Elevate Customer Experience
Innovate Claims with Azure OpenAI

Kainos provide a secure, integrated Azure OpenAI proof of value (POV) that allows claims handlers to make faster, more robust and transparent decisions and personalise their approach to meet customers' needs.

Our solution offers a seamless experience for claims handlers and customers alike, while considering inclusive design, ethical AI, ESG and the regulatory compliance priorities of insurers.

Implementation over 8-12 weeks delivers:

- Proof of value Azure OpenAI policy document insights physical demonstrator, within your enterprise infrastructure, with integration capability into existing claims systems.

- Kainos will work with your organisation to enable internal teams and users through skills transfer and use dual track agile methodology to deliver value faster.

- Proof of value can serve as the foundation of a roadmap to full production.

Benefits

Improved customer experience and retention through faster, personalised service.

Cost savings through efficiencies and increased customer retention.

Improved employee experience - focus on high value work.

Increased accuracy and substantiation of claim outcomes, mitigating disputes.

Inclusive design, ethical AI, ESG, security and compliance considered.

Azure OpenAI allows insurers to innovate.

Differentiators

- Kainos have real-world implementation experience with Microsoft design patterns

- Kainos are at the forefront of Azure OpenAI development

- Kainos are OWASP LLM security thought leaders

- Kainos are already delivering Azure OpenAI projects with global insurers
