Give your team the superpowers they need

Single point of access to information

Find your information quickly and easily to gain in efficiency.

Capitalization of knowledge

Keep the experience of each project, gain profitability through the learning curve and produce process innovations.
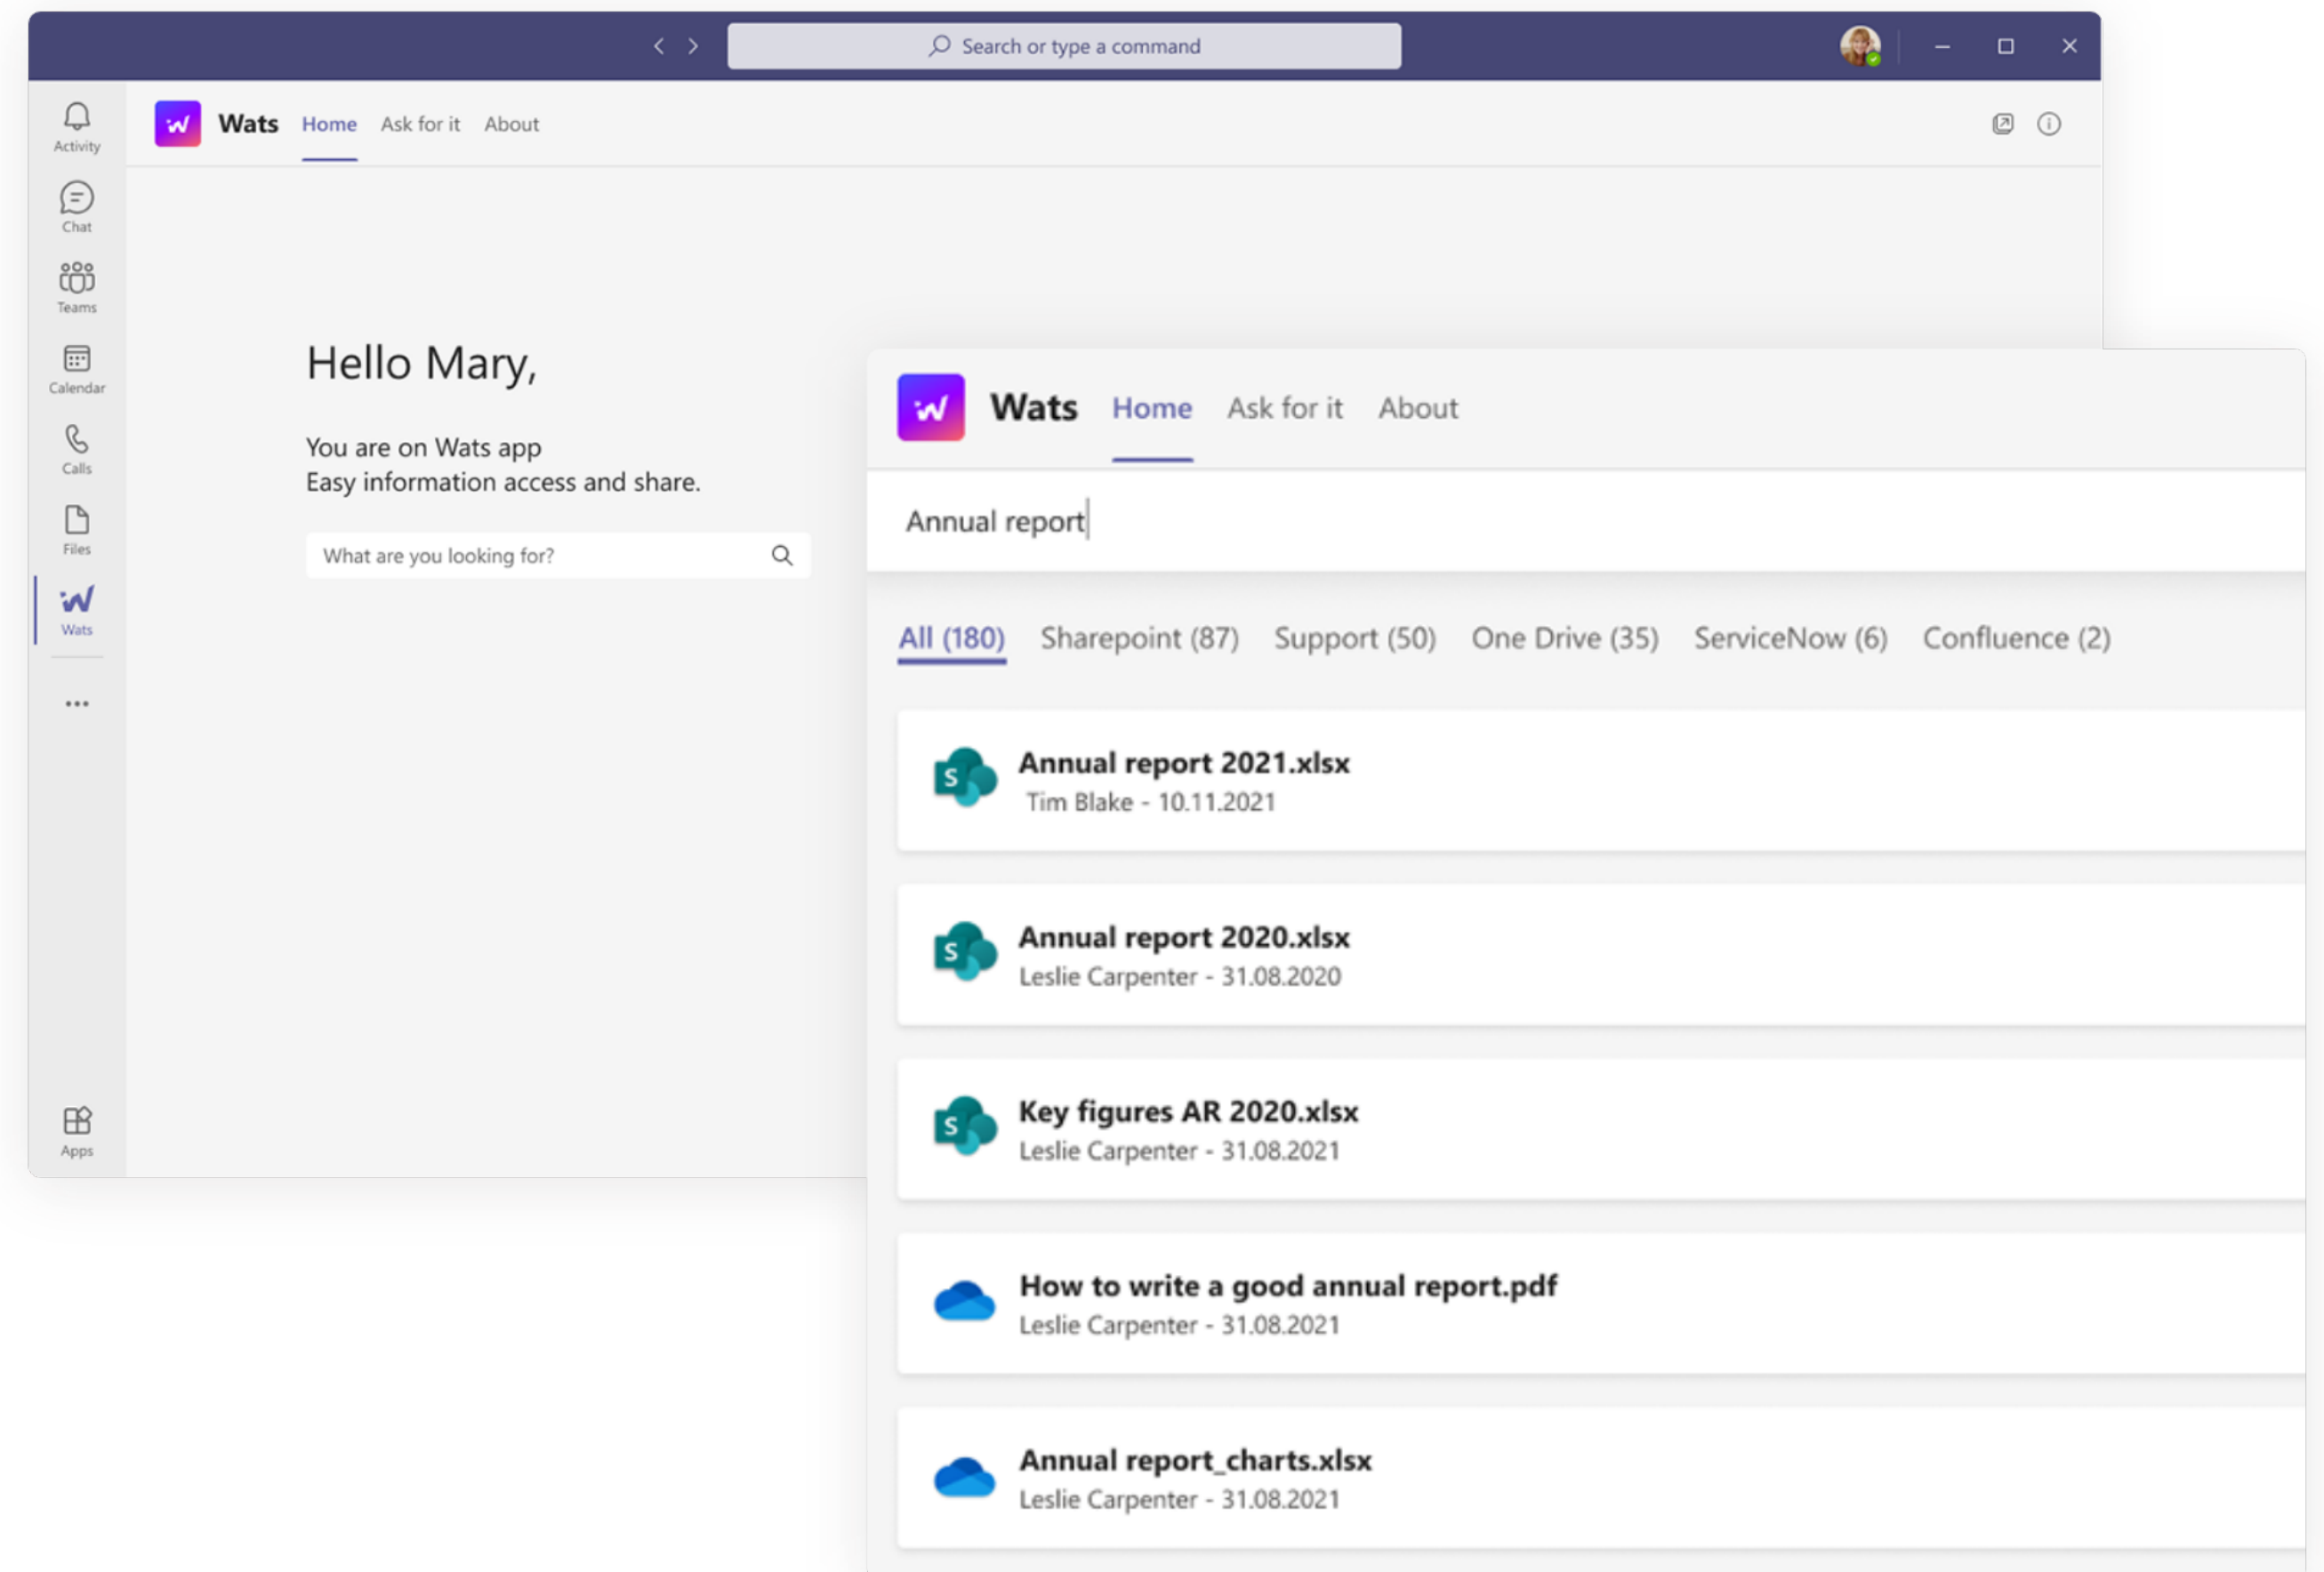

Valuation of experts and talents

Let your experts shine to unleash the full power of your organization.

wats

App Wats MS Teams - Search Engine

Find the information

→ All your documents accessible in one click (Sharepoint, businesses)

→ Simplified search by keyword
(Tags, synonyms, expertise, differentiation of results according to profiles)

→ Directly query all relevant tools and and knowledge bases

App Wats MS Teams - Ask for it

Capitalize on your exchanges

Ask your question and tap into the expertise of your peers ←

The question is automatically sent to the right Teams community ←

The questions and answers are then capitalized and available to all ←

wats

App Wats MS Teams - Admin

Manage access and sharing

→ Select in one click the databases that are connected to the search engine

→ Set up the guidance of your teams: definition of keywords for dedicated teams

→ All future questions containing the keyword(s) will be sent to the selected team
