner with you to strengthen your organisation's approach to Generative code development. We'll help you better understand how to adopt GitHub Copilot, with:

Technology exploration

- The workshop consists of demonstration and hands-on sessions providing practical understanding of GitHub Copilot capabilities.
- You will have the opportunity to explore firsthand how GitHub Copilot accelerates developer quality and productivity.

Expert guidance

- The workshop will be led by experts in the field, who will provide you with guidance and feedback throughout the workshop.
- You will have the opportunity to ask questions and receive personalised advice on how to apply GitHub Copilot to your own projects.

Actionable takeaways

- By the end of the workshop, you will have a clear understanding of how GitHub Copilot can be applied to your own projects.
- You will leave with actionable next steps on how to integrate GitHub Copilot into your workflows and processes.

Who should attend

The immersion workshop provides the opportunity to ideate generative code and AI use cases within your organisation and is intended for data and applications development and strategy and decision-makers and their immediate teams such as:

- Chief Technology Officer (CTO)
- IT Manager
- Applications Manager
- Data & AI Manager

About Insight

Insight Enterprises, Inc. is a Fortune 500 solutions integrator with more than 11,500 teammates worldwide helping organisations accelerate their digital journey to modernize their business and maximise the value of technology. We enable secure, end-to-end transformation and meet the needs of our clients through a comprehensive portfolio of solutions, far-reaching partnerships and 33+ years of broad IT expertise. Rated as a Forbes World's Best Employer and certified as a Great Place to Work, we amplify our solutions and services with global scale, local expertise and a world-class e-commerce experience, realising the digital ambitions of our clients at every opportunity.
