SERVICE BRIEF

Microsoft Azure Active Directory Services

Solidify your Microsoft Azure Active Directory migration, readiness and roadmap strategy

As the most widely deployed cloud-based directory, Microsoft Azure Active Directory (AD) is pervasive across most industries. Existing directories that are being migrated to Azure AD or existing environments that lack a comprehensive strategy are also vulnerable to incoming threats and potential breaches.

To achieve a comprehensive strategy, organizations need to be fully onboarded to Microsoft Azure AD with a full understanding of their configuration, directory health and a strategic consumption plan. With the goal of guiding you every step of the way, Optiv offers specialized services to get you there by leveraging best practices and industry expertise with the end goal of ensuring that your Microsoft cloud strategy is achievable and secure.

OPTIV ENSURES A SECURE AND SEAMLESS PATH TO MICROSOFT AZURE AD

How Do We Do It?

EXECUTIVE BUY-IN
Provide incremental wins and data points that the business and its executives can stand behind.

STRATEGY DEVELOPMENT
Following Microsoft guidelines and Optiv best practices, develop a comprehensive strategy.

FUTURE-PROOF PLANNING
Arm you with a roadmap for future consumption of your defined and expanded Azure services.

SEAMLESS MIGRATION
Execute migration services with zero interruption to your business functions including onboarding/offboarding processes.

Optiv Microsoft Azure Active Directory Services

MIGRATION
A secure migration of an on-premise directory to Microsoft Azure AD for either hybrid or 100% cloud deployments.

ASSESSMENT
An assessment to review the infrastructure, services configuration and directory health with a report on vulnerabilities prioritized for remediation.

ROADMAP
A strategic consumption roadmap of Microsoft Azure AD including planning and tactical objectives to ensure a seamless adoption.

Why Clients Choose Optiv

12+ Years
Average amount of experience across our 90 Identity and Data experts

Holistic Approach
Optiv approaches Microsoft technologies with end-to-end services from multiple areas of expertise

Agile and Proactive
Optiv's approach can advance how Microsoft features are securely used and consumed

Solution Expertise
Extension of the Microsoft Team with extensive Microsoft and Azure capabilities

Case Study

CUSTOMER PROFILE
Manufacturing Company

CHALLENGE
Transitioning multiple on-premise directories to Microsoft Azure AD to support their cloud migration initiative.

SOLUTION APPROACH
- Address their current directories and what needs to be migrated.
- Develop a migration plan with remediation activities to correct any discrepancies that were discovered.
- Execute migration and verify its success with a checklist including onboarding/offboarding analysis of users and verify migration of in-scope Microsoft Azure AD objects.

OUTCOMES
A non-disruptive migration to Microsoft Azure AD with full availability and utilization of Microsoft capabilities and applications.

Secure your security.™

Optiv is a security solutions integrator – a "one-stop" trusted partner with a singular focus on cybersecurity. Our end-to-end cybersecurity capabilities span risk management and transformation, cyber digital transformation, threat management, cyber operations, identity and data management, and integration and innovation, helping organizations realize stronger, simpler and more cost-efficient cybersecurity programs that support business requirements and outcomes. At Optiv, we are leading a completely new approach to cybersecurity that enables clients to innovate their consumption models, integrate infrastructure and technology to maximize value, achieve measurable outcomes, and realize complete solutions and business alignment.
