Workspace

AI powered repository

Auto sorting · auto prioritization · one click action · doc summary · powerful search · keyboard shortcuts · alerts, notifications, reminders

Create

Create, edit, format the way

Works like MS Word, GDocs · 500+ legally vetted templates · version control · attachments · universally compatible format

Collaborate

Real-time, contextual and on-the-doc

Full feature chat with collaborators · comments & suggestions · internal and external collaboration · all context remains with the doc forever

Controls

Docs, platform and user controls

Unmatched doc controls · internal approvals · configurable platform settings · user rights management · detailed audit trails · real-time tracking

eSign

Legally binding, native eSign

Legally binding · envelopes · easy click and drop stamps · bulk actions · real-time tracking · internal approvals · eSigner identity verification

Teams and use cases

- Sales
- Legal
