

# Data Foundation

A Modern Data Platform in 4 weeks

 data-driven ai

## WE TURN YOUR DATA INTO ACTIONABLE INSIGHTS

Access all your data in one place to unlock real business value!

## The Benefits for your Business

### Consolidate your Data

Ingest data of any size and type, ready for analytics and exploration

### Low Operating Cost

Only pay for what you use with elastic scale, transparent pricing and infinite storage

### Data Science Ready

Your platform is ready for advanced analytics and different business use-cases

## CONSOLIDATE AND ANALYSE YOUR DATA

1

### Choose the Outcome

We work with your business to find a problem that we can solve with data as the first use-case

2

### Build the Platform

We build a modern Data Lake using secure, highly-scalable technology on the Azure cloud

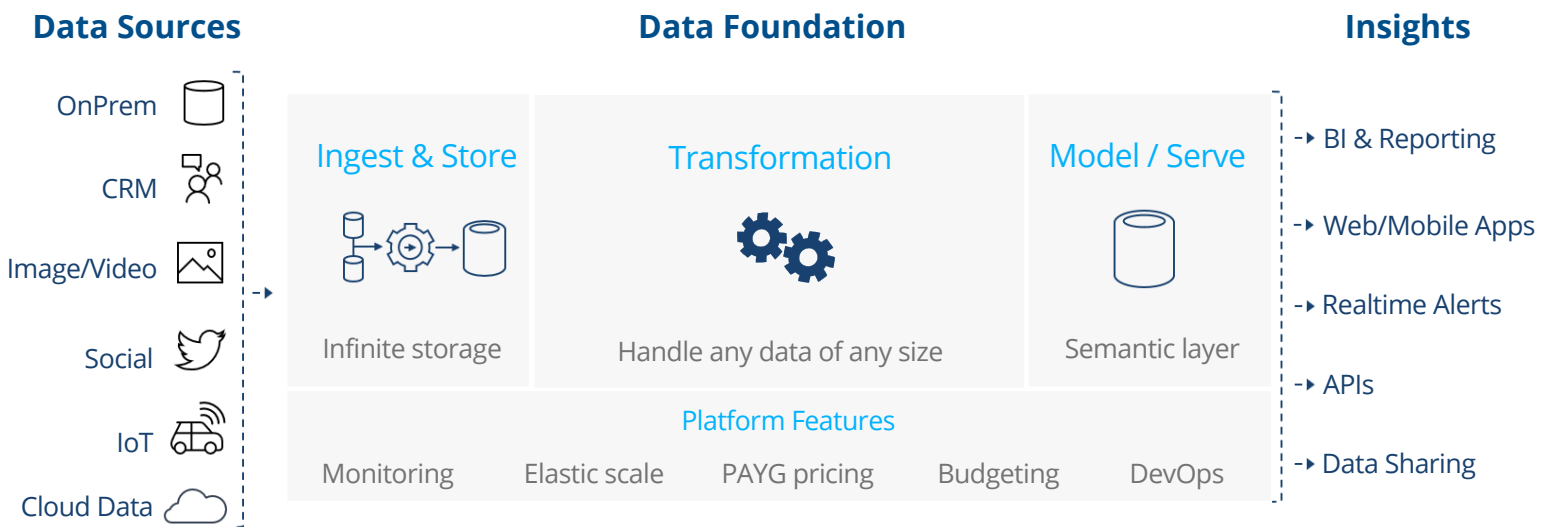

3

### Get Insights

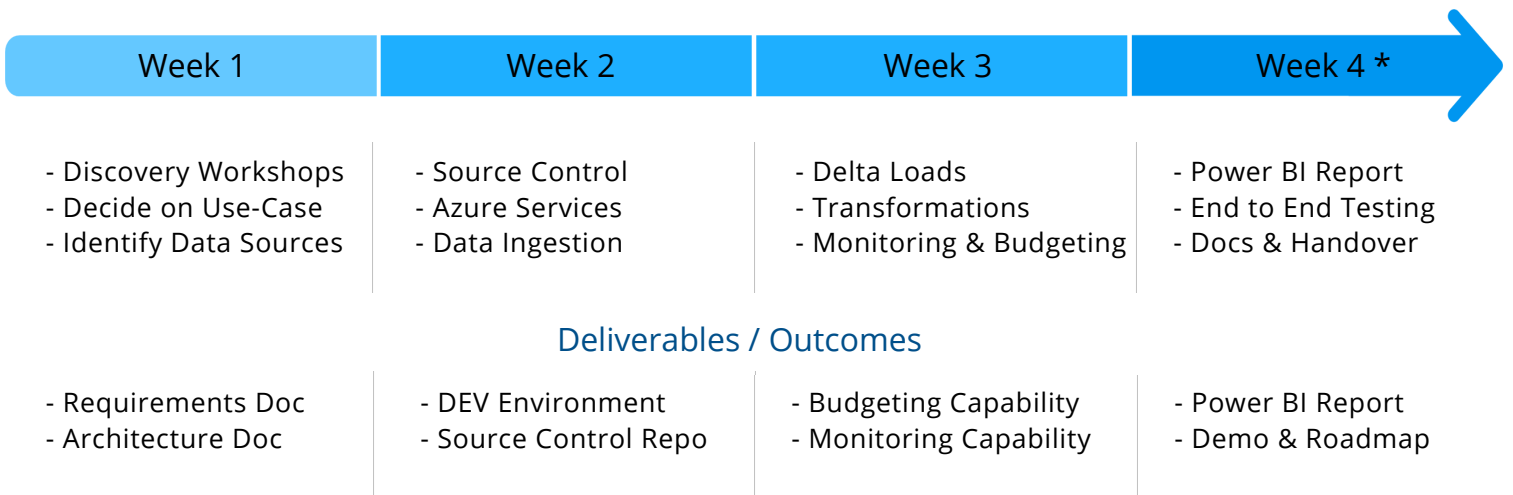

We surface the insights in a Power BI report for you to extend as needed

# LIBERATE YOUR DATA WITH A MODERN DATA PLATFORM

- ✓ Analytics on images, videos or text
- ✓ First step towards Machine Learning
- ✓ Easily extend with future use-cases

## Our Agile Delivery Approach

\* Estimate is for DEV Environment and is dependant on complexity of use-case and data sources
