

Marketplace where anyone can book any kind of service online at any time of the day

What is Zoyya?

- Fully customizable & **industry agnostic** appointment management & scheduling app for **all service providers** whose business is based on appointment
- A platform for **efficient business management**, modern communication channels, more accessible **appointment booking** and a shorter way to the service, resulting in increased sales, fewer cancelation and more loyal customers

Problem

- Digital technology, and recently COVID-19, **caused a shift in our habits**. We no longer can or want to wait in queues or book appointments over the email or phone, we want to manage our appointments via mobile apps and book appointments any time of the day
- Traditional appointment booking results in messy **paperwork, lost time** answering the phone and emails and more **no-shows** due to inefficient communication with customers

Solution

Service providers get a **complete solution** for increasing sales, managing schedules and engaging with customers

- ★ **Appointment scheduling**
- ★ **Online service booking**
- ★ **Advanced employee schedules**
- ★ **Advanced resource scheduling**
- ★ **In-app payments**
- ★ **Reporting & analytics**
- ★ **Loyalty programs**
- ★ **Marketing promotions**
