EdgeLITy- HCLTech's Edge Solution

HCL

EdgeLITy : An edge enabled operational intelligence

HCLTech EdgeLITy is a 360-degree framework available to digitize Remote sites & Edge locations, encompassing the best practices of Operations, Security governance, Network modernization and Process management. Acting as a platform to build operational intelligence for connected enterprises, allowing customers to explore broader set of functionalities at Edge , helping them transition to true digital enterprise, while leveraging as-a-service model.

Flavors

Edge Lite

No Local Processing ,
Analytics on Cloud / Core

Edge Smart

Local Compute and Storage ,
local Processing , light weight
inference , Cloud / Core for Deep

Edge Power

Local Compute and Storage ,
heavy local Processing AI / ML
at Edge, Micro DC , Deep
Analytics

- Operational Intelligence & Analytical Framework.
- Improved production
- Leverage Edge capabilities for Analytics , learning and innovations.
- Digitization of legacy Infra, Faster GTM
- Unified portal & Common code manage Applications
- Automated Edge Deployment
- Reduced Capex pressure with Pay As you Go Model
- Flexible OEM Choice
- Skilled work force, Single support window

- ✓ Verticalized Edge enabled Solutions to meet the growing data demand with ever increasing connected devices in complex IT/ OT paradigm.
- ✓ Connected and Smart Operations, complimented by Cybersecurity framework and extended IOT, cloud, edge and remote site support.
- ✓ Customized Solutioning & services available on demand to meet ad-hoc scope build projects.
- ✓ Vendor Agnostic approach allows flexibility in overall IT OT Convergence Journey.

- Operational Excellence
- Security & Compliance
- Network Reliability
- Performance Efficiency
- Cost Optimization
- Sustainability

- ### Use Cases
- Manufacturing Insights
 - Data Lifecycle management
 - Cloud Inception & App Modernization
 - AI/ML workload
 - Edge and IOT enablement
 - Production Planning
 - Equipment Utilization & Optimization

- ### Inhouse IP's
- UnifiedOps
 - RMI
 - GRC (Governance, Risk Management, & Compliance)
 - MTaaS

- Dedicated Labs and COE
- Tested Use cases
- 250+ Global Resources
- Verticalized expertise
- Global Support
- 100+ L3 Expertise
